FINANCIAL HIGHLIGHTS

Dollars in millions, except per-share amounts.

Summary of Financial Data	2008	2007	2006
Net sales	\$7,884.7	\$7,566.7	\$6,650.4
Reportable segment operating profit	1,156.8	1,107.0	734.8
Net interest expense ¹	214.4	306.3	329.8
Earnings (loss) from continuing operations	251.5	299.3	(3.8)
Net earnings (loss)	258.3	1,340.6	(27.5)
Diluted earnings (loss) per share: ²			
Earnings (loss) from continuing operations	1.48	1.78	(0.17)
Net earnings (loss)	1.52	7.99	(0.32)
Continuing operations:			
Capital expenditures	361.7	292.5	285.0
Depreciation	431.0	423.4	427.7
Amortization of intangibles	28.9	28.9	22.3
Free cash flow ³	345.9	332.6	(46.7)
Total debt	3,334.1	3,714.4	5,456.6
Management working capital as a % of net sales ⁴	16.3%	18.6%	19.2%
Gross profit %	21.3%	21.1%	17.6%
Operating expense as a % of net sales ⁵	7.3%	7.7%	8.7%

¹ Includes charges for note repurchase premiums of \$7.9 million in 2007 and \$6.2 million in 2006.

² The net effect of asbestos-related charges and unusual items in 2008 was a decrease of \$2.32 per share. The net effect in 2007 was a decrease of \$1.16 per share. The net effect in 2006 was a decrease of \$1.15 per share.

³ Free cash flow is defined as cash provided by continuing operating activities less capital expenditures for continuing operations.

⁴ Management working capital is defined as accounts receivable, inventory, and repair parts less accounts payable.

⁵ Operating expense equals selling and administrative expense plus research, development and engineering expense.

Pictured on the front cover is an engineer in Perrysburg, Ohio; an accounts payable team leader in Bussigny, Switzerland; and an operations employee in Melbourne, Australia. These three employees represent our more than 23,000 employees worldwide.

Dear Fellow Stakeholders:

2008 was a year full of challenges — from skyrocketing energy costs to unprecedented credit restrictions that led to a crippled global economy. While all of these issues certainly had an impact on O-I, I am very proud to report that we had our best year ever in terms of earnings and productivity. We attribute this success to our adherence to sound financial and business principles, and to the amazing resilience and adaptability of the 23,000 people who make up this company.

O-I has been in the midst of a transformation for several years, a transformation aimed at becoming a more market-based, customer-focused global enterprise. We have a strong and proud history of being the leader in the glass industry — and we have more expertise, more technology and more capabilities than any other manufacturer of glass packaging. Our challenge has been to reshape the structure of our operations to eliminate over-capacity and improve operational efficiency, while refocusing our talents on marketing innovative glass solutions and offering technologies that will help our customers differentiate themselves in the marketplace. And we have the good fortune to be doing all of this as a maker of the world's safest, purest and most recyclable packaging material.

Our financial performance improved significantly in 2008, especially when compared to our results of two years prior. Earnings from continuing operations in 2008, excluding unusual items, were \$3.80 per share, up 29% from \$2.94 in 2007, and nearly four times 2006 earnings per share. Sales increased from \$7.6 billion in 2007 to \$7.9 billion in 2008. And more importantly, we increased our profitability significantly — from a margin of 11.2% in 2006 to margins of 14.8% in 2007 and 2008.

Many of the steps we took in 2007 to improve our financial flexibility, streamline our business and boost profitability paid off in 2008.

Reducing our debt by \$2.2 billion over the last

two years and at the same time maintaining free cash flow has created a much stronger and sustainable balance sheet. As a result, our liquidity and financial flexibility have been unaffected by the credit crisis that began in the latter half of the year. Focusing on free cash flow generation, which was \$346 million for full year 2008, allows us to pursue many strategic options, including the ability to expand our business when and where we deem appropriate. We remain committed to targeted and profitable growth in our geographic regions and extending our reach to those countries where we are not yet doing business or are underrepresented. For instance, we are adding new furnaces in our Auckland, New Zealand plant, as well as in Lurin, Peru, to meet the growing demands of customers in those regions.

Our financial results in 2008 can largely be attributed to the very rigorous margin improvement strategy first introduced in 2007. This strategy emphasizes value over volume and seeks to establish contract terms with our customers that provide timely price adjustments for the most volatile cost components of our products. The new strategy, which reflects more clearly the value and service we bring to the customer, will continue to serve as the cornerstone of our profitability improvement.

FREE CASH FLOW

\$ in Millions

Our focus on repairing margins forced us to look at our operations more holistically. We have made great progress in working, thinking and functioning as one O-I, and we have made steady productivity improvements in all regions of the globe. These efficiencies, coupled with the need to adjust for the generally unattractive business we gave up, provided significant opportunity for consolidation in our installed manufacturing base. Beginning late in 2007 and over the course of 2008, we closed down four plants and shut down an additional four furnaces, for 11 furnaces total.

In the back half of the year, consumption decreased as the global economy slowed dramatically. In response, we moved quickly to conserve cash via aggressive temporary production curtailments. We made all of these adjustments, permanent and temporary, without impacting our ability to meet all of our customer needs.

As a manufacturing-based company, with 80% of our employee population working in plants in 22 different countries, we are perhaps most proud of the progress we have made in improving our operations at all levels. We are working from the top down and bottom up to achieve this kind of change. Through the use of Lean Six Sigma methodologies and other plant-based initiatives, we are creating a data-driven culture that values the input of individuals at all levels. We are seeing tremendous results from these initiatives and expect them to add even more value in the years to come.

Having successfully set our company on the right path over the last couple of years, we took time in 2008 to consider the path forward. After undertaking a thorough analysis of the business and market developments, we established four strategic priorities to guide us in the future. These priorities were established to achieve the ultimate goal of increasing shareholder return. They focus on four critical areas: marketing glass, innovation and technology, strategic and profitable growth, and operational excellence.

In each of these areas we have identified key objectives and are in the process of mapping out specific steps in each of our geographic regions and in each of our functions to help achieve these goals. We are using the Balanced Scorecard tool and process to help guide us in this endeavor.

STRATEGIC PRIORITIES

Optimize Shareholder Return

Functioning as an umbrella to all of our priorities is our commitment to corporate sustainability. In 2008 we created a leadership position responsible for overseeing the definition and achievement of our sustainability goals as a company. We have established goals to reduce our emissions, lower our energy consumption, and increase the amount of cullet (recycled glass) we use. We are now working to coordinate and develop processes to achieve these goals. Equally important is the role we play in the sustainability stories of our customers and consumers in general. Glass is by far the most environmentally friendly packaging material available today. This presents us with an enormous opportunity.

As the largest manufacturer of glass packaging worldwide, it is our responsibility to create the future of glass. It is up to us to serve as ambassadors of glass, and to intensify our marketing to bring about more widespread use of glass packaging for products currently being provided in plastic and other materials. We are investing in technology and people to develop new products and new solutions for our customers. We are embarking on marketing programs in which we will partner with customers and potential customers to identify opportunities for glass. As the only cradle-to-cradle packaging material, glass offers many unique benefits. Not only is recycled glass used to create new glass containers suitable for food and beverages, glass bottles can be refilled and reused in their original form. We know there is no better packaging solution and we believe it is important to educate others about all of the benefits of glass, especially in a world growing more and more concerned about food safety.

I could not be prouder of the results we achieved in 2008, both financially and operationally. All of the strategies and initiatives undertaken in 2007 continued to bear fruit in 2008, proving we are focusing on the areas of greatest impact. As I begin my third year as CEO of O-I, I continue to be impressed and moved by the integrity and commitment of the people who make up this great company. We have asked a lot of them, and they have delivered over and over again. Their resilience and the way they have embraced change is an indicator of the vast potential yet to be realized. This bodes well for O-I and our stakeholders. Although we will be facing significant business challenges in 2009 from what appears to be a still weakening economy, we are in the best position ever to address those challenges – financially and operationally. While we fully recognize that we will not be immune to these headwinds, we are confident of our continued ability to grow, improve and lead the industry to create the future of glass.

A handwritten signature in black ink, appearing to read 'Al Stroucken', with a long horizontal flourish extending to the right.

PART I

ITEM 1. BUSINESS

General Development of Business

Owens-Illinois, Inc. (the “Company”), through its subsidiaries, is the successor to a business established in 1903. The Company is the largest manufacturer of glass containers in the world, with leading positions in Europe, North America, Asia Pacific and South America.

Strategic Priorities and Competitive Strengths

The Company is pursuing the following strategic priorities aimed at optimizing shareholder return:

- Marketing Glass – promote its value added benefits and communicate its earth-friendly attributes
- Strategic & Profitable Growth – expand presence in growing markets and enter growing markets where we do not have a presence
- Innovation & Technology – focus on product innovation that adds value for customers and develop technology that provides a sustainable advantage
- Operational Excellence – continuous productivity improvement, pricing strategy to improve margins, and disciplined use of cash

Beginning in 2007, the Company commenced a strategic review of its global profitability and manufacturing footprint. Since undertaking this review, the Company has announced the idling of capacity or closing of facilities involving 11 furnaces and approximately 1,800 job eliminations. The Company expects to conclude the current global review in 2009. The Company believes these actions, combined with its pricing initiatives, will contribute to optimizing shareholder return.

The Company has 80 glass manufacturing plants in 22 countries.

Technology Leader

The Company believes it is a technological leader in the worldwide glass container segment of the rigid packaging market in which it competes. During the five years ended December 31, 2008, on a continuing operations basis, the Company invested more than \$1.5 billion in capital expenditures (excluding acquisitions) and more than \$264 million in research, development and engineering to, among other things, improve labor and machine productivity, increase capacity in growing markets and commercialize technology into new products.

Worldwide Corporate Headquarters

The principal executive office of the Company is located at One Michael Owens Way, Perrysburg, Ohio 43551; the telephone number is (567) 336-5000. The Company’s website is www.o-i.com. The Company’s annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 can be obtained from this site at no cost. The Company’s Corporate Governance Guidelines, Code of Business Conduct and Ethics and the charters of the Compensation, Nominating/Corporate Governance and Audit Committees are also available on the Investor Relations

section of the Company's web site. Copies of these documents are available in print to share owners upon request, addressed to the Corporate Secretary at the address above.

Financial Information about Reportable Segments

Information as to sales, earnings from continuing operations before interest income, interest expense, provision for income taxes and minority share owners' interests in earnings of subsidiaries and excluding amounts related to certain items that management considers not representative of ongoing operations ("Segment Operating Profit"), and total assets by reportable segment is included in Note 20 to the Consolidated Financial Statements.

Narrative Description of Business

Below is a description of the business and information to the extent material to understanding the Company's business taken as a whole.

Products and Services, Customers, Markets and Competitive Conditions, and Methods of Distribution

The Company is the largest manufacturer of glass containers in the world. The Company is the leading glass container manufacturer in 17 of the 22 countries where it competes in the glass container segment of the rigid packaging market, including the U.S., and the sole manufacturer of glass containers in 8 of these countries.

Products and Services

The Company produces glass containers for beer, ready-to-drink low alcohol refreshers, spirits, wine, food, tea, juice and pharmaceuticals. The Company also produces glass containers for soft drinks and other non-alcoholic beverages, principally outside the U.S. The Company manufactures these products in a wide range of sizes, shapes and colors. The Company is active in new product development and glass container innovation.

Customers

In most of the countries where the Company competes, it has the leading position in the glass container segment of the rigid packaging market based on sales revenue. The largest customers include many of the leading manufacturers and marketers of glass packaged products in the world. In the U.S., the majority of customers for glass containers are brewers, wine vintners, distillers and food producers. The Company also produces glass containers for soft drinks and other non-alcoholic beverages, principally outside the U.S. The largest U.S. glass container customers include (in alphabetical order) Anheuser-Busch InBev, Brown Forman, Diageo, Miller/Coors, PepsiCo, and Saxco-Demptos, Inc. The largest glass container customers outside the U.S. include (in alphabetical order) Anheuser-Busch InBev, Carlsberg, Diageo, Foster's, Heineken, Lion Nathan, Molson/Coors, and SABMiller. The Company is a major glass container supplier to all of these customers.

The Company sells most of its glass container products directly to customers under annual or multi-year supply agreements. Multi-year contracts typically provide for price adjustments based on cost changes with annual limitations. The Company also sells some of its products through distributors. Glass container production is typically scheduled to maintain reasonable levels of inventory.

Markets and Competitive Conditions

The principal markets for glass container products made by the Company are in Europe, North America, Asia Pacific, and South America. The Company believes it is a low-cost producer in the glass container segment of the rigid packaging market in many of the countries in which it competes. Much of this cost advantage is due to proprietary equipment and process technology used by the Company. The Company's machine development activities and systematic upgrading of production equipment begun in the 1990's and early 2000's support its low-cost leadership position in the glass container segment in many of the countries in which it competes, a key strength to competing successfully in the rigid packaging market.

The Company has the leading share of the glass container segment of the U.S. rigid packaging market based on sales revenue by domestic producers in the U.S. The principal glass container competitors in the U.S. are Saint-Gobain Containers, Inc., a wholly-owned subsidiary of Compagnie de Saint-Gobain, and Anchor Glass Container Corporation. In addition, imports from Mexico and other countries compete in U.S. glass container segments. Additionally, a few major consumer packaged goods companies also self-manufacture glass containers.

In supplying glass containers outside of the U.S., the Company competes directly with Compagnie de Saint-Gobain in Europe and Brazil, Ardagh plc in the U.K., Germany, and Poland, Vetropak in the Czech Republic and Amcor Limited in Australia. In other locations in Europe, the Company competes indirectly with a variety of glass container firms including Compagnie de Saint-Gobain, Vetropak and Ardagh plc. Except as mentioned above, the Company does not compete with any large, multi-national glass container manufacturers in South America or the Asia Pacific region.

In addition to competing with other large, well-established manufacturers in the glass container segment, the Company competes with manufacturers of other forms of rigid packaging, principally aluminum cans and plastic containers, on the basis of quality, price, service and the marketing attributes of the container. The principal competitors producing metal containers are Amcor, Ball Corporation, Crown Holdings, Inc., Rexam plc, and Silgan Holdings Inc. The principal competitors producing plastic containers are Consolidated Container Holdings, LLC, Graham Packaging Company, Plastipak Packaging, Inc. and Silgan Holdings Inc. The Company also competes with manufacturers of non-rigid packaging alternatives, including flexible pouches and aseptic cartons.

The Company's unit shipments of glass containers in countries outside of the U.S. have grown substantially from levels in earlier years. The Company has added to its international operations by acquiring glass container companies, many of which have leading positions in growing or established markets, increasing capacity at select foreign subsidiaries, and having a global network of glass container companies that license its technology. In many developing countries, the Company's international glass operations have benefited in the last ten years from increased consumer spending power, a trend toward the privatization of industry, a favorable climate for foreign investment, lowering of trade barriers and global expansion programs by multi-national consumer companies.

Europe. The Company's European glass container business, headquartered in Switzerland, has consolidated manufacturing operations in 11 countries and is the largest in Europe. The Company is a leading producer of wine and champagne bottles in France. In Italy, the Company is the leading manufacturer of glass containers. In Germany, the Company's key customers include Jägermeister, Unilever, and Nestle Europe. In The Netherlands, the Company is one of the leading suppliers of glass containers to Heineken. The Company is a leading manufacturer of glass containers for the U.K. spirits business. In Spain, the Company serves the market for olives in the Sevilla area and the market for wine bottles in the Barcelona and southern France area. In Poland, the Company is the leading glass container

manufacturer and operates two plants. The Company is the leading glass container manufacturer in the Czech Republic. In Hungary, the Company is the sole glass container manufacturer and serves the Hungarian food industry. In Finland and the Baltic country of Estonia, the Company is the only manufacturer of glass containers. The Company coordinates production activities between Finland and Estonia in order to efficiently serve the Finnish, Baltic and Russian markets. In recent years, Western European brewers have been establishing beer production facilities in Central Europe and the Russian Republic. Because these new beer plants use high-speed filling lines, they require high quality glass containers in order to operate properly. The Company believes it is well positioned to meet this demand.

North America. In addition to the glass container operations in the U.S., the Company's subsidiary in Canada is the sole manufacturer of glass containers in that country.

South America. The Company is the sole manufacturer of glass containers in Colombia, Ecuador and Peru. In both Brazil and Venezuela, the Company is the leading manufacturer of glass containers. In South America, there is a large infrastructure for returnable/refillable glass containers. However, over the last several years, unit sales of non-returnable glass containers increased across countries in which the Company operates.

Asia Pacific. The Company has glass operations in four countries in the Asia Pacific region: Australia, New Zealand, Indonesia and China. In this region, the Company is the leading manufacturer of glass containers in most of the countries in which it competes. In Australia, the Company's subsidiary operates four glass container plants including a plant focused on serving the needs of the growing Australian wine industry. In New Zealand, the Company is the sole glass container manufacturer. In Indonesia, the Company supplies the Indonesian market and exports glass containers to a number of countries. In China, the glass container segments of the packaging market are regional and highly fragmented with a number of local competitors. The Company has four glass container plants in China, manufacturing containers to serve a wide range of customers both domestically and abroad.

The Company continues to focus on serving the needs of leading multi-national consumer companies as they pursue international growth opportunities. The Company believes that it is often the glass container partner of choice for such multi-national consumer companies due to its leadership in glass technology and its status as a high quality producer in most of the markets it serves.

Manufacturing

The Company believes it is a low-cost producer in the North American rigid packaging market, as well as a low-cost producer in many of the international glass segments in which it competes. Much of this cost advantage is due to the Company's proprietary equipment and process technology. The Company believes its proprietary high volume glass forming machines, developed and refined by its engineering group, are significantly more efficient and productive than those used by competitors. The Company's machine development activities and systematic upgrading of production equipment have given it a low-cost leadership position in the glass container segment in most of the countries in which it competes, a key strength to competing successfully in the rigid packaging market.

The Company operates two machine shops that assemble and repair high-productivity glass-forming machines as well as several mold shops that manufacture molds and related equipment.

Methods of Distribution

Due to the significance of transportation costs and the importance of timely delivery, glass container manufacturing facilities are generally located close to customers. In the U.S., most of the Company's glass container products are shipped by common carrier to customers within a 250-mile radius of a given production site. In addition, the Company's glass container operations outside the U.S. export some products to customers beyond their national boundaries, which may include transportation by rail and ocean delivery in combination with common carriers.

Suppliers and Raw Materials

The primary raw materials used in the Company's glass container operations are sand, soda ash, limestone and recycled glass. Each of these materials, as well as the other raw materials used to manufacture glass containers, has historically been available in adequate supply from multiple sources. One of the sources is a soda ash mining operation in Wyoming in which the Company has a 25% interest. For certain raw materials, however, there may be temporary shortages due to weather or other factors, including disruptions in supply caused by raw material transportation or production delays.

Energy

The Company's glass container operations require a continuous supply of significant amounts of energy, principally natural gas, fuel oil, and electrical power. Adequate supplies of energy are generally available to the Company at all of its manufacturing locations. Energy costs typically account for 15-25% of the Company's total manufacturing costs, depending on the cost of energy, the factory location, and its particular energy requirements. The percentage of total cost related to energy can vary significantly because of volatility in market prices, particularly for natural gas and fuel oil in volatile markets such as North America and Europe. In order to limit the effects of fluctuations in market prices for natural gas, the Company uses commodity futures contracts related to its forecasted requirements in North America. The objective of these futures contracts is to reduce the potential volatility in cash flows and expense due to changing market prices. The Company continually evaluates the energy markets with respect to its forecasted energy requirements in order to optimize its use of commodity futures contracts. If energy costs increase substantially in the future, the Company could experience a corresponding increase in operating costs, which may not be fully recoverable through increased selling prices.

Glass Recycling

The Company is an important contributor to the recycling effort in the U.S. and abroad and continues to melt substantial recycled glass tonnage in its glass furnaces. The Company is the largest user of recycled glass containers. If sufficient high-quality recycled glass were available on a consistent basis, the Company has the technology to operate using up to 90% recycled glass. Using recycled glass in the manufacturing process reduces energy costs and prolongs the operating life of the glass melting furnaces.

ADDITIONAL INFORMATION

Technical Assistance License Agreements

The Company has agreements to license its proprietary glass container technology and provide technical assistance to 19 companies in 19 countries. These agreements cover areas related to manufacturing and engineering assistance. The worldwide licensee network provides a stream of revenue to support the Company's development activities and gives it the opportunity to participate in the rigid packaging market in countries where it does not already have a direct presence. In addition, the Company's technical

agreements enable it to apply "best practices" developed by its worldwide licensee network. In the years 2008, 2007 and 2006, the Company earned \$18.6 million, \$19.7 million and \$16.5 million, respectively, in royalties and net technical assistance revenue on a continuing operations basis.

Research and Development

The Company believes it is a technological leader in the worldwide glass container segment of the rigid packaging market. Research, development, and engineering constitute important parts of the Company's technical activities. On a continuing operations basis, research, development, and engineering expenditures were \$66.6 million, \$65.8 million, and \$48.7 million for 2008, 2007, and 2006, respectively. The Company's research, development and engineering activities include new products, manufacturing process control, automatic inspection and further automation of manufacturing activities.

Environmental and Other Governmental Regulation

The Company's worldwide operations, in common with those of the industry generally, are subject to extensive laws, ordinances, regulations and other legal requirements relating to environmental protection, including legal requirements governing investigation and clean-up of contaminated properties as well as water discharges, air emissions, waste management and workplace health and safety.

In the U.S., Canada, Europe and elsewhere, a number of government authorities have adopted or are considering legal requirements that would mandate certain rates of recycling, the use of recycled materials, or limitations on or preferences for certain types of packaging. The Company believes that governments worldwide will continue to develop and enact legal requirements seeking to, or having the effect of, guiding customer and end-consumer packaging choices.

In North America, sales of beverage containers are affected by governmental regulation of packaging, including deposit return laws. As of January 1, 2009, there were 11 U.S. states with bottle deposit laws in effect, requiring consumer deposits of between 4 and 15 cents, USD, depending on the size of the container. In Canada, there are 8 provinces with consumer deposits between 5 and 20 cents Canadian, depending on the size of the container. In Europe a number of countries have some form of consumer deposit law in effect, including Austria, Belgium, Denmark, Finland, Germany, The Netherlands, Norway, Sweden and Switzerland. The structure and enforcement of such laws and regulations can impact the sales of beverage containers in a given jurisdiction. Such laws and regulations also impact the availability of post-consumer recycled glass for the Company to use in container production.

A number of U.S. states and Canadian provinces have recently considered or are now considering laws and regulations to encourage curbside, deposit return, and on-premise recycling. Although there is no clear trend in the direction of these state and provincial laws and regulations, the Company believes that U.S. states and Canadian provinces, as well as municipalities within those jurisdictions, will continue to adopt recycling laws which will affect supplies of post-consumer recycled glass. As a large user of post-consumer recycled glass for bottle-to-bottle production, the Company has an interest in laws and regulations impacting supplies of such material in its markets.

The European Union Emissions Trading Scheme ("EUETS") commenced January 1, 2005. The EU has committed to Kyoto Protocol emissions reduction targets and the EUETS is intended to facilitate such reduction. The Company's manufacturing installations which operate in EU countries will need to restrict the volume of their CO₂ emissions to the level of their individually allocated Emissions Allowances as set by country regulators. If the actual level of emissions for any installation exceeds its allocated allowance, additional allowances can be bought on the market to cover deficits; conversely, if the actual

level of emissions for such installation is less than its allocation, the excess allowances can be sold on the same market. No material effect is anticipated as a result of the EUETS.

In Asia Pacific, Australia's ratification of the Kyoto Protocol came into effect in March 2008. In July 2008, the Australian Federal Government issued the Carbon Pollution Reduction Scheme (CPRS) Green Paper aimed to help reduce the country's carbon emissions. The CPRS recommends an emissions trading scheme (ETS) be established in Australia in 2010. In New Zealand, parliament passed ETS legislation in September 2008 and a cap-and-trade system is also likely to be in effect by 2010. Also in Australia, the *National Greenhouse and Energy Reporting Act 2007* commenced on July 1, 2008. The Act establishes a mandatory reporting system for corporate greenhouse gas emissions and energy production and consumption. Key features of the Act include the following: (1) reporting of greenhouse gas emissions, energy consumption and production by large corporations, subject to independent audit; (2) public disclosure of corporate level greenhouse gas emissions and energy information; and (3) consistent and comparable data available for government, in particular, the development and administration of the Carbon Pollution Reduction Scheme.

The Company is unable to predict what environmental legal requirements may be adopted in the future. However, the Company continually monitors its operations in relation to environmental impacts and invests in environmentally friendly and emissions reducing projects. As such, the Company has made significant expenditures for environmental improvements at certain of its factories over the last several years; however, these expenditures did not have a material adverse affect on the Company's results of operations or cash flows. While not expected to be material, the compliance costs associated with legal environmental requirements are expected to continue.

Intellectual Property Rights

The Company has a large number of patents which relate to a wide variety of products and processes, has a substantial number of patent applications pending, and is licensed under several patents of others. While in the aggregate the Company's patents are of material importance to its businesses, the Company does not consider that any patent or group of patents relating to a particular product or process is of material importance when judged from the standpoint of any segment or its businesses as a whole.

The Company has a number of intellectual property rights, comprised of both patented and proprietary technology, that the Company believes makes its glass forming machines more efficient and productive than those used by its competitors. In addition, the efficiency of the Company's glass forming machines is enhanced by the Company's overall approach to cost efficient manufacturing technology, which extends from the raw materials batch house to the finished goods warehouse. This technology is proprietary to the Company through a combination of issued patents, pending applications, copyrights, trade secrets and proprietary know-how.

Upstream of the glass forming machines, there is technology to deliver molten glass to the forming machine at high rates of flow and fully conditioned to be homogeneous in consistency, viscosity and temperature for efficient forming into glass containers. The Company has proprietary know-how in (a) the batch house, where raw materials are stored, measured and mixed, (b) the furnace control system and furnace combustion, and (c) the forehearth and feeding system to deliver such homogeneous glass to the forming machines.

In the Company's glass container manufacturing processes, computer controls and electro-mechanical mechanisms are commonly used for a wide variety of applications in the forming machines and auxiliary processes. Various patents held by the Company are directed to the electro-mechanical mechanisms and related technologies used to control sections of the machines. Additional U.S. patents held by the

Company and various pending applications are directed to the technology used by the Company for the systems that control the operation of the forming machines and many of the component mechanisms that are embodied in the machine systems.

Downstream of the glass forming machines, there is patented and unpatented technology for ware handling, annealing, coating and inspection, which further enhances the overall efficiency of the manufacturing process.

While the above patents and intellectual property rights are representative of the technology used in the Company's glass manufacturing operations, there are numerous other pending patent applications, trade secrets and other proprietary know-how and technology, as supplemented by administrative and operational best practices, which contribute to the Company's competitive advantage. As noted above, however, the Company does not consider that any patent or group of patents relating to a particular product or process is of material importance when judged from the standpoint of any segment or its businesses as a whole.

Seasonality

Sales of particular glass container products such as beer are seasonal. Shipments in the U.S. and Europe are typically greater in the second and third quarters of the year, while shipments in the Asia Pacific region are typically greater in the first and fourth quarters of the year, and shipments in South America are typically greater in the third and fourth quarters of the year.

Employees

The Company's worldwide operations employed approximately 23,000 persons as of December 31, 2008. Approximately 96% of North American employees are hourly workers covered by collective bargaining agreements. The principal collective bargaining agreement, which at December 31, 2008, covered approximately 78% of the Company's union-affiliated employees in North America, will expire on March 31, 2011. Approximately 56% of employees in South America are unionized, although according to the labor legislation in each country, 100% of employees are covered by collective bargaining agreements. The average length of these agreements is approximately 2-3 years. In addition, a large number of the Company's employees are employed in countries in which employment laws provide greater bargaining or other rights to employees than the laws of the U.S. Such employment rights require the Company to work collaboratively with the legal representatives of the employees to effect any changes to labor arrangements. The Company considers its employee relations to be good and does not anticipate any material work stoppages in the near term.

Executive Officers of the Registrant

<u>Name and Age</u>	<u>Position</u>
Albert P. L. Stroucken (61).....	Chairman and Chief Executive Officer since December 2006. Previously Chief Executive Officer of HB Fuller Company, a manufacturer of adhesives, sealants, coatings, paints and other specialty chemical products 1998-2006, and Chairman of HB Fuller Company from 1999-2006.
Edward C. White (61)	Chief Financial Officer since 2005; Senior Vice President and Director of Sales and Marketing for

	O-I Europe 2004-2005; Senior Vice President since 2003; Senior Vice President of Finance and Administration 2003-2004; Controller 1999-2004; Vice President 2002-2003.
James W. Baehren (58).....	Senior Vice President Strategic Planning since 2006; Chief Administrative Officer 2004-2006; Senior Vice President and General Counsel since 2003; Corporate Secretary since 1998; Vice President and Director of Finance 2001-2003.
L. Richard Crawford (48).....	President, Global Glass Operations since 2006; President, Latin America Glass 2005-2006; Vice President, Director of Operations and Technology for O-I Europe 2004-2005; Vice President of Global Glass Technology 2002-2004; Vice President, Manufacturing Manager of Domestic Glass Container 2000-2002.

Financial Information about Foreign and Domestic Operations

Information as to net sales, Segment Operating Profit, and assets of the Company's reportable segments is included in Note 20 to the Consolidated Financial Statements.

ITEM 1A. RISK FACTORS

Asbestos-Related Contingent Liability – The Company has made, and will continue to make, substantial payments to resolve claims of persons alleging exposure to asbestos-containing products and may need to record additional charges in the future for estimated asbestos-related costs. These substantial payments have affected and may continue to affect the Company's cost of borrowing and the ability to pursue acquisitions.

The Company is one of a number of defendants in a substantial number of lawsuits filed in numerous state and federal courts by persons alleging bodily injury (including death) as a result of exposure to dust from asbestos fibers. From 1948 to 1958, one of the Company's former business units commercially produced and sold approximately \$40 million of a high-temperature, calcium-silicate based pipe and block insulation material containing asbestos. The Company exited the pipe and block insulation business in April 1958. The traditional asbestos personal injury lawsuits and claims relating to such production and sale of asbestos material typically allege various theories of liability, including negligence, gross negligence and strict liability and seek compensatory and in some cases, punitive damages in various amounts (herein referred to as "asbestos claims").

The Company believes that its ultimate asbestos-related liability (i.e., its indemnity payments or other claim disposition costs plus related legal fees) cannot be estimated with certainty. Beginning with the initial liability of \$975 million established in 1993, the Company has accrued a total of approximately \$3.47 billion through 2008, before insurance recoveries, for its asbestos-related liability. The Company's ability reasonably to estimate its liability has been significantly affected by the volatility of asbestos-related litigation in the United States, the inherent uncertainty of future disease incidence and claiming patterns, the expanding list of non-traditional defendants that have been sued in this litigation and found liable for substantial damage awards, the use of mass litigation screenings to generate new lawsuits, the

large number of claims asserted or filed by parties who claim prior exposure to asbestos materials but have no present physical impairment as a result of such exposure, and the significant number of co-defendants that have filed for bankruptcy.

The Company conducted a comprehensive review of its asbestos-related liabilities and costs in connection with finalizing and reporting its results of operations for the year ended December 31, 2008 and concluded that an increase in its reserve for future asbestos-related costs in the amount of \$250.0 million (\$248.8 million after tax) was required.

The ultimate amount of distributions which may be required to be made by the Company to fund the Company's asbestos-related payments cannot be estimated with certainty. The Company's reported results of operations for 2008 were materially affected by the \$250.0 million (\$248.8 million after tax) fourth quarter charge and asbestos-related payments continue to be substantial. Any future additional charge may likewise materially affect the Company's results of operations for the period in which it is recorded. Also, the continued use of significant amounts of cash for asbestos-related costs has affected and may continue to affect the Company's cost of borrowing and its ability to pursue global or domestic acquisitions.

Substantial Leverage – The Company's substantial indebtedness could adversely affect the Company's financial health.

The Company has a significant amount of debt. As of December 31, 2008, the Company had approximately \$3.3 billion of total debt outstanding, reduced from \$3.7 billion at December 31, 2007. While the debt level is lower, the Company's remaining indebtedness could result in the following consequences:

- Increased vulnerability to general adverse economic and industry conditions;
- Increased vulnerability to interest rate increases for the portion of the unhedged and fixed rate borrowing swapped into variable rates;
- Require the Company to dedicate a substantial portion of cash flow from operations to payments on indebtedness, thereby reducing the availability of cash flow to fund working capital, capital expenditures, acquisitions, development efforts and other general corporate purposes;
- Limited flexibility in reacting to the Company's competitors that have less debt; and
- Limit, along with the financial and other restrictive covenants in the documents governing indebtedness, among other things, the Company's ability to borrow additional funds.

Ability to Service Debt – To service its indebtedness, the Company will require a significant amount of cash. The Company's ability to generate cash depends on many factors beyond its control.

The Company's ability to make payments on and to refinance its indebtedness and to fund working capital, capital expenditures, acquisitions, development efforts and other general corporate purposes depends on its ability to generate cash in the future. The Company has no assurance that it will generate sufficient cash flow from operations, or that future borrowings will be available under the secured credit agreement, in an amount sufficient to enable the Company to pay its indebtedness, or to fund other liquidity needs. If short term interest rates increase, the Company's debt service cost will increase because some of its debt is subject to short term variable interest rates. At December 31, 2008, the Company's debt subject to variable interest rates, including fixed rate debt swapped to variable rate, represented approximately 58% of total debt.

The Company may need to refinance all or a portion of its indebtedness on or before maturity. If the Company is unable to generate sufficient cash flow and is unable to refinance or extend outstanding borrowings on commercially reasonable terms or at all, it may have to:

- Reduce or delay capital expenditures planned for replacements, improvements and expansions;
- Sell assets;
- Restructure debt; and/or
- Obtain additional debt or equity financing.

The Company can provide no assurance that it could effect or implement any of these alternatives on satisfactory terms, if at all.

Debt Restrictions – The Company may not be able to finance future needs or adapt its business plans to changes because of restrictions contained in the secured credit agreement and the indentures and instruments governing other indebtedness.

The secured credit agreement, the indentures governing unsecured notes and debentures, and certain of the agreements governing other indebtedness contain affirmative and negative covenants that limit the ability of the Company to take certain actions. For example, some of these indentures restrict, among other things, the ability of the Company and its restricted subsidiaries to borrow money, pay dividends on, or redeem or repurchase its stock, make investments, create liens, enter into certain transactions with affiliates and sell certain assets or merge with or into other companies. These restrictions could adversely affect the Company's ability to operate its businesses and may limit its ability to take advantage of potential business opportunities as they arise.

Failure to comply with these or other covenants and restrictions contained in the secured credit agreement, the indentures or agreements governing other indebtedness could result in a default under those agreements, and the debt under those agreements, together with accrued interest, could then be declared immediately due and payable. If a default occurs under the secured credit agreement, we could no longer request borrowings under the agreement, and the lenders could cause all of the outstanding debt obligations under such secured credit agreement to become due and payable, which would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. A default under the secured credit agreement, indentures or agreements governing other indebtedness could also lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross-default provisions.

International Operations – The Company is subject to risks associated with operating in foreign countries.

The Company operates manufacturing and other facilities throughout the world. Net sales from international operations totaled approximately \$6.0 billion, representing approximately 76% of the Company's net sales for the year ended December 31, 2008. As a result of its international operations, the Company is subject to risks associated with operating in foreign countries, including:

- Political, social and economic instability;
- War, civil disturbance or acts of terrorism;
- Taking of property by nationalization or expropriation without fair compensation;
- Changes in government policies and regulations;
- Devaluations and fluctuations in currency exchange rates;
- Imposition of limitations on conversions of foreign currencies into dollars or remittance of dividends and other payments by foreign subsidiaries;

- Imposition or increase of withholding and other taxes on remittances and other payments by foreign subsidiaries;
- Hyperinflation in certain foreign countries; and
- Impositions or increase of investment and other restrictions or requirements by foreign governments.

The risks associated with operating in foreign countries may have a material adverse effect on operations.

Competition – The Company faces intense competition from other glass container producers, as well as from makers of alternative forms of packaging. Competitive pressures could adversely affect the Company’s financial health.

The Company is subject to significant competition from other glass container producers, as well as from makers of alternative forms of packaging, such as aluminum cans and plastic containers. The Company competes with each rigid packaging competitor on the basis of price, quality, service and the marketing attributes of the container. Advantages or disadvantages in any of these competitive factors may be sufficient to cause the customer to consider changing suppliers and/or using an alternative form of packaging. The Company also competes with manufacturers of non-rigid packaging alternatives, including flexible pouches and aseptic cartons, in serving the packaging needs of juice customers.

Pressures from competitors and producers of alternative forms of packaging have resulted in excess capacity in certain countries in the past and have led to capacity adjustments and significant pricing pressures in the rigid packaging market.

High Energy Costs – Higher energy costs worldwide and interrupted power supplies may have a material adverse effect on operations.

Electrical power, natural gas, and fuel oil are vital to the Company’s operations as it relies on a continuous power supply to conduct its business. Depending on the location and mix of energy sources, energy accounts for 15% to 25% of total production costs. Substantial increases and volatility in energy costs could cause the Company to experience a significant increase in operating costs, which may have a material adverse effect on operations.

Economic Environment - The Company may be adversely affected by the current economic environment.

As a result of severely weak credit market conditions (including uncertainties with respect to financial institutions, and severely diminished liquidity and credit availability), volatility in energy costs and other macro-economic challenges currently affecting many of the economies in which the Company operates, customers or vendors may experience serious cash flow problems and as a result, may modify, delay, or curtail plans to purchase the Company’s products and vendors may significantly and quickly increase their prices or reduce their output. Additionally, if customers are not successful in generating sufficient revenue or are precluded from securing financing, they may not be able to pay, or may delay payment of, accounts receivable that are owed to the Company. Any inability of current and/or potential customers to pay the Company for its products may adversely affect the Company’s earnings and cash flow. If the economic conditions in the Company’s key markets deteriorate further, the Company may experience material adverse impacts to its business and operating results.

Business Integration Risks – The Company may not be able to effectively integrate additional businesses it acquires in the future.

The Company may consider strategic transactions, including acquisitions that will complement, strengthen and enhance growth in its worldwide glass operations. The Company evaluates opportunities on a preliminary basis from time to time but these transactions may not advance beyond the preliminary stages or be completed. Such acquisitions are subject to various risks and uncertainties, including:

- The inability to integrate effectively the operations, products, technologies and personnel of the acquired companies (some of which are located in diverse geographic regions) and achieve expected synergies;
- The potential disruption of existing business and diversion of management's attention from day-to-day operations;
- The inability to maintain uniform standards, controls, procedures and policies;
- The need or obligation to divest portions of the acquired companies; and
- The potential impairment of relationships with customers.

In addition, the Company cannot make assurances that the integration and consolidation of newly acquired businesses will achieve any anticipated cost savings and operating synergies.

Customer Consolidation – The continuing consolidation of the Company's customer base may intensify pricing pressures and have a material adverse effect on operations.

Beginning in the early 1990s, many of the Company's largest customers have acquired companies with similar or complementary product lines. This consolidation has increased the concentration of the Company's business with its largest customers. In many cases, such consolidation has been accompanied by pressure from customers for lower prices, reflecting the increase in the total volume of products purchased or the elimination of a price differential between the acquiring customer and the company acquired. Increased pricing pressures from the Company's customers may have a material adverse effect on operations.

Seasonality and Raw Materials – Profitability could be affected by varied seasonal demands and the availability of raw materials.

Due principally to the seasonal nature of the brewing, iced tea and other beverage industries, in which demand is stronger during the summer months, sales of the Company's products have varied and are expected to vary by quarter. Shipments in the U.S. and Europe are typically greater in the second and third quarters of the year, while shipments in the Asia Pacific region are typically greater in the first and fourth quarters of the year, and shipments in South America are typically greater in the third and fourth quarters of the year. Unseasonably cool weather during peak demand periods can reduce demand for certain beverages packaged in the Company's containers.

The raw materials that the Company uses have historically been available in adequate supply from multiple sources. For certain raw materials, however, there may be temporary shortages due to weather or other factors, including disruptions in supply caused by raw material transportation or production delays. These shortages, as well as material volatility in the cost of any of the principal raw materials that the Company uses, may have a material adverse effect on operations.

Environmental Risks – The Company is subject to various environmental legal requirements and may be subject to new legal requirements in the future. These requirements may have a material adverse effect on operations.

The Company's operations and properties, both in the U.S. and abroad, are subject to extensive laws, ordinances, regulations and other legal requirements relating to environmental protection, including legal requirements governing investigation and clean-up of contaminated properties as well as water discharges, air emissions, waste management and workplace health and safety. Such legal requirements frequently change and vary among jurisdictions. The Company's operations and properties, both in the U.S. and abroad, must comply with these legal requirements. These requirements may have a material adverse effect on operations.

The Company has incurred, and expects to incur, costs for its operations to comply with environmental legal requirements, and these costs could increase in the future. Many environmental legal requirements provide for substantial fines, orders (including orders to cease operations), and criminal sanctions for violations. These legal requirements may apply to conditions at properties that the Company presently or formerly owned or operated, as well as at other properties for which the Company may be responsible, including those at which wastes attributable to the Company were disposed. A significant order or judgment against the Company, the loss of a significant permit or license or the imposition of a significant fine may have a material adverse effect on operations.

A number of governmental authorities both in the U.S. and abroad have enacted, or are considering, legal requirements that would mandate certain rates of recycling, the use of recycled materials and/or limitations on certain kinds of packaging materials. In addition, some companies with packaging needs have responded to such developments and/or perceived environmental concerns of consumers by using containers made in whole or in part of recycled materials. Such developments may reduce the demand for some of the Company's products and/or increase the Company's costs, which may have a material adverse effect on operations.

Labor Relations – Some of the Company's employees are unionized or represented by workers' councils.

The Company is party to a number of collective bargaining agreements with labor unions which at December 31, 2008, covered approximately 96% of the Company's hourly employees in North America. Approximately 56% of employees in South America are unionized, although according to the labor legislation on each country, 100% of employees are covered by collective bargaining agreements. The agreement covering substantially all of the Company's union-affiliated employees in its U.S. glass container operations expires on March 31, 2011. Agreements in South America typically have an average term of approximately 2-3 years. Upon the expiration of any collective bargaining agreement, if the Company is unable to negotiate acceptable contracts with labor unions, it could result in strikes by the affected workers and increased operating costs as a result of higher wages or benefits paid to union members. In addition, a large number of the Company's employees are employed in countries in which employment laws provide greater bargaining or other rights to employees than the laws of the U.S. Such employment rights require the Company to work collaboratively with the legal representatives of the employees to effect any changes to labor arrangements. For example, most of the Company's employees in Europe are represented by workers' councils that must approve any changes in conditions of employment, including salaries and benefits and staff changes, and may impede efforts to restructure the Company's workforce. Although the Company believes that it has a good working relationship with its employees, if the Company's employees were to engage in a strike or other work stoppage, the Company could experience a significant disruption of operations and/or higher ongoing labor costs, which may have a material adverse effect on operations.

Accounting – The Company’s financial results are based upon estimates and assumptions that may differ from actual results.

In preparing the Company’s consolidated financial statements in accordance with U.S. generally accepted accounting principles, several estimates and assumptions are made that affect the accounting for and recognition of assets, liabilities, revenues and expenses. These estimates and assumptions must be made because certain information that is used in the preparation of the Company’s financial statements is dependent on future events, cannot be calculated with a high degree of precision from data available or is not capable of being readily calculated based on generally accepted methodologies. In some cases, these estimates are particularly difficult to determine and the Company must exercise significant judgment. The Company believes that accounting for long-lived assets, pension benefit plans, contingencies and litigation, and income taxes involves the more significant judgments and estimates used in the preparation of its consolidated financial statements. Actual results for all estimates could differ materially from the estimates and assumptions that the Company uses, which could have a material adverse effect on the Company’s financial condition and results of operations.

Accounting Standards – The adoption of new accounting standards or interpretations could adversely impact the Company’s financial results.

The Company’s implementation of and compliance with changes in accounting rules and interpretations could adversely affect its operating results or cause unanticipated fluctuations in its results in future periods. The accounting rules and regulations that the Company must comply with are complex and continually changing. Recent actions and public comments from the SEC have focused on the integrity of financial reporting generally. The Financial Accounting Standards Board, or FASB, has recently introduced several new or proposed accounting standards, or is developing new proposed standards, which would represent a significant change from current industry practices. In addition, many companies’ accounting policies are being subjected to heightened scrutiny by regulators and the public. While the Company believes that its financial statements have been prepared in accordance with U.S. generally accepted accounting principles, the Company cannot predict the impact of future changes to accounting principles or its accounting policies on its financial statements going forward.

Goodwill – A significant write down of goodwill would have a material adverse effect on the Company’s reported results of operations and net worth.

As required by FAS No. 142, “Goodwill and Other Intangibles,” the Company evaluates goodwill annually (or more frequently if impairment indicators arise) for impairment using the required business valuation methods. Goodwill at December 31, 2008 totaled \$2,207.5 million. These methods include the use of a weighted average cost of capital to calculate the present value of the expected future cash flows of the Company’s reporting units. Future changes in the cost of capital, expected cash flows, or other factors may cause the Company’s goodwill to be impaired, resulting in a non-cash charge against results of operations to write down goodwill for the amount of the impairment. If a significant write down is required, the charge would have a material adverse effect on the Company’s reported results of operations and net worth.

Pension Funding – Declines in the fair value of the assets of the pension plans sponsored by the Company could require increased funding.

The Company’s defined benefit pension plans in the U.S. and several other countries are funded through qualified trusts that hold investments in a broad range of equity and debt securities. Recent deterioration in the value of such investments, or further reductions driven by a decline in securities markets or otherwise, could increase the underfunded status of the Company’s funded pension plans, thereby

increasing its obligation to make contributions to the plans as required by the laws and regulations governing each plan. An obligation to make contributions to pension plans could reduce the cash available for working capital and other corporate uses, and may have an adverse impact on the Company's operations, financial condition and liquidity.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The principal manufacturing facilities and other material important physical properties of the Company at December 31, 2008 are listed below. All properties shown are owned in fee except where otherwise noted.

ITEM 3. LEGAL PROCEEDINGS

For further information on legal proceedings, see Note 19 to the Consolidated Financial Statements and the section entitled “Environmental and Other Governmental Regulation” in Item 1.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders during the last quarter of the fiscal year ended December 31, 2008.

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON STOCK AND RELATED SHARE OWNER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

The price range for the Company’s common stock on the New York Stock Exchange, as reported by the Financial Industry Regulatory Authority, Inc., was as follows:

	2008		2007	
	High	Low	High	Low
First Quarter	\$ 58.68	\$ 38.60	\$ 26.17	\$ 18.48
Second Quarter	60.60	41.49	35.11	25.82
Third Quarter	48.60	23.66	42.64	32.66
Fourth Quarter	29.53	15.20	50.46	39.33

The number of share owners of record on January 31, 2009 was 1,090. Approximately 94% of the outstanding shares were registered in the name of Depository Trust Company, or CEDE, which held such shares on behalf of a number of brokerage firms, banks, and other financial institutions. The shares attributed to these financial institutions, in turn, represented the interests of more than 25,000 unidentified beneficial owners. No dividends have been declared or paid since the Company’s initial public offering in December 1991 and the Company does not anticipate paying any dividends in the near future. For restrictions on payment of dividends on common stock, see Management’s Discussion and Analysis of Financial Condition and Results of Operations – Capital Resources and Liquidity – Current and Long Term Debt and Note 6 to the Consolidated Financial Statements.

Information with respect to securities authorized for issuance under equity compensation plans is included herein under Item 12.

AMONG OWENS-ILLINOIS, S&P 500, AND PACKAGING GROUP

	2003	2004	2005	2006	2007	2008
Owens-Illinois	\$100.00	\$190.48	\$176.92	\$155.15	\$416.26	\$229.78
S&P 500	\$100.00	\$110.87	\$116.31	\$134.66	\$142.05	\$89.51
Packaging Group	\$100.00	\$131.43	\$135.95	\$155.31	\$180.46	\$133.06

The above graph compares the performance of the Company's Common Stock with that of a broad market index (the S&P 500 Composite Index) and a packaging group consisting of companies with lines of business or product end uses comparable to those of the Company for which market quotations are available.

The packaging group consists of: AptarGroup, Inc., Ball Corp., Bemis Company, Inc., Crown Holdings, Inc., Owens-Illinois, Inc., Sealed Air Corp., Silgan Holdings Inc., Sonoco Products Co., and Vitro Sociedad Anonima (ADSs).

Constar International Inc. was removed from the index because market quotations for its stock are no longer available. Its removal did not have a significant effect on the performance of the group.

The comparison of total return on investment for each period is based on the investment of \$100 on December 31, 2003 and the change in market value of the stock, including additional shares assumed purchased through reinvestment of dividends, if any.

ITEM 6. SELECTED FINANCIAL DATA

The selected consolidated financial data presented below relates to each of the five years in the period ended December 31, 2008. The financial data for each of the five years in the period ended December 31, 2008 was derived from the audited consolidated financial statements of the Company. For more information, see the "Consolidated Financial Statements" included elsewhere in this document.

	Years ended December 31,				
	2008	2007	2006	2005	2004
Consolidated operating results (a):	(Dollar amounts in millions)				
Net sales	\$ 7,884.7	\$ 7,566.7	\$ 6,650.4	\$ 6,266.9	\$ 5,366.1
Manufacturing, shipping and delivery (b)	(6,208.1)	(5,971.4)	(5,481.1)	(5,084.9)	(4,329.6)

Net earnings (loss)	\$ 258.3	\$ 1,340.6	\$ (27.5)	\$ (558.6)	\$ 235.5

	Years ended December 31,				
	2008	2007	2006	2005	2004
	(Dollar amounts in millions, except per share data)				
Basic earnings (loss) per share of common stock:					
Earnings (loss) from continuing operations	\$ 1.51	\$ 1.80	\$ (0.17)	\$ (4.27)	\$ 1.16
Net earnings (loss) of discontinued operations		0.02	(0.15)	0.41	(0.19)
Gain on sale of discontinued operations	0.04	6.73		0.01	0.48
Net earnings (loss)	<u>\$ 1.55</u>	<u>\$ 8.55</u>	<u>\$ (0.32)</u>	<u>\$ (3.85)</u>	<u>\$ 1.45</u>
Weighted average shares outstanding (in thousands)	<u>163,178</u>	<u>154,215</u>	<u>152,071</u>	<u>150,910</u>	<u>147,963</u>
Diluted earnings (loss) per share of common stock:					
Earnings (loss) from continuing operations	\$ 1.48	\$ 1.78	\$ (0.17)	\$ (4.27)	\$ 1.15
Net earnings (loss) of discontinued operations		0.02	(0.15)	0.41	(0.19)
Gain on sale of discontinued operations	0.04	6.19		0.01	0.47
Net earnings (loss)	<u>\$ 1.52</u>	<u>\$ 7.99</u>	<u>\$ (0.32)</u>	<u>\$ (3.85)</u>	<u>\$ 1.43</u>
Diluted average shares (in thousands)	<u>169,677</u>	<u>167,767</u>	<u>152,071</u>	<u>150,910</u>	<u>149,680</u>

The Company's convertible preferred stock was included in the computation of diluted earnings per share for 2008, to the extent outstanding during 2008, and 2007 on an "if converted" basis since the result was dilutive. The Company's convertible preferred stock was not included in the computation of 2004-2006 diluted earnings per share since the result would have been antidilutive. Options to purchase 241,711, 862,906 and 5,067,104 weighted average shares of common stock which were outstanding during 2008, 2007 and 2004, respectively, were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the common shares. For the years ended December 31, 2006 and 2005, diluted earnings per share of common stock are equal to basic earnings per share of common stock due to the net losses.

	Years ended December 31,

	(Dollar amounts in millions)				
Other data:					
The following are included in net earnings:					
Depreciation	\$ 431.0	\$ 423.4	\$ 427.7	\$ 436.1	\$ 406.3
Amortization of intangibles	28.9	28.9	22.3	22.5	18.8
Amortization of deferred finance fees (included in interest expense)	7.9	8.6	5.7	6.7	6.0
Balance sheet data (at end of period):					
Working capital (current assets less current liabilities)	\$ 441	\$ 165	\$ 67	\$ 460	\$ 494
Total assets	7,977	9,325	9,321	9,522	10,737
Total debt	3,334	3,714	5,457	5,297	5,360
Share owners' equity	1,041	2,187	357	724	1,544

(a) Amounts related to the Company's plastic packaging business have been reclassified to discontinued operations for 2004-2007 as a result of the sale of that business in 2007. Amounts related to the Company's plastic blow-molded container business have been reclassified to discontinued operations for 2004 as a result of the sale of that business in 2004. Amounts for the year ended December 31, 2004, and all subsequent periods, include the results of BSN from the date of acquisition on June 21, 2004.

(b) Amount for 2006 includes a loss of \$8.7 million (\$8.4 million after tax) from the mark to market effect of natural gas hedge contracts.

Amount for 2005 includes a gain of \$3.8 million (\$2.3 million after tax) from the mark to market effect of natural gas hedge contracts.

Amount for 2004 includes a gain of \$4.9 million (\$3.2 million after tax) from the mark to market effect of natural gas hedge contracts.

(c) Amount for 2008 includes charges of \$250.0 million (\$248.8 million after tax) to increase the accrual for estimated future asbestos-related costs and \$133.3 million (\$110.1 million after tax and minority share owners' interests) for restructuring and asset impairments.

Amount for 2007 includes charges of \$115.0 million (pretax and after tax) to increase the accrual for estimated future asbestos-related costs and \$100.3 million (\$84.1 million after tax) for restructuring and asset impairments.

Amount for 2006 includes charges of \$120.0 million (pretax and after tax) to increase the accrual for estimated future asbestos-related costs, a charge of \$20.8 million (\$20.7 million after tax) for CEO transition costs, and a charge of \$29.7 million (\$27.7 million after tax) for the closing of the Godfrey, Illinois machine parts manufacturing operation.

Amount for 2005 includes a charge of \$135.0 million (\$86.0 million after tax) to increase the accrual for estimated future asbestos-related costs and a charge of \$494.0 million (pretax and after tax) to write down goodwill in the Asia Pacific Glass unit.

Amount for 2004 includes charges totaling \$159.0 million (\$90.3 million after tax) for the following: (1) \$152.6 million (\$84.9 million after tax) to increase the accrual for estimated future asbestos-related costs; and (2) \$6.4 million (\$5.4 million after tax) for restructuring a life insurance program in order to comply with recent statutory and tax regulation changes.

- (d) Other revenue in 2006 includes a gain of \$15.9 million (\$11.2 million after tax) for the curtailment of postretirement benefits in The Netherlands.

Other revenue in 2005 includes \$28.1 million (pretax and after tax) from the sale of the Company's glass container facility in Corsico, Italy.

Other revenue in 2004 includes: (1) a gain of \$20.6 million (\$14.5 million after tax) for the sale of certain real property; and (2) a gain of \$31.0 million (\$13.1 million after tax) for a restructuring in the Italian Specialty Glass business.

- (e) Amount for 2007 includes charges of \$7.9 million (\$7.3 million after tax) for note repurchase premiums.

Amount for 2006 includes charges of \$6.2 million (pretax and after tax) for note repurchase premiums.

Amount for 2004 includes charges of \$28.0 million (\$18.3 million after tax) for note repurchase premiums.

Includes additional interest charges for the write-off of unamortized deferred financing fees related to the early extinguishment of debt as follows: \$1.6 million (\$1.5 million after tax) for 2007; \$11.3 million (\$10.9 million after tax) for 2006; and \$2.8 million (\$1.8 million after tax) for 2004.

- (f) Amount for 2008 includes a net tax expense of \$33.3 million (\$34.8 million after minority share owners' interest) related to tax legislation, restructuring, and other.

Amount for 2007 includes a benefit of \$13.5 million for the recognition of tax credits related to restructuring of investments in certain European operations.

Amount for 2006 includes a benefit of \$5.7 million from the reversal of a non-U.S. deferred tax asset valuation allowance partially offset by charges related to international tax restructuring.

Amount for 2005 includes a charge of \$300.0 million to record a valuation allowance related to accumulated deferred tax assets in the U.S. and a benefit of \$5.3 million for the reversal of an accrual for potential tax liabilities related to a previous divestiture. The accrual is no longer required based on the Company's reassessment of potential liabilities.

Amount for 2004 includes a benefit of \$33.1 million for a tax consolidation in the Australian glass business.

- (g) Amount for 2005 consists principally of a third quarter benefit from the reversal of an accrual for potential tax liabilities related to a previous divestiture. The accrual is no longer required based on the Company's reassessment of the potential liabilities.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Following are the Company's net sales by segment and segment operating profit for the years ended December 31, 2008, 2007, and 2006. The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, provision for income taxes and minority share owners' interests in earnings of subsidiaries and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The segment data presented below is prepared in accordance with FAS No. 131. The line titled 'reportable segment totals', however, is a non-GAAP measure when presented outside of the financial statement footnotes. Management has included 'reportable segment totals' below to facilitate the discussion and analysis of financial condition and results of operations. The Company's management uses Segment Operating Profit, in combination with selected cash flow information, to evaluate performance and to allocate resources.

Net Sales:	2008	2007	2006
Europe	\$ 3,497.8	\$ 3,298.7	\$ 2,846.6
North America	2,209.7	2,271.3	2,110.4
South America	1,135.9	970.7	796.5
Asia Pacific	964.1	934.3	804.9
Reportable segment totals	7,807.5	7,475.0	6,558.4
Other	77.2	91.7	92.0
Net Sales	\$ 7,884.7	\$ 7,566.7	\$ 6,650.4

Segment Operating Profit:	2008	2007	2006
Europe	\$ 477.8	\$ 433.0	\$ 249.6
North America	185.2	265.1	187.3
South America	331.0	254.9	195.0
Asia Pacific	162.8	154.0	102.9
Reportable segment totals	1,156.8	1,107.0	734.8
Items excluded from Segment Operating Profit:			
Retained corporate costs and other	(0.7)	(78.8)	(76.6)
Restructuring and asset impairments	(133.3)	(100.3)	(29.7)
Charge for asbestos related costs	(250.0)	(115.0)	(120.0)
CEO and other transition charges			(20.8)
Curtailment of postretirement benefits in The Netherlands			15.9
Mark to market effect of natural gas hedge contracts			(8.7)
Interest income	38.6	42.3	19.2
Interest expense	(253.0)	(348.6)	(349.0)
Earnings before income taxes and minority share owners' interests in earnings of subsidiaries	558.4	506.6	165.1
Provision for income taxes	(236.7)	(147.8)	(125.3)
Minority share owners' interest in earnings of subsidiaries	(70.2)	(59.5)	(43.6)
Earnings (loss) from continuing operations	251.5	299.3	(3.8)
Net earnings (loss) of discontinued operations		2.8	(23.7)
Gain on sale of discontinued operations	6.8	1,038.5	
Net earnings (loss)	\$ 258.3	\$ 1,340.6	\$ (27.5)

Note: all amounts excluded from reportable segment totals are discussed in the following applicable sections.

Executive Overview – Years ended December 2008 and 2007

Net sales from continuing operations were \$318.0 million higher than the prior year principally resulting from improved pricing and favorable product mix across all regions, as well as favorable foreign currency exchange rates, principally the Euro. Lower unit shipments partially offset these favorable increases.

Segment Operating Profit for reportable segments was \$49.8 million higher than the prior year. The benefits of higher selling prices, improved product mix, improvements in glass plant operating efficiencies, and favorable foreign currency exchange rates were partially offset by inflationary cost increases in manufacturing and delivery costs and lower sales volume.

Interest expense in 2008 was \$253.0 million compared with interest expense from continuing operations of \$348.6 million in 2007. Included in the 2007 interest expense was \$9.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the November 2007 repurchase of the \$625.0 million 8.75% Senior Secured Notes. Exclusive of these items, interest expense decreased approximately \$86.1 million. The decrease is principally due to lower variable interest rates under the Company's bank credit agreement and on long term debt variable and swapped rates as well as lower overall debt levels, partially offset by an increase in foreign currency exchange rates. The decrease

is also due to the non-recurrence of interest on debt that was repaid during the fourth quarter of 2007 with the proceeds from the plastics sale. This interest was previously allocated to discontinued operations until the date of the sale.

Interest income for continuing operations for 2008 was \$38.6 million compared to \$42.3 million for 2007.

Net earnings from continuing operations for 2008 were \$251.5 million, or \$1.48 per share (diluted), compared to earnings from continuing operations of \$299.3 million, or \$1.78 per share (diluted) for 2007. Earnings in both periods included items that management considered not representative of ongoing operations. These items decreased net earnings in 2008 by \$393.7 million, or \$2.32 per share, and decreased net earnings in 2007 by \$194.4 million, or \$1.16 per share.

Cash payments for asbestos-related costs were \$210.2 million for 2008 compared to \$347.1 million for 2007. The decrease is due to reduced funding for settlements of certain claims on an accelerated basis.

Capital spending for property, plant and equipment for continuing operations was \$361.7 million for 2008 compared to \$292.5 million for 2007. The 2008 amount is in a range consistent with long term historical levels. The increase is also due to changes in foreign currency exchange rates.

Results of Operations - Comparison of 2008 with 2007

Net Sales

The Company's net sales by segment for 2008 and 2007 are presented in the following table. For further information, see Segment Information included in Note 20 to the Consolidated Financial Statements.

	2008	2007
	(dollars in millions)	
Europe	\$ 3,497.8	\$ 3,298.7
North America	2,209.7	2,271.3
South America	1,135.9	970.7
Asia Pacific	964.1	934.3
Reportable segment totals	7,807.5	7,475.0
Other	77.2	91.7
Net Sales	\$ 7,884.7	\$ 7,566.7

The Company's net sales increased \$318.0 million, or 4.2%, over 2007.

The change in net sales of reportable segments can be summarized as follows (dollars in millions):

Net sales - 2007		\$ 7,475.0
Net effect of price and mix	\$ 572.0	
Effects of changing foreign currency rates	274.5	
Decreased sales volume	(514.0)	
Total effect on net sales		332.5
Net sales - 2008		\$ 7,807.5

Segment Operating Profit

Operating Profit for the reportable segments in the table below includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained Corporate Costs and Other. For further information, see Segment Information included in Note 20 to the Consolidated Financial Statements.

	2008	2007
Europe	\$ 477.8	\$ 433.0
North America	185.2	265.1
South America	331.0	254.9
Asia Pacific	162.8	154.0
Reportable segment totals	1,156.8	1,107.0
Retained corporate costs and other	(0.7)	(78.8)

Segment Operating Profit for reportable segments for 2008 increased \$49.8 million, or 4.5%, to \$1,156.8 million, compared with Segment Operating Profit of \$1,107.0 million for 2007.

The change in Segment Operating Profit for reportable segments can be summarized as follows (dollars in millions):

Segment Operating Profit - 2007		\$ 1,107.0
Net effect of price and mix	\$ 572.0	
Effects of changing foreign currency rates	56.0	
Manufacturing and delivery costs	(468.0)	
Decreased sales volume	(116.0)	
Operating expense	(28.0)	
Other	33.8	
Total net effect on Segment Operating Profit		49.8
Segment Operating Profit -2008		<u>\$ 1,156.8</u>

Interest Expense

Interest expense in 2008 was \$253.0 million compared with interest expense from continuing operations of \$348.6 million in 2007. Included in the 2007 interest expense was \$9.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the November 2007 repurchase of the \$625.0 million 8.75% Senior Secured Notes. Exclusive of these items, interest expense decreased approximately \$86.1 million. The decrease is principally due to lower variable interest rates under the Company's bank credit agreement and on long term debt variable and swapped rates as well as lower overall debt levels, partially offset by an increase in foreign currency exchange rates. The decrease is also due to the non-recurrence of interest on debt that was repaid during the fourth quarter of 2007 with the proceeds from the plastics sale. This interest was previously allocated to discontinued operations until the date of the sale.

Interest Income

Interest income for continuing operations for 2008 was \$38.6 million compared to \$42.3 million for 2007.

Provision for Income Taxes

The Company's effective tax rate from continuing operations for 2008 was 42.4%, compared with 29.2% for 2007. The provision for 2008 includes a net expense of \$33.3 million related to tax legislation, restructuring, and other. The provision for 2007 includes a benefit of \$13.5 million for the recognition of tax credits related to restructuring of investments in certain European operations. Excluding those items and the effects in both periods of pretax items for which taxes are separately calculated and recorded in the period, the Company's effective tax rate from continuing operations for 2008 was 24.0% compared to 24.4% for 2007. The Company expects that the effective tax rate will not change significantly in 2009.

Minority Share Owners' Interest in Earnings of Subsidiaries

Minority share owners' interest in earnings of subsidiaries for 2008 was \$70.2 million compared to \$59.5 million for 2007. The increase is primarily attributed to higher earnings from the Company's operations in South America.

Earnings from Continuing Operations

For 2008, the Company recorded earnings from continuing operations of \$251.5 million compared to earnings from continuing operations of \$299.3 million for 2007. The after tax effects of the items excluded from Segment Operating Profit, the 2008 and 2007 international net tax benefits, and the 2007 additional interest charges, increased or decreased earnings in 2008 and 2007 as set forth in the following table (dollars in millions).

Description	Net Earnings Increase (Decrease)	
	2008	2007
Net expense related to tax legislation, restructuring, and other	\$ (34.8)	\$ -
Gain recognition from foreign tax credits		13.5
Restructuring and asset impairments	(110.1)	(84.1)
Increase in the accrual for future asbestos related costs	(248.8)	(115.0)
Note repurchase premiums and write-off of finance fees		(8.8)
Total	<u>\$ (393.7)</u>	<u>\$ (194.4)</u>

Executive Overview – Years ended December 2007 and 2006

Net sales from continuing operations were \$916.3 million higher than the prior year principally resulting from improved pricing, increased unit shipments, and favorable foreign currency exchange rates.

Segment Operating Profit for reportable segments was \$372.2 million higher than the prior year. The benefits of higher selling prices, improved productivity, increased unit shipments, and favorable exchange rates were partially offset by inflationary cost increases.

Interest expense from continuing operations for 2007 was \$348.6 million compared to \$349.0 million for 2006. Included in the 2007 interest expense was \$9.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the November 2007 repurchase of the \$625.0 million 8.75% Senior Secured Notes. Included in the 2006 interest expense was \$17.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the June 2006 refinancing of the Company's previous credit agreement and the July 2006 repurchase of approximately \$150 million principal amount of the 8.875% Senior Secured Notes due 2009. Exclusive of these items, interest expense increased approximately \$7.6 million. A significant portion of the increase is interest on debt that was repaid during the fourth quarter of 2007 with the proceeds from the plastics sale. This interest was previously allocated to discontinued operations until the date of the sale.

Interest income for continuing operations for 2007 was \$42.3 million compared to \$19.2 million for 2006. The increase of \$23.1 million is primarily due to interest earned as a result of investing a portion of the proceeds from the plastics July 31, 2007 sale until the funds were used to repay senior secured debt in the fourth quarter of 2007.

Net earnings from continuing operations for 2007 were \$299.3 million, or \$1.78 per share (diluted), compared to a loss of \$3.8 million, or \$0.17 per share (diluted) for 2006. Earnings in both periods included items that management considered not representative of ongoing operations. These items decreased net earnings in 2007 by \$194.4 million, or \$1.16 per share, and decreased net earnings in 2006 by \$177.0 million, or \$1.15 per share.

Cash payments for asbestos-related costs were \$347.1 million for 2007 compared to \$162.5 million for 2006. Cash payments increased in part to fund, on an accelerated basis, settlements of certain claims on terms favorable to the Company. Cash payments were also used, in part, to reduce the deferred amounts payable for previously settled claims to approximately \$34 million as of December 31, 2007, from approximately \$82 million as of December 31, 2006.

Capital spending for property, plant and equipment for continuing operations was \$292.5 million for 2007 compared to \$285.0 million for 2006.

Results of Operations - Comparison of 2007 with 2006

Net Sales

The Company's net sales by segment for 2007 and 2006 are presented in the following table. For further information, see Segment Information included in Note 20 to the Consolidated Financial Statements.

	2007	2006
	(dollars in millions)	
Europe	\$ 3,298.7	\$ 2,846.6
North America	2,271.3	2,110.4
South America	970.7	796.5
Asia Pacific	934.3	804.9
Reportable segment totals	7,475.0	6,558.4
Other	91.7	92.0
Net Sales	\$ 7,566.7	\$ 6,650.4

The Company's net sales increased \$916.3 million, or 13.8%, over 2006.

The change in net sales can be summarized as follows (dollars in millions):

Net sales - 2006		\$ 6,650.4
Net effect of price and mix	\$ 322.8	
Increased sales volume	144.7	
Effects of changing foreign currency rates	448.8	
Total effect on net sales		916.3
Net sales - 2007		<u>\$ 7,566.7</u>

The increase in reported sales from the effects of changing foreign currency exchange rates resulted principally from the stronger Euro and Australian dollar.

Segment Operating Profit

Operating Profit for the reportable segments in the table below includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Unallocated corporate expenses and certain other expenses not directly related to the reportable segments' operations are included in Retained Corporate Costs and Other. For further information, see Segment Information included in Note 20 to the Consolidated Financial Statements.

	2007	2006
	(dollars in millions)	
Europe	\$ 433.0	\$ 249.6
North America	265.1	187.3
South America	254.9	195.0
Asia Pacific	154.0	102.9
Reportable segment totals	1,107.0	734.8
Retained corporate costs and other	(78.8)	(76.6)

Segment Operating Profit for reportable segments for 2007 increased \$372.2 million, or 50.7%, to \$1,107.0 million, compared with Segment Operating Profit of \$734.8 million for 2006.

The change in Segment Operating Profit for reportable segments can be summarized as follows (dollars in millions):

Segment Operating Profit - 2006		\$	734.8
Net effect of price and mix	\$	323.0	
Productivity and production volume		80.0	
Effects of changing foreign currency rates		52.0	
Increased sales volume		34.4	
Warehouse, delivery and other costs		25.9	
Operating expense		25.3	
Manufacturing inflation, net of cost savings		(152.0)	
Other		(16.4)	
Total net effect on Segment Operating Profit			372.2
Segment Operating Profit -2007		\$	<u>1,107.0</u>

Interest Expense

Interest expense from continuing operations for 2007 was \$348.6 million compared to \$349.0 million for 2006. Included in the 2007 interest expense was \$9.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the November 2007 repurchase of the \$625.0 million 8.75% Senior Secured Notes. Included in the 2006 interest expense was \$17.5 million for both note repurchase premiums and the write-off of unamortized finance fees related to the June 2006 refinancing of the Company's previous credit agreement and the July 2006 repurchase of approximately \$150 million principal amount of the 8.875% Senior Secured Notes due 2009. Exclusive of these items, interest expense increased approximately \$7.6 million. A significant portion of the increase is interest on debt that was repaid during the fourth quarter of 2007 with the proceeds from the plastics sale. This interest was previously allocated to discontinued operations until the date of the sale.

Interest Income

Interest income for continuing operations for 2007 was \$42.3 million compared to \$19.2 million for 2006. The increase of \$23.1 million is primarily due to interest earned as a result of investing a portion of the proceeds from the July 31, 2007 plastics sale until the funds were used to repay senior secured debt in the fourth quarter of 2007.

Provision for Income Taxes

The Company's effective tax rate from continuing operations for 2007 was 29.2%, compared with 75.9% for 2006. Excluding the effects of separately taxed items in both periods, the Company's effective tax rate from continuing operations for 2007 was 24.4% compared with 40.3% for 2006. The reduction is principally due to: (1) a change in mix of earnings to jurisdictions where the Company is subject to lower effective rates, and (2) the effect of higher earnings and lower interest costs in the U.S., where the Company has recognized a valuation allowance on net deferred tax assets.

Minority Share Owners' Interest in Earnings of Subsidiaries

Minority share owners' interest in earnings of subsidiaries for 2007 was \$59.5 million compared to \$43.6 million for 2006. The increase is primarily attributed to higher earnings from the Company's operations in South America.

Earnings from Continuing Operations

For 2007, the Company recorded earnings from continuing operations of \$299.3 million compared to a loss from continuing operations of \$3.8 million for 2006. The after tax effects of the items excluded from Segment Operating Profit, the 2007 and 2006 international net tax benefits, and the additional interest charges, increased or decreased earnings in 2007 and 2006 as set forth in the following table (dollars in millions).

Description	Net Earnings Increase (Decrease)	
	2007	2006
Gain recognition from foreign tax credits	\$ 13.5	\$ -
Curtailment of postretirement benefits in The Netherlands		11.2
Reversal of non-U.S. deferred tax asset valuation allowance partially offset by charges related to international tax restructuring		5.7
Restructuring and asset impairments	(84.1)	(27.7)
Increase in the accrual for future asbestos related costs	(115.0)	(120.0)
CEO transition charge and other		(20.7)
Note repurchase premiums and write-off of finance fees	(8.8)	(17.1)
Loss from the mark to market effect of natural gas hedge contracts		(8.4)
Total	<u>\$ (194.4)</u>	<u>\$ (177.0)</u>

Items Excluded from Reportable Segment Totals

Retained Corporate Costs and Other

Retained corporate costs and other for 2008 was \$0.7 million compared with \$78.8 million for 2007. Beginning in 2008, the Company revised its method of allocating corporate expenses. The Company decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services. It is not practicable to quantify the net effect of these changes on periods prior to 2008. However, the effect for 2008 was to reduce the amount of retained corporate costs by approximately \$38.0 million. Also contributing to the decrease were lower accruals for self insured risks and increased pension income in 2008.

Retained corporate costs and other for 2007 was \$78.8 million compared with \$76.6 million for 2006.

Restructuring and Asset Impairments

During 2008, the Company recorded charges totaling \$133.3 million (\$110.1 million after tax and minority share owners' interests), for additional restructuring and asset impairment principally in North America and Europe, with additional charges across all segments as well as in Retained Corporate Costs and Other. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 17 for additional information.

During the third and fourth quarters of 2007, the Company recorded charges totaling \$100.3 million (\$84.1 million after tax), for restructuring and asset impairment in South America, Europe, and North

America. The charges reflect the initial decisions of the Company's global profitability review. See Note 17 for additional information.

In September 2006, the Company announced the permanent closing of its Godfrey, Illinois machine parts manufacturing operation. The facility was closed by the end of the year. This closing is part of a broad initiative to reduce working capital and improve system costs. The Company also closed a small recycling facility in Ohio. As a result, the Company recorded a charge of \$29.7 million (\$27.7 million after tax) in the third quarter of 2006. The closing of these facilities resulted in the elimination of approximately 260 jobs and a corresponding reduction in the Company's workforce. The Company anticipates that it will pay out approximately \$11.5 million in cash related to insurance, benefits, plant clean up, and other plant closing costs. The Company expects that the majority of these costs will be paid out by the end of 2009.

Charge for Asbestos Related Costs

The fourth quarter 2008 charge for asbestos-related costs was \$250.0 million (\$248.8 million after tax), compared to the fourth quarter 2007 charge of \$115.0 million (pretax and after tax). The larger 2008 charge reflects higher filing rates and average disposition costs for 2008 and the next several years than previously estimated. These charges resulted from the Company's comprehensive annual review of asbestos-related liabilities and costs. In each year, the Company concluded that an increase in the accrued liability was required to provide for estimated indemnity payments and legal fees arising from asbestos personal injury lawsuits and claims pending and expected to be filed during the several years following the completion of the comprehensive review. See "Critical Accounting Estimates" for further information.

Asbestos-related cash payments for 2008 were \$210.2 million, a decrease of \$136.9 million from 2007. As in 2007, cash payments were used in part to fund, on an accelerated basis, settlements of certain claims on terms favorable to the Company. Deferred amounts payable were approximately \$34.0 million at both December 31, 2008 and 2007.

During 2008, the Company received approximately 5,000 new filings and disposed of approximately 8,000 claims. As of December 31, 2008, the number of asbestos-related claims pending against the Company was approximately 11,000. The Company anticipates that cash flows from operations and other sources will be sufficient to meet all asbestos-related obligations on a short-term and long-term basis. See Note 19 to the Consolidated Financial Statements for further information.

CEO and Other Transition Charges

The Company recorded a 2006 charge of \$20.8 million (\$20.7 million after tax) associated with the separation agreement with its former CEO and with several members of the European management team. The charge also included costs related to the employment agreement with the Company's new CEO.

Curtailment of Postretirement Benefits in The Netherlands

The Company recorded a 2006 gain of \$15.9 million (\$11.2 million after tax) related to curtailment of certain postretirement benefits in The Netherlands as a result of certain improvements in retiree medical benefits offered by the government.

Mark to Market Effect of Natural Gas Hedge Contracts

During the fourth quarter of 2004, the Company determined that the commodity futures contracts related to forecasted natural gas requirements did not meet all of the documentation requirements to qualify for special hedge accounting treatment and began to recognize all changes in fair value of these contracts in current earnings. The Company completed the documentation and re-designation of its natural gas hedge contracts and began to apply special hedge accounting as of April 1, 2005. The total unrealized pretax loss recorded in 2006 was \$8.7 million.

Tax Benefits and Charges

In 2008 the Company recorded a net tax charge of \$33.3 million (\$34.8 million after minority share owners' interest) related to tax legislation, restructuring, and other.

In 2007 the Company recorded a tax benefit of \$13.5 million for recognition of tax credits related to restructuring of investments in certain European operations.

In 2006 the Company recorded a net tax benefit of \$5.7 million from the reversal of a valuation allowance against certain non-U.S. deferred tax assets due to improving operations, partially offset by charges related to international tax restructuring.

Discontinued Operations

On July 31, 2007, the Company completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. As required by FAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," the Company has presented the results of operations for the plastics packaging business in the Consolidated Results of Operations for the years ended December 31, 2007 and 2006 as discontinued operations. Interest expense was allocated to the discontinued operations based on debt that was required by an amendment to the Secured Credit Agreement to be repaid from the net proceeds. Amounts for the prior periods have been reclassified to conform to this presentation.

The following summarizes the revenues and expenses of the discontinued operations as reported in the consolidated results of operations for the periods indicated:

	Years ended December 31,	
	2007	2006
Net sales	\$ 455.0	\$ 771.6
Manufacturing, shipping and delivery	(343.5)	(602.9)
Gross profit	111.5	168.7
Selling and administrative	(20.7)	(34.4)
Research, development and engineering	(8.3)	(15.1)
Interest expense	(80.6)	(139.2)
Other income	(0.1)	2.9
Other expense	(1.2)	(5.4)
Earnings (loss) before items below	0.6	(22.5)
(Provision) credit for income taxes	2.4	(1.2)
Minority share owners' interests in earnings of subsidiaries	(0.2)	
Gain on sale of discontinued operations	1,038.5	
Net earnings (loss) from discontinued operations	<u>\$ 1,041.3</u>	<u>\$ (23.7)</u>

The 2007 gain on the sale of discontinued operations of \$1,038.5 million includes charges totaling \$62.1 million for debt retirement costs, consisting principally of redemption premiums and write-off of unamortized fees, and a gain of \$8.7 million for curtailment and settlement of pension and other postretirement benefits. The gain also includes a net provision for income taxes of \$38.2 million, consisting of taxes on the gain of \$445.0 million that are substantially offset by a credit of \$406.8 million for the reversal of valuation allowances against existing tax loss carryforwards. The sale agreement provides for an adjustment of the selling price based on working capital levels and certain other factors.

The gain on sale of discontinued operations of \$6.8 million reported in 2008 relates to an adjustment of the 2007 gain on the sale of the plastics packaging business mainly related to finalizing certain tax allocations and an adjustment to the selling price in accordance with procedures set forth in the final contract.

Capital Resources and Liquidity

Current and Long-Term Debt

The Company's total debt at December 31, 2008 was \$3.33 billion, compared to \$3.71 billion at December 31, 2007.

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At December 31, 2008, the Agreement included a \$900.0 million revolving credit facility, a 225.0 million Australian dollar term loan, and a 110.8 million Canadian dollar term loan, each of which has a final maturity date of June 15, 2012. It also included a \$191.5 million term loan and a €191.5 million term loan, each of which has a final maturity date of June 14, 2013.

As a result of the bankruptcy of Lehman Brothers Holdings Inc. and several of its subsidiaries, the Company believes that the maximum amount available under the revolving credit facility was reduced by

\$32.3 million. After further deducting amounts attributable to letters of credit and overdraft facilities that are supported by the revolving credit facility, at December 31, 2008 the Company's subsidiary borrowers had unused credit of \$768.4 million available under the Agreement.

The Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments and acquisitions, become liable under contingent obligations in certain defined instances only, make restricted junior payments, make certain asset sales within guidelines and limits, make capital expenditures beyond a certain threshold, engage in material transactions with shareholders and affiliates, participate in sale and leaseback financing arrangements, alter its fundamental business, amend certain outstanding debt obligations, and prepay certain outstanding debt obligations.

The Agreement also contains one financial maintenance covenant, a Leverage Ratio, that requires the Company not to exceed a ratio calculated by dividing consolidated total debt, less cash and cash equivalents, by Consolidated Adjusted EBITDA, as defined in the Agreement. The Leverage Ratio could restrict the ability of the Company to undertake additional financing to the extent that such financing would cause the Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Agreement and the lenders cause all of the outstanding debt obligations under the Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. A default or event of default under the Agreement, indentures or agreements governing other indebtedness could also lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross-default provisions.

The Leverage Ratio also determines pricing under the Agreement. The interest rate on borrowings under the Agreement is, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Agreement. These rates include a margin linked to the Leverage Ratio and the borrowers' senior secured debt rating. The margins range from 0.875% to 1.75% for Eurocurrency Rate loans and from -0.125% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.50% per annum linked to the Leverage Ratio. The weighted average interest rate on borrowings outstanding under the Agreement at December 31, 2008 was 4.07%. As of December 31, 2008, the Company was in compliance with all covenants and restrictions in the Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Agreement will not be adversely affected by the covenants and restrictions.

During the second quarter of 2008, the Company used cash from operations and borrowings under the Agreement to retire \$250 million principal amount of 7.35% Senior Notes which matured in May 2008.

During March 2007, a subsidiary of the Company issued Senior Notes totaling €300.0 million. The notes bear interest at 6.875% and are due March 31, 2017. The notes are guaranteed by substantially all of the Company's domestic subsidiaries. The proceeds were used to retire the \$300 million principal amount of 8.10% Senior Notes which matured in May 2007, and to reduce borrowings under the revolving credit facility.

On July 31, 2007, the Company completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. In accordance with an amendment of the Agreement that became effective upon completion of the sale of the plastics business, the Company was required to use the net

proceeds (as defined in the Agreement) to repay senior secured debt. In addition, the amendment provided for modification of certain covenants, including the elimination of the financial covenant requiring the Company to maintain a specified interest coverage ratio. The Company used a portion of the net proceeds in the third quarter of 2007 to redeem all \$450.0 million of the 7.75% Senior Secured Notes and repurchase \$283.1 million of the 8.875% Senior Secured Notes. The remaining \$566.9 million of the 8.875% Senior Secured Notes were repurchased or discharged in accordance with the indenture in October 2007. The remaining net proceeds, along with funds from operations and/or additional borrowings under the revolving credit facility, were used to redeem all \$625.0 million of the 8.75% Senior Secured Notes on November 15, 2007. The Company recorded \$9.5 million of additional interest charges for note repurchase premiums and the related write-off of unamortized finance fees.

During October 2006, the Company entered into a €300 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines. In addition, the Company participates in a receivables financing program in the Asia Pacific region with a revolving funding commitment of 100 million Australian dollars and 25 million New Zealand dollars that extends through July 2009 and October 2009, respectively.

Information related to the Company's accounts receivable securitization program is as follows:

	Dec. 31, 2008	Dec. 31, 2007
Balance (included in short-term loans)	\$ 293.7	\$ 361.8
Weighted average interest rate	5.31%	5.48%

Cash Flows

For 2008, cash provided by continuing operating activities was \$707.6 million compared with \$625.1 million for 2007. The increase is mainly attributable to improved profit margins, lower interest, and lower payments for asbestos-related costs, partially offset by higher working capital balances.

Asbestos-related payments for 2008 decreased \$136.9 million to \$210.2 million, compared with \$347.1 million for 2007. The decrease is due to reduced funding for settlements of certain claims on an accelerated basis.

During the current downturn in global financial markets, some companies may experience difficulties accessing their cash equivalents, drawing on revolvers, issuing debt, and raising capital generally, which could have a material adverse impact on their liquidity. Notwithstanding these adverse market conditions, the Company anticipates that cash flow from its operations and from utilization of credit available under the Agreement will be sufficient to fund its operating and seasonal working capital needs, debt service and other obligations on a short-term (twelve-months) and long-term basis. Based on the Company's expectations regarding future payments for lawsuits and claims and also based on the Company's expected operating cash flow, the Company believes that the payment of any deferred amounts of previously settled or otherwise determined lawsuits and claims, and the resolution of presently pending and anticipated future lawsuits and claims associated with asbestos, will not have a material adverse effect upon the Company's liquidity on a short-term or long-term basis.

Capital spending for property, plant and equipment (continuing operations) was \$361.7 million compared with \$292.5 million in the prior year. The Company capitalized \$25.6 million and \$27.0 million in 2008 and 2007, respectively, under capital lease obligations with the related financing recorded as long-term debt. The 2008 amount is in a range consistent with long term historical levels. The increase is also due to changes in foreign currency exchange rates.

Contractual Obligations and Off-Balance Sheet Arrangements

The following information summarizes the Company's significant contractual cash obligations at December 31, 2008 (dollars in millions).

	Payments due by period				
	Total	Less than one year	1-3 years	3-5 years	More than 5 years
Contractual cash obligations:					
Long-term debt	\$ 2,883.2	\$ 8.9	\$ 412.1	\$ 1,064.0	\$ 1,398.2
Capital lease obligations	75.3	9.3	27.5	21.6	16.9
Operating leases	141.0	50.3	61.2	22.1	7.4
Interest (1)	1,216.9	207.7	361.2	316.6	331.4
Purchase obligations (2)	820.0	512.0	268.0	35.0	5.0
Pension benefit plan contributions	75.0	75.0			
Postretirement benefit plan benefit payments (1)	260.3	22.3	43.8	42.7	151.5
Total contractual cash obligations	<u>\$ 5,471.7</u>	<u>\$ 885.5</u>	<u>\$ 1,173.8</u>	<u>\$ 1,502.0</u>	<u>\$ 1,910.4</u>
	Amount of commitment expiration per period				
	Total	Less than one year	1-3 years	3-5 years	More than 5 years
Other commercial commitments:					
Standby letters of credit	\$ 81.3	\$ 81.3			
Total commercial commitments	<u>\$ 81.3</u>	<u>\$ 81.3</u>			

(1) Amounts based on rates and assumptions at December 31, 2008.

(2) The Company's purchase obligations included contracted amounts for energy and molds. The Company did not include ordinary course of business purchase orders in this amount as the majority of such purchase orders may be canceled. In cases where variable prices are involved, current market prices have been used. The Company does not believe such purchase orders will adversely affect our liquidity position.

The Company is unable to make a reasonably reliable estimate as to when cash settlement with taxing authorities may occur for our unrecognized tax benefits. Therefore, our liability for unrecognized tax benefits is not included in the table above. See Note 11 to the Consolidated Financial Statements for additional information.

The Company has no off-balance sheet arrangements.

Critical Accounting Estimates

The Company's analysis and discussion of its financial condition and results of operations are based upon its consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. The Company evaluates these estimates and assumptions on an ongoing basis. Estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances at the time the financial statements are issued. The results of these estimates may form the basis of the carrying value of certain assets and liabilities and may not be readily apparent from other sources. Actual results, under conditions and circumstances different from those assumed, may differ from estimates.

The impact of, and any associated risks related to, estimates and assumptions are discussed within Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as in the Notes to the Consolidated Financial Statements, if applicable, where estimates and assumptions affect the Company's reported and expected financial results.

The Company believes that accounting for property, plant and equipment, impairment of long-lived assets, pension benefit plans, contingencies and litigation, and income taxes involves the more significant judgments and estimates used in the preparation of its consolidated financial statements.

Property, Plant and Equipment

The net carrying amount of property, plant, and equipment ("PP&E") at December 31, 2008 totaled \$2,645.6 million, representing 33% of total assets. Depreciation expense from continuing operations during 2008 totaled \$431.0 million, representing approximately 5% of total costs and expenses. Given the significance of PP&E and associated depreciation to the Company's consolidated financial statements, the determinations of an asset's cost basis and its economic useful life are considered to be critical accounting estimates.

Cost Basis - PP&E is recorded at cost, which is generally objectively quantifiable when assets are purchased singly. However, when assets are purchased in groups, or as part of a business, costs assigned to PP&E are based on an estimate of fair value of each asset at the date of acquisition. These estimates are based on assumptions about asset condition, remaining useful life and market conditions, among others. The Company frequently employs expert appraisers to aid in allocating cost among assets purchased as a group.

Included in the cost basis of PP&E are those costs which substantially increase the useful lives or capacity of existing PP&E. Significant judgment is needed to determine which costs should be capitalized under these criteria and which costs should be expensed as a repair or maintenance expenditure. For example, the Company frequently incurs various costs related to its existing glass melting furnaces and forming machines and must make a determination of which costs, if any, to capitalize. The Company relies on the experience and expertise of its operations and engineering staff to make reasonable and consistent judgments regarding increases in useful lives or capacity of PP&E.

Estimated Useful Life - PP&E is generally depreciated using the straight-line method, which deducts equal amounts of the cost of each asset from earnings each period over its estimated economic useful life. Economic useful life is the duration of time an asset is expected to be productively employed by the Company, which may be less than its physical life. Management's assumptions regarding the following

factors, among others, affect the determination of estimated economic useful life: wear and tear, product and process obsolescence, technical standards, and changes in market demand.

The estimated economic useful life of an asset is monitored to determine its appropriateness, especially in light of changed business circumstances. For example, technological advances, excessive wear and tear, or changes in customers' requirements may result in a shorter estimated useful life than originally anticipated. In these cases, the Company depreciates the remaining net book value over the new estimated remaining life, thereby increasing depreciation expense per year on a prospective basis. Likewise, if the estimated useful life is increased, the adjustment to the useful life decreases depreciation expense per year on a prospective basis. Changes in economic useful life assumptions did not have a material impact on the Company's reported results in 2008, 2007 or 2006.

Impairment of Long-Lived Assets

Property, Plant, and Equipment –As required by FAS No. 144, the Company tests for impairment of PP&E whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. PP&E held for use in the Company's business is grouped for impairment testing at the lowest level for which cash flows can reasonably be identified, typically a geographic region. The Company evaluates the recoverability of property, plant, and equipment based on undiscounted projected cash flows, excluding interest and taxes. If an asset group is considered impaired, the impairment loss to be recognized is measured as the amount by which the asset group's carrying amount exceeds its fair value. PP&E held for sale is reported at the lower of carrying amount or fair value less cost to sell.

Impairment testing requires estimation of the fair value of PP&E based on the discounted value of projected future cash flows generated by the asset group. The assumptions underlying cash flow projections represent management's best estimates at the time of the impairment review. Factors that management must estimate include, among other things: industry and market conditions, sales volume and prices, production costs and inflation. Changes in key assumptions or actual conditions which differ from estimates could result in an impairment charge. The Company uses reasonable and supportable assumptions when performing impairment reviews and cannot predict the occurrence of future events and circumstances that could result in impairment charges.

In mid-2007, the Company began a strategic review of its global manufacturing footprint. The review is ongoing into 2009. As an initial result of this review, during 2007 and 2008, the Company recorded charges that included impairments of property, plant, and equipment across all segments including certain Retained Corporate Costs and Other activities. It is possible that the Company may conclude in the future that it will close or temporarily idle additional selected facilities or production lines and reduce headcount to increase operating performance and cash flows. As of December 31, 2008, no other decisions had been made and no events had occurred that would require an additional evaluation of possible impairment in accordance with FAS No. 144. For additional information on charges recorded in 2008, 2007 and 2006, see Note 17 to the Consolidated Financial Statements.

Goodwill – Goodwill at December 31, 2008 totaled \$2,207.5 million, representing 27% of total assets. As required by FAS No. 142, the Company evaluates goodwill annually (or more frequently if impairment indicators arise) for impairment. The Company conducts its evaluation as of October 1 of each year. Goodwill impairment testing is performed using the business enterprise value ("BEV") of each reporting unit which is calculated as of a measurement date by determining the present value of debt-free, after-tax projected future cash flows, discounted at the weighted average cost of capital of a hypothetical third party buyer. This BEV is then compared to the book value of each reporting unit as of the measurement date to assess whether an impairment of goodwill may exist.

During the fourth quarter of 2008, the Company completed its annual testing and determined that no impairment of goodwill existed.

The testing performed as of October 1, 2008, indicated a significant excess of BEV over book value for each unit. If the Company's projected future cash flows were substantially lower, or if the assumed weighted average cost of capital was substantially higher, the testing performed as of October 1, 2008, may have indicated an impairment of one or more of the Company's reporting units and, as a result, the related goodwill may also have been impaired. However, less significant changes in projected future cash flows or the assumed weighted average cost of capital would not have indicated an impairment. For example, if projected future cash flows had been decreased by 5%, or if the weighted average cost of capital had been increased by 5%, or both, the resulting lower BEV's would still have exceeded the book value of each reporting unit by a significant margin.

The Company will monitor conditions throughout 2009 that might significantly affect the projections and variables used in the impairment test to determine if a review prior to October 1 may be appropriate. If the results of impairment testing confirm that a write down of goodwill is necessary, then the Company will record a charge in the fourth quarter of 2009, or earlier if appropriate. In the event the Company would be required to record a significant write down of goodwill, the charge would have a material adverse effect on reported results of operations and net worth.

Other Long-Lived Assets – Other long-lived assets include, among others, equity investments and repair parts inventories. The Company's equity investments are non-publicly traded ventures with other companies in businesses related to those of the Company. Equity investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. In the event that a decline in fair value of an investment occurs, and the decline in value is considered to be other than temporary, an impairment loss is recognized. Summarized financial information of equity affiliates is included in Note 5 to the Consolidated Financial Statements. During 2007 and 2008, the Company recorded charges that included impairments of an equity investment. For additional information on these charges, see Note 16 to the Consolidated Financial Statements.

The Company carries a significant amount of repair parts inventories in order to provide a dependable supply of quality parts for servicing the Company's PP&E, particularly its glass melting furnaces and forming machines. The Company evaluates the recoverability of repair parts inventories based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the repair parts are written down to fair value. The Company continually monitors the carrying value of repair parts for recoverability, especially in light of changing business circumstances. For example, technological advances related to, and changes in, the estimated future demand for products produced on the equipment to which the repair parts relate may make the repair parts obsolete. In these circumstances, the Company writes down the repair parts to fair value. For additional information on a charge recorded in 2006, see Note 16 to the Consolidated Financial Statements.

Pension Benefit Plans

Significant Estimates - The determination of pension obligations and the related pension expense or credits to operations involves significant estimates. The most significant estimates are the discount rate used to calculate the actuarial present value of benefit obligations and the expected long-term rate of return on plan assets. The Company uses discount rates based on yields of high quality fixed rate debt securities at the end of the year. At December 31, 2008, the weighted average discount rate for all plans was 6.29%. The Company uses an expected long-term rate of return on assets that is based on both past performance of the various plans' assets and estimated future performance of the assets. Due to the

nature of the plans' assets and the volatility of debt and equity markets, actual returns may vary significantly from year to year. The Company refers to average historical returns over longer periods (up to 10 years) in determining its expected rates of return because short-term fluctuations in market values do not reflect the rates of return the Company expects to achieve based upon its long-term investing strategy. For purposes of determining pension charges and credits in 2009, the Company's estimated weighted average expected long-term rate of return on plan assets is 7.7% compared to 8.1% in 2008. The Company recorded pension expense (income) from continuing operations of \$36.2 million, \$3.4 million, and \$(24.3) million in 2006, 2007, and 2008, respectively, from its principal defined benefit pension plans. The improvement in 2008 is principally a result of higher asset values in the U.S. plans at the beginning of 2008. Depending on currency translation rates, the Company expects to record approximately \$20 million of pension expense for the full year of 2009.

Future effects on reported results of operations depend on economic conditions and investment performance. For example, a one-half percentage point change in the actuarial assumption regarding the expected return on assets would result in a change of approximately \$18 million in the pretax pension amount for the full year 2009. In addition, changes in external factors, including the fair values of plan assets and the discount rates used to calculate plan liabilities, could have a significant effect on the recognition of funded status as described below.

Recognition of Funded Status – FAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans", requires employers to adjust the assets and liabilities related to defined benefit plans so that the amounts reflected on the balance sheet represent the overfunded or underfunded status of the plans. These funded status amounts are measured as the difference between the fair value of plan assets and actuarially calculated benefit obligations as of the balance sheet date. At December 31, 2008, the Accumulated Other Comprehensive Loss component of share owners' equity was increased by \$1,080.1 million (\$1,025.0 million after tax) to reflect a net decrease in the funded status of the Company's plans at that date.

Funding – Based on exchange rates at the end of 2008, the Company expects to contribute approximately \$70 million to \$75 million to its non-U.S. defined benefit pension plans in 2009, compared with \$61.2 million in 2008. Depending on a number of factors, the Company may elect to contribute amounts in excess of minimum required amounts in order to improve the funded status of certain plans. The Company presently estimates it will not be required to make cash contributions to the U.S. plans during 2009.

Contingencies and Litigation

The Company believes that its ultimate asbestos-related liability (i.e., its indemnity payments or other claim disposition costs plus related legal fees) cannot be estimated with certainty. The Company's ability reasonably to estimate its liability has been significantly affected by the volatility of asbestos-related litigation in the United States, the inherent uncertainty of future disease incidence and claiming patterns, the expanding list of non-traditional defendants that have been sued in this litigation and found liable for substantial damage awards, the use of mass litigation screenings to generate new lawsuits, the large number of claims asserted or filed by parties who claim prior exposure to asbestos materials but have no present physical impairment as a result of such exposure, and the significant number of co-defendants that have filed for bankruptcy. The Company continues to monitor trends that may affect its ultimate liability and continues to analyze the developments and variables affecting or likely to affect the resolution of pending and future asbestos claims against the Company.

The Company conducts a comprehensive review of its asbestos-related liabilities and costs annually in connection with finalizing and reporting its annual results of operations, unless significant changes in

trends or new developments warrant an earlier review. If the results of an annual comprehensive review indicate that the existing amount of the accrued liability is insufficient to cover its estimated future asbestos-related costs, then the Company will record an appropriate charge to increase the accrued liability. The Company believes that an estimation of the reasonably probable amount of the contingent liability for claims not yet asserted against the Company is not possible beyond a period of several years. Therefore, while the results of future annual comprehensive reviews cannot be determined, the Company expects the addition of one year to the estimation period will result in an annual charge.

In the fourth quarter of 2008, the Company recorded a charge of \$250.0 million (\$248.8 million after tax) to increase its accrued liability for asbestos-related costs. This amount was higher than the 2007 charge of \$115.0 million. The larger 2008 charge reflects higher filing rates and average disposition costs for 2008 and the next several years than previously estimated. The factors and developments that particularly affected the determination of the amount of this increase in the accrual included the following: (i) the rates and average disposition costs of filings against the Company; (ii) the continuing evidence of irregularities associated with mass litigation screenings; (iii) the Company's successful litigation record; (iv) legislative developments and court rulings in several states; (v) the Company's strategy to accelerate settlements of certain claims on favorable terms; and (vi) the impact these and other factors had on the Company's valuation of existing and future claims.

The Company's estimates are based on a number of factors as described further in Note 19 to the Consolidated Financial Statements.

Income Taxes

The Company accounts for income taxes as required by the provisions of FAS No. 109, "Accounting for Income Taxes," under which deferred tax assets and liabilities are recognized for the tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities measured using enacted tax rates.

Management judgment is required in determining income tax expense and the related balance sheet amounts. In addition, under FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48") judgments are required concerning the ultimate outcome of uncertain income tax positions. Actual income taxes paid may vary from estimates, depending upon changes in income tax laws, actual results of operations, and the final audit of tax returns by taxing authorities. Tax assessments may arise several years after tax returns have been filed. During 2008, the Company's estimated unrecognized tax benefits increased by \$44.0 million related to tax positions taken in prior years in non-U.S. jurisdictions.

Deferred tax assets are also recorded for operating losses and tax credit carryforwards. However, FAS No. 109 requires that a valuation allowance be recorded when it is more likely than not that some portion or all of the deferred tax assets will not be realized. This assessment is dependent upon projected profitability including the effects of tax planning. Deferred tax assets and liabilities are determined separately for each tax jurisdiction in which the Company conducts its operations or otherwise incurs taxable income or losses. In the U.S., the Company has recorded significant deferred tax assets, the largest of which relate to foreign and other tax credits which amounted to \$303.9 million at December 31, 2008, the accrued liability for asbestos-related costs which amounted to \$173.4 million at December 31, 2008 that are not deductible until paid and the pension liability which amounted to \$122.6 million at December 31, 2008. The deferred tax assets are partially offset by deferred tax liabilities, the most significant of which relate to accelerated depreciation. The Company has recorded a valuation allowance for the portion of U.S. deferred tax assets not offset by deferred tax liabilities. During the third quarter of 2007 the Company sold its discontinued plastics operations. For tax purposes, the gain on the sale was substantially offset by capital and net operating loss carryforwards. The credit for the corresponding

reduction in the valuation allowance of \$406.8 million was classified as a component of the gain on sale of discontinued operations. In 2007 the Company implemented a plan to restructure the ownership and intercompany obligations of certain foreign subsidiaries. These actions resulted in taxation of a significant portion of previously unremitted foreign earnings and will transfer a portion of the Company's debt service obligations to operations outside the U.S. in order to better balance operating cash flows with financing costs on a global basis. The foreign earnings reported as taxable in the U.S. were fully offset by net operating loss carryforwards and foreign tax credits. Foreign tax credit carryforwards arising from the restructuring were fully offset by an increase in the valuation allowance.

ITEM 7A. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

{PRIVATE }Market risks relating to the Company's operations result primarily from fluctuations in foreign currency exchange rates, changes in interest rates, and changes in commodity prices, principally energy and soda ash. The Company uses certain derivative instruments to mitigate a portion of the risk associated with changing foreign currency exchange rates and fluctuating energy prices. In addition, the Company uses interest rate swap agreements to manage a portion of fixed rate debt and interest expense. These instruments carry varying degrees of counterparty credit risk. To mitigate this risk, the Company has established limits on the exposure with individual counterparties and the Company regularly monitors these exposures. Substantially all of these exposures are with counterparties that are rated single-A or above.

Foreign Currency Exchange Rate Risk

Earnings of operations outside the United States

A substantial portion of the Company's operations are conducted by subsidiaries outside the U.S. The primary international markets served by the Company's subsidiaries are in Canada, Australia, South America (principally Colombia, Brazil and Venezuela), and Europe (principally Italy, France, The Netherlands, Germany, the United Kingdom, and Poland). In general, revenues earned and costs incurred by the Company's major international operations are denominated in their respective local currencies. Consequently, the Company's reported financial results could be affected by factors such as changes in foreign currency exchange rates or highly inflationary economic conditions in the international markets in which the Company's subsidiaries operate. When the U.S. dollar strengthens against foreign currencies, the reported dollar value of local currency earnings generally decreases; when the U.S. dollar weakens against foreign currencies, the reported U.S. dollar value of local currency earnings generally increases. The Company does not have any significant foreign subsidiaries whose functional currency is the U.S. dollar, however, if economic conditions in Venezuela were to decline, the Company may be required to adopt the U.S. dollar as the functional currency for its subsidiaries in that country. The Company does not hedge the foreign currency exchange rate risk related to earnings of operations outside the United States.

Borrowings not denominated in the functional currency

Because the Company's subsidiaries operate within their local economic environment, the Company believes it is appropriate to finance those operations with borrowings denominated in the local currency to the extent practicable where debt financing is desirable or necessary. Considerations which influence the amount of such borrowings include long- and short-term business plans, tax implications, and the availability of borrowings with acceptable interest rates and terms. In those countries where the local currency is the designated functional currency, this strategy mitigates the risk of reported losses or gains in the event the foreign currency strengthens or weakens against the U.S. dollar. In those countries where

the U.S. dollar is the designated functional currency, however, local currency borrowings expose the Company to reported losses or gains in the event the foreign currency strengthens or weakens against the U.S. dollar.

Available excess funds of a subsidiary may be redeployed through intercompany loans to other subsidiaries for debt repayment, capital investment, or other cash requirements. Generally, each intercompany loan is denominated in the lender's local currency giving rise to foreign currency exchange rate risk for the borrower. To mitigate this risk, the borrower generally enters into a forward exchange contract which effectively swaps the intercompany loan and related interest to its local currency.

The Company believes the near term exposure to foreign currency exchange rate risk of its foreign currency risk sensitive instruments was not material at December 31, 2008 and 2007.

Interest Rate Risk

The Company's interest expense is most sensitive to changes in the general level of U.S. interest rates applicable to its U.S. dollar indebtedness.

The Company has entered into a series of interest rate swap agreements with a total notional amount of \$700 million that mature in 2010 and 2013. The swaps were executed in order to: (i) convert a portion of the senior notes and senior debentures fixed-rate debt into floating-rate debt; (ii) maintain a capital structure containing appropriate amounts of fixed and floating-rate debt; and (iii) reduce net interest payments and expense in the near-term.

The Company's fixed-to-variable interest rate swaps are accounted for as fair value hedges. Because the relevant terms of the swap agreements match the corresponding terms of the notes, there is no hedge ineffectiveness. Accordingly, the Company recorded the net of the fair market values of the swaps as a long-term asset along with a corresponding net increase in the carrying value of the hedged debt.

Under the swaps, the Company receives fixed rate interest amounts (equal to interest on the corresponding hedged note) and pays interest at a six-month U.S. LIBOR rate (set in arrears) plus a margin spread. The interest rate differential on each swap is recognized as an adjustment of interest expense during each six-month period over the term of the agreement.

The following table provides information about the Company's interest rate sensitivity related to its significant debt obligations and interest rate swaps at December 31, 2008. For debt obligations, the table presents principal cash flows and related weighted-average interest rates by expected maturity date. For interest rate swaps, the table presents notional amounts and weighted-average interest rates by contract maturity date. Notional amounts are used to calculate the contractual cash flows to be exchanged under the swap contracts.

(dollars in millions)	2009	2010	2011	2012	2013	There- after	Total	Fair Value at 12/31/2008
Long-term debt at variable rate:								
Principal by expected maturity	\$ 18.2	\$ 20.1	\$ 160.1	\$ 153.6	\$ 462.0	\$ 25.9	\$ 839.9	\$ 839.9
Avg. principal outstanding	830.8	811.7	721.6	564.7	256.9	12.9		
Avg. interest rate	4.07%	4.07%	4.07%	4.07%	4.07%	4.07%		
Long-term debt at fixed rate:								
Principal by expected maturity		\$250.0			\$450.0	\$1,389.2	\$2,089.2	\$1,824.5
Avg. principal outstanding	\$2,089.2	\$1,933.0	\$1,839.2	\$1,839.2	\$1,558.0	\$1,389.2		
Avg. interest rate	7.31%	7.30%	7.29%	7.29%	7.11%	6.98%		
Interest rate swaps (pay variable/receive fixed):								
Notional by expected maturity		\$250.0			\$450.0		\$700.0	(\$29.4)
Avg. notional outstanding	\$700.0	\$543.8	\$450.0	\$450.0	\$450.0			
Avg. pay rate margin over U.S. LIBOR	3.52%	3.61%	3.70%	3.70%	3.70%			
Avg. fixed receive rate	7.98%	8.12%	8.25%	8.25%	8.25%			

The Company believes the near term exposure to interest rate risk of its debt obligations and interest rate swaps has not changed materially since December 31, 2007.

Commodity Price Risk

The Company has exposure to commodity price risk, principally related to energy. The Company believes it can mitigate a portion of this risk by passing commodity cost changes through to customers. In addition, the Company enters into commodity futures contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. The Company continually evaluates the natural gas market with respect to its forecasted usage requirements over the next twelve to twenty-four months and periodically enters into commodity futures contracts in order to hedge a portion of its usage requirements over that period. Significant transactions related to commodity price risk are as follows:

- At December 31, 2008, the Company had entered into commodity futures contracts for approximately 50% (approximately 10,200,000 MM BTUs) of its estimated North American usage requirements for the full year of 2009 and approximately 1% (approximately 240,000 MM BTUs) for the full year of 2010.

The Company believes the near term exposure to commodity price risk of its commodity futures contracts was not material at December 31, 2008.

Forward Looking Statements

This document contains "forward looking" statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. Forward-looking statements reflect the Company's current expectations and projections about future events at the time, and thus involve

uncertainty and risk. It is possible the Company's future financial performance may differ from expectations due to a variety of factors including, but not limited to the following: (1) foreign currency fluctuations relative to the U.S. dollar, (2) changes in capital availability or cost, including interest rate fluctuations, (3) the general political, economic and competitive conditions in markets and countries where the Company has its operations, including disruptions in capital markets, disruptions in the supply chain, competitive pricing pressures, inflation or deflation, and changes in tax rates and laws, (4) consumer preferences for alternative forms of packaging, (5) fluctuations in raw material and labor costs, (6) availability of raw materials, (7) costs and availability of energy, (8) transportation costs, (9) the ability of the Company to raise selling prices commensurate with energy and other cost increases, (10) consolidation among competitors and customers, (11) the ability of the Company to integrate operations of acquired businesses and achieve expected synergies, (12) unanticipated expenditures with respect to environmental, safety and health laws, (13) the performance by customers of their obligations under purchase agreements, and (14) the timing and occurrence of events which are beyond the control of the Company, including events related to asbestos-related claims. It is not possible to foresee or identify all such factors. Any forward looking statements in this document are based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current conditions, expected future developments, and other factors it believes are appropriate in the circumstances. Forward-looking statements are not a guarantee of future performance and actual results or developments may differ materially from expectations. While the Company continually reviews trends and uncertainties affecting the Company's results of operations and financial condition, the Company does not assume any obligation to update or supplement any particular forward looking statements contained in this document.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Share Owners of
Owens-Illinois, Inc.

We have audited the accompanying consolidated balance sheets of Owens-Illinois, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of results of operations, share owners' equity, and cash flows for each of the three years in the period ended December 31, 2008. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Owens-Illinois, Inc. and subsidiaries at December 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Owens-Illinois, Inc.'s internal control over financial reporting as of December 31, 2008, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 17, 2009 expressed an unqualified opinion thereon.

As discussed in Note 14 to the consolidated financial statements, the Company changed its method of accounting for defined benefit pension plans and other postretirement plans in 2006.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Tabular data dollars in millions, except share and per share amounts

1. Significant Accounting Policies

Basis of Consolidated Statements The consolidated financial statements of Owens-Illinois, Inc. (“Company”) include the accounts of its subsidiaries. Newly acquired subsidiaries have been included in the consolidated financial statements from dates of acquisition. Results of operations for the plastics packaging business sold during 2007 have been presented as a discontinued operation. The format of the Company’s 2007 and 2006 consolidated income statements has been reclassified to conform to the presentation used in the current period. The individual captions within the financial statements did not change.

The Company uses the equity method of accounting for investments in which it has a significant ownership interest, generally 20% to 50%. Other investments are accounted for at cost. The Company monitors other than temporary declines in fair value and records reductions in carrying values when appropriate.

Nature of Operations The Company is a leading manufacturer of glass container products. The Company’s principal product lines are glass containers for the food and beverage industries. The Company has glass container operations located in 22 countries. The principal markets and operations for the Company’s products are in North America, Europe, South America, and Australia.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management of the Company to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates, at which time the Company would revise its estimates accordingly. For further information on certain of the Company’s significant estimates relative to contingent liabilities, see Note 19.

Cash The Company defines “cash” as cash and time deposits with maturities of three months or less when purchased. Outstanding checks in excess of funds on deposit are included in accounts payable.

Fair Values of Financial Instruments The carrying amounts reported for cash, short-term investments and short-term loans approximate fair value. In addition, carrying amounts approximate fair value for certain long-term debt obligations subject to frequently redetermined interest rates. Fair values for the Company’s significant fixed rate debt obligations are generally based on published market quotations.

Derivative Instruments The Company uses currency swaps, interest rate swaps, options, and commodity futures contracts to manage risks generally associated with foreign exchange rate, interest rate and commodity market volatility. Derivative financial instruments are included on the balance sheet at fair value. Whenever possible, derivative instruments are designated as and are effective as hedges, in accordance with accounting principles generally accepted in the United States. If the underlying hedged transaction ceases to exist, all changes in fair value of the related derivatives that have not been settled are recognized in current earnings. The Company does not enter into derivative financial instruments for trading purposes and is not a party to leveraged derivatives. In accordance with FAS No. 104, cash flows from fair value hedges of debt and short-term forward exchange contracts are classified as a financing activity. Cash flows of currency swaps, interest rate swaps, and commodity futures contracts are classified as operating activities. See Note 9 for additional information related to derivative instruments.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Inventory Valuation The Company values most U.S. inventories at the lower of last-in, first-out (LIFO) cost or market. Other inventories are valued at the lower of standard costs (which approximate average costs) or market.

Goodwill Goodwill represents the excess of cost over fair value of assets of businesses acquired. Goodwill is evaluated annually, as of October 1, for impairment or more frequently if an impairment indicator exists.

Intangible Assets and Other Long-Lived Assets Intangible assets are amortized over the expected useful life of the asset. Amortization expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Amortization expense related to non-manufacturing activities is included in selling and administrative and other. The Company evaluates the recoverability of intangible assets and other long-lived assets based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Property, Plant, and Equipment Property, plant, and equipment ("PP&E") is carried at cost and includes expenditures for new facilities and equipment and those costs which substantially increase the useful lives or capacity of existing PP&E. In general, depreciation is computed using the straight-line method and recorded over the estimated useful life of the asset. Factory machinery and equipment is depreciated over periods ranging from 5 to 25 years with the majority of such assets (principally glass-melting furnaces and forming machines) depreciated over 7-15 years. Buildings and building equipment are depreciated over periods ranging from 10 to 50 years. Depreciation expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Depreciation expense related to non-manufacturing activities is included in selling and administrative. Maintenance and repairs are expensed as incurred. Costs assigned to PP&E of acquired businesses are based on estimated fair values at the date of acquisition. The Company evaluates the recoverability of property, plant, and equipment based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Revenue Recognition The Company recognizes sales, net of estimated discounts and allowances, when the title to the products and risk of loss are transferred to customers. Provisions for rebates to customers are provided in the same period that the related sales are recorded.

Shipping and Handling Costs Shipping and handling costs are included with manufacturing, shipping, and delivery costs in the Consolidated Statements of Operations.

Income Taxes on Undistributed Earnings In general, the Company plans to continue to reinvest the undistributed earnings of foreign subsidiaries and foreign corporate joint ventures accounted for by the equity method. Accordingly, taxes are provided only on that amount of undistributed earnings in excess of planned reinvestments.

Foreign Currency Translation The assets and liabilities of substantially all subsidiaries and associates are translated at current exchange rates and any related translation adjustments are recorded directly in share owners' equity.

Accounts Receivable Receivables are stated at amounts estimated by management to be the net realizable value. The Company charges off accounts receivable when it becomes apparent based upon age or customer circumstances that amounts will not be collected.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Allowance for Doubtful Accounts The allowance for doubtful accounts is established through charges to the provision for bad debts. The Company evaluates the adequacy of the allowance for doubtful accounts on a periodic basis. The evaluation includes historical trends in collections and write-offs, management's judgment of the probability of collecting accounts and management's evaluation of business risk.

New Accounting Standards In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141R, "Business Combinations" ("FAS No. 141R"). FAS No. 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree and recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase. FAS No. 141R also sets forth the disclosures required to be made in the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Accordingly, FAS No. 141R will be applied by the Company to business combinations occurring on or after January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" ("FAS No. 160"). FAS No. 160 establishes accounting and reporting standards for the non-controlling interest in a subsidiary and the deconsolidation of a subsidiary. FAS No. 160 is effective for years beginning on or after December 15, 2008. Adoption of FAS No. 160 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" ("FAS No. 161"). FAS No. 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial condition, financial performance, and cash flows. FAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Adoption of FAS No. 161 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In June 2008, the FASB issued FSP No. EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities," which addresses whether instruments granted in share-based payment awards are participating securities prior to vesting and, therefore, must be included in the earnings allocation in calculating earnings per share under the two-class method described in FAS No. 128, "Earnings per Share." FSP No. EITF 03-6-1 requires that unvested share-based payment awards that contain non-forfeitable rights to dividends be treated as participating securities in calculating earnings per share. FSP No. EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years, and shall be applied retrospectively to all prior periods. The adoption of FSP No. EITF 03-6-1 is not presently expected to have a material impact on the Company's earnings per share.

In December 2008, the FASB issued a FASB Staff Position on Statement of Financial Accounting Standards No. 132(R), "Employers' Disclosures about Postretirement Benefit Plan Assets" ("FSP FAS No. 132(R)-1"). FSP FAS No. 132(R)-1 requires additional disclosures about the fair value of postretirement benefit plan assets to provide users of financial statements with useful, transparent and timely information about the asset portfolios. FSP FAS No. 132(R)-1 is effective for years ending after December 15, 2009. Adoption of FSP FAS No. 132(R)-1 will have no impact on the Company's results of operations, financial position or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position FSP 157-2, “Effective Date of FASB Statement No. 157” (FSP 157-2). FSP 157-2 delays the effective date of FAS No. 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until the beginning of the first quarter of fiscal 2009. The adoption of FAS No. 157 is not expected to have a significant impact on the Company’s consolidated financial statements when it is applied to non-financial assets and non-financial liabilities that are not measured at fair value on a recurring basis, beginning in the first quarter of 2009.

Stock Options and Other Stock-Based Compensation The Company has five non-qualified plans, which are described more fully in Note 13. In December 2004, the Financial Accounting Standards Board issued FAS No. 123R, “Share-Based Payment” (“FAS No. 123R”), which requires that the cost resulting from all share-based payment transactions be recognized in the financial statements. The statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. That cost is recognized over the required service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the required service.

The Company adopted the provisions of FAS No. 123R effective January 1, 2006 using the modified-prospective method of adoption, which requires recognition of compensation cost in the financial statements beginning on the date of adoption.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

	2008	2007	2006
Range of expected lives of options (years)	4.75	4.75	3.50-4.75
Range of expected stock price volatilities	29.0%-39.8%	37.1%-40.0%	32.7%-50.5%
Weighted average expected stock price volatilities	31.4%	39.9%	44.9%
Range of risk-free interest rates	1.5%-3.7%	4.1%-4.6%	4.1%-5.1%
Expected dividend yield	0.0%	0.0%	0.0%

The expected life of options is based on the assumption that, on average, options will be exercised at the mid-point between the vesting date and the expiration date. The expected stock price volatility is determined by reference to historical prices over a period equal to the expected life.

The fair value of other equity awards, consisting of restricted shares and performance vested restricted share units, is equal to the quoted market value at the time of grant.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

2. Earnings Per Share The following table sets forth the computation of basic and diluted earnings per share:

Years ended December 31,	2008	2007	2006
Numerator:			
Net earnings (loss)	\$ 258.3	\$ 1,340.6	\$ (27.5)
Convertible preferred stock dividends	(5.4)	(21.5)	(21.5)
Numerator for basic earnings (loss) per share -- income (loss) available to common share owners	\$ 252.9	\$ 1,319.1	\$ (49.0)
Denominator:			
Denominator for basic earnings (loss) per share -- weighted average shares outstanding	163,177,874	154,215,269	152,071,037
Effect of dilutive securities:			
Convertible preferred stock	2,147,339	8,589,355	
Stock options and other	4,352,076	4,962,683	
Denominator for diluted earnings (loss) per share -- adjusted weighted average shares and assumed exchanges of preferred stock for common stock	169,677,289	167,767,307	152,071,037
Basic earnings (loss) per share:			
Earnings (loss) from continuing operations	\$ 1.51	\$ 1.80	\$ (0.17)
Net earnings (loss) of discontinued operations		0.02	(0.15)
Gain on sale of discontinued operations	0.04	6.73	
Net earnings (loss)	\$ 1.55	\$ 8.55	\$ (0.32)
Diluted earnings (loss) per share:			
Earnings (loss) from continuing operations	\$ 1.48	\$ 1.78	\$ (0.17)
Net earnings (loss) of discontinued operations		0.02	(0.15)
Gain on sale of discontinued operations	0.04	6.19	
Net earnings (loss)	\$ 1.52	\$ 7.99	\$ (0.32)

The convertible preferred stock was included in the computation of diluted earnings per share for 2008, to the extent outstanding during 2008, and 2007 on an “if converted” basis since the result was dilutive. The Company’s convertible preferred stock was not included in the computation of 2006 diluted earnings per share since the result would have been antidilutive. For purposes of this computation, the preferred stock dividends were not subtracted from the numerator. Options to purchase 241,711 and 862,906 weighted average shares of common stock which were outstanding during 2008 and 2007, respectively, were not included in the computation of diluted earnings per share because the options’ exercise prices were greater than the average market price of the common shares. For the year ended December 31, 2006, diluted earnings per share of common stock were equal to basic earnings per share of common stock due to the net loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

3. Supplemental Cash Flow Information Changes in the components of working capital related to operations (net of the effects related to acquisitions and divestitures) were as follows:

	2008	2007	2006
Decrease (increase) in current assets:			
Short-term investments	\$ 36.8	\$ (27.0)	\$ 22.5
Receivables	57.8	(16.5)	(162.8)
Inventories	(74.1)	63.0	(31.2)
Prepaid expenses	(1.6)	5.6	(2.6)
Increase (decrease) in current liabilities:			
Accounts payable	(56.7)	(2.9)	51.9
Accrued liabilities	(95.7)	(63.2)	(82.1)
Salaries and wages	(37.2)	38.3	(24.4)
U.S. and foreign income taxes	(30.7)	24.5	(24.1)
	\$ (201.4)	\$ 21.8	\$ (252.8)
Continuing operations	\$ (201.4)	\$ 36.2	\$ (257.1)
Discontinued operations		(14.4)	4.3
	\$ (201.4)	\$ 21.8	\$ (252.8)

Interest paid in cash, including note repurchase premiums in 2007 and 2006, aggregated \$251.9 million for 2008, \$452.4 million for 2007, and \$461.0 million for 2006.

Income taxes paid (received) in cash were as follows:

	2008	2007	2006
Domestic	\$ (1.2)	\$ 31.8	\$ (1.2)
Foreign	162.5	151.1	126.8
	\$ 161.3	\$ 182.9	\$ 125.6

4. Inventories Major classes of inventory are as follows:

	2008	2007
Finished goods	\$ 831.7	\$ 861.1
Work in process	0.8	1.4
Raw materials	109.8	90.5
Operating supplies	57.2	67.8
	\$ 999.5	\$ 1,020.8

If the inventories which are valued on the LIFO method had been valued at standard costs, which approximate current costs, consolidated inventories would be higher than reported by \$32.5 million and \$29.1 million at December 31, 2008 and 2007, respectively.

Inventories which are valued at the lower of standard costs (which approximate average costs) or market at December 31, 2008 and 2007 were approximately \$861.7 million and \$874.6 million, respectively.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

5. Equity Investments Summarized information pertaining to the Company's equity associates follows:

	2008	2007
At end of year:		
Equity in undistributed earnings:		
Foreign	\$ 36.4	\$ 23.4
Domestic	15.2	18.7
Total	\$ 51.6	\$ 42.1

	2008	2007	2006
For the year:			
Equity in earnings:			
Foreign	\$ 14.1	\$ 5.3	\$ 2.0
Domestic	36.7	28.8	21.4
Total	\$ 50.8	\$ 34.1	\$ 23.4
Dividends received	\$ 24.5	\$ 21.7	\$ 43.5

Summarized combined financial information for equity associates is as follows:

	2008	2007 (a)
At end of year:		
Current assets	\$ 208.3	\$ 191.3
Non-current assets	325.9	302.4
Total assets	534.2	493.7
Current liabilities	167.5	117.0
Other liabilities and deferred items	182.5	265.5
Total liabilities and deferred items	350.0	382.5
Net assets	\$ 184.2	\$ 111.2

	2008	2007 (a)	2006
For the year:			
Net sales	\$ 635.8	\$ 535.9	\$ 564.0
Gross profit	\$ 227.5	\$ 176.5	\$ 132.2
Net earnings	\$ 153.9	\$ 112.4	\$ 69.4

(a) Amounts for 2007 exclude the Company's Caribbean investment due to the impairment recorded during 2007.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company's significant equity method investments include: (1) 43.5% of the common shares of Vetri Speciali SpA, a specialty glass manufacturer; (2) a 25% partnership interest in General Chemical Soda Ash (Partners), a soda ash supplier; and (3) a 50% partnership interest in Rocky Mountain Bottle Company, a glass container manufacturer.

6. Debt The following table summarizes the long-term debt of the Company at December 31, 2008 and 2007:

	2008	2007
Secured Credit Agreement:		
Revolving Credit Facility:		
Revolving Loans	\$ 18.7	\$ -
Term Loans:		
Term Loan A (225.0 million AUD at Dec. 31, 2008)	155.7	198.1
Term Loan B	191.5	191.5
Term Loan C (110.8 million CAD at Dec. 31, 2008)	90.9	113.2
Term Loan D (€191.5 million at Dec. 31, 2008)	269.6	281.8
Senior Notes:		
7.35%, due 2008		249.8
8.25%, due 2013	470.0	450.6
6.75%, due 2014	400.0	400.0
6.75%, due 2014 (€225 million)	316.8	331.1
6.875%, due 2017 (€300 million)	422.4	441.5
Senior Debentures:		
7.50%, due 2010	259.5	253.0
7.80%, due 2018	250.0	250.0
Other	113.4	118.2
Total long-term debt	2,958.5	3,278.8
Less amounts due within one year	18.2	265.3
Long-term debt	\$ 2,940.3	\$ 3,013.5

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At December 31, 2008, the Agreement included a \$900.0 million revolving credit facility, a 225.0 million Australian dollar term loan, and a 110.8 million Canadian dollar term loan, each of which has a final maturity date of June 15, 2012. It also included a \$191.5 million term loan and a €191.5 million term loan, each of which has a final maturity date of June 14, 2013.

As a result of the bankruptcy of Lehman Brothers Holdings Inc. and several of its subsidiaries, the Company believes that the maximum amount available under the revolving credit facility was reduced by \$32.3 million. After further deducting amounts attributable to letters of credit and overdraft facilities that are supported by the revolving credit facility, at December 31, 2008 the Company's subsidiary borrowers had unused credit of \$768.4 million available under the Agreement.

The Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments and acquisitions, become liable under contingent obligations in certain defined instances only, make restricted junior payments, make certain asset sales within guidelines and limits, make capital expenditures beyond a certain threshold, engage in material transactions with shareholders and affiliates, participate in sale and leaseback financing arrangements, alter its fundamental business, amend certain outstanding debt obligations, and prepay certain outstanding debt obligations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Agreement also contains one financial maintenance covenant, a Leverage Ratio, that requires the Company not to exceed a ratio calculated by dividing consolidated total debt, less cash and cash equivalents, by Consolidated Adjusted EBITDA, as defined in the Agreement. The Leverage Ratio could restrict the ability of the Company to undertake additional financing to the extent that such financing would cause the Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Agreement and the lenders cause all of the outstanding debt obligations under the Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. A default or event of default under the Agreement, indentures or agreements governing other indebtedness could also lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross-default provisions.

The leverage ratio also determines pricing under the Agreement. The interest rate on borrowings under the Agreement is, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Agreement. These rates include a margin linked to the leverage ratio and the borrowers' senior secured debt rating. The margins range from 0.875% to 1.75% for Eurocurrency Rate loans and from -0.125% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.50% per annum linked to the leverage ratio. The weighted average interest rate on borrowings outstanding under the Agreement at December 31, 2008 was 4.07%. As of December 31, 2008, the Company was in compliance with all covenants and restrictions in the Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Agreement will not be adversely affected by the covenants and restrictions.

Borrowings under the Agreement are secured by substantially all of the assets of the Company's domestic subsidiaries and certain foreign subsidiaries, which have a book value of approximately \$2.1 billion. Borrowings are also secured by a pledge of intercompany debt and equity in most of the Company's domestic subsidiaries and stock of certain foreign subsidiaries. All borrowings under the agreement are guaranteed by substantially all domestic subsidiaries of the Company for the term of the Agreement.

During the second quarter of 2008, the Company used cash from operations and borrowings under the Agreement to retire \$250 million principal amount of 7.35% Senior Notes which matured in May 2008.

During March 2007, a subsidiary of the Company issued Senior Notes totaling €300.0 million. The notes bear interest at 6.875% and are due March 31, 2017. The notes are guaranteed by substantially all of the Company's domestic subsidiaries. The proceeds were used to retire the \$300 million principal amount of 8.10% Senior Notes which matured in May 2007, and to reduce borrowings under the revolving credit facility.

On July 31, 2007, the Company completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. In accordance with an amendment of the Agreement that became effective upon completion of the sale of the plastics business, the Company was required to use the net proceeds (as defined in the Agreement) to repay senior secured debt. In addition, the amendment provides for modification of certain covenants, including the elimination of the financial covenant requiring the Company to maintain a specified interest coverage ratio. The Company used a portion of the net proceeds in the third quarter of 2007 to redeem all \$450.0 million of the 7.75% Senior Secured Notes and repurchase \$283.1 million of the 8.875% Senior Secured Notes. The remaining \$566.9 million of the 8.875% Senior Secured Notes were repurchased or discharged in accordance with the indenture in

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

October 2007. The remaining net proceeds, along with funds from operations and/or additional borrowings under the revolving credit facility, were used to redeem all \$625.0 million of the 8.75% Senior Secured Notes on November 15, 2007. The Company recorded \$9.5 million of additional interest charges for note repurchase premiums and the related write-off of unamortized finance fees. See Note 22 for additional charges for note repurchase premiums and the related write-off of unamortized finance fees included in the gain on sale of the Company's plastics business.

During October 2006, the Company entered into a €300 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines. In addition, the Company participates in a receivables financing program in the Asia Pacific region with a revolving funding commitment of 100 million Australian dollars and 25 million New Zealand dollars that extends through July 2009 and October 2009, respectively. Information related to the Company's accounts receivable securitization program is as follows:

	Dec. 31, 2008	Dec. 31, 2007
Balance (included in short-term loans)	\$ 293.7	\$ 361.8
Weighted average interest rate	5.31%	5.48%

The Company capitalized \$25.6 million and \$27.0 million in 2008 and 2007, respectively, under capital lease obligations with the related financing recorded as long term debt. These amounts are included in other in the long-term debt table above.

Annual maturities for all of the Company's long-term debt through 2013 are as follows: 2009, \$18.2 million; 2010, \$279.5 million; 2011, \$160.1 million; 2012, \$153.6 million; and 2013, \$932.0 million.

Fair values at December 31, 2008, of the Company's significant fixed rate debt obligations were as follows:

	Principal Amount (millions of dollars)	Indicated Market Price	Fair Value (millions of dollars)	Hedge Value (millions of dollars)
Senior Notes:				
8.25%, due 2013	450.0	96.00	432.0	470.0
6.75%, due 2014	400.0	92.75	371.0	
6.75%, due 2014 (€225 million)	316.8	77.63	245.9	
6.875%, due 2017 (€300 million)	422.4	74.13	313.1	
Senior Debentures:				
7.50%, due 2010	250.0	97.50	243.8	259.5
7.80%, due 2018	250.0	87.50	218.8	

7. Operating Leases Rent expense attributable to all warehouse, office buildings and equipment operating leases was \$98.9 million in 2008, \$92.8 million in 2007, and \$82.1 million in 2006. Minimum

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

future rentals under operating leases are as follows: 2009, \$50.3 million; 2010, \$37.9 million; 2011, \$23.3 million; 2012, \$14.7 million; 2013, \$7.4 million; and 2014 and thereafter, \$7.4 million.

8. Foreign Currency Transactions Aggregate foreign currency exchange gains (losses) included in other costs and expenses were \$0.6 million in 2008, \$(8.1) million in 2007, and \$(1.7) million in 2006.

9. Derivative Instruments At December 31, 2008, the Company had the following derivative instruments related to its various hedging programs:

Interest Rate Swaps Designated as Fair Value Hedges

In the fourth quarter of 2003 and the first quarter of 2004, the Company entered into a series of interest rate swap agreements with a current total notional amount of \$700 million that mature in 2010 and 2013. The swaps were executed in order to: (i) convert a portion of the senior notes and senior debentures fixed-rate debt into floating-rate debt; (ii) maintain a capital structure containing appropriate amounts of fixed and floating-rate debt; and (iii) reduce net interest payments and expense in the near-term.

The Company's fixed-to-variable interest rate swaps are accounted for as fair value hedges. Because the relevant terms of the swap agreements match the corresponding terms of the notes, there is no hedge ineffectiveness. Accordingly, the Company recorded the net of the fair market values of the swaps as a long-term asset (liability) along with a corresponding net increase (decrease) in the carrying value of the hedged debt.

Under the swaps, the Company receives fixed rate interest amounts (equal to interest on the corresponding hedged note) and pays interest at a six-month U.S. LIBOR rate (set in arrears) plus a margin spread (see table below). The interest rate differential on each swap is recognized as an adjustment of interest expense during each six-month period over the term of the agreement.

The following selected information relates to fair value swaps at December 31, 2008:

	Amount Hedged	Receive Rate	Average Spread	Asset Recorded
Senior Debentures due 2010	250.0	7.50%	3.2%	9.4
Senior Notes due 2013	450.0	8.25%	3.7%	20.0
Total	\$ 700.0			\$ 29.4

Commodity Hedges

The Company enters into commodity futures contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. The Company continually evaluates the natural gas market with respect to its forecasted usage requirements over the next twelve to twenty-four months and periodically enters into commodity futures contracts in order to hedge a portion of its usage requirements over that period. At December 31, 2008, the Company had entered into commodity futures contracts for approximately 50% (approximately 10,200,000 MM BTUs) of its estimated North American usage requirements for the full year of 2009 and approximately 1% (approximately 240,000 MM BTUs) for the full year of 2010.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company accounts for the above futures contracts on the balance sheet at fair value. The effective portion of changes in the fair value of a derivative that is designated as, and meets the required criteria for, a cash flow hedge is recorded in the Accumulated Other Comprehensive Income component of share owners' equity ("OCI") and reclassified into earnings in the same period or periods during which the underlying hedged item affects earnings. Any material portion of the change in the fair value of a derivative designated as a cash flow hedge that is deemed to be ineffective is recognized in current earnings.

The above futures contracts are accounted for as cash flow hedges at December 31, 2008.

At December 31, 2008, an unrecognized loss of \$31.8 million (pretax and after tax), related to the domestic commodity futures contracts, was included in OCI, which will be reclassified into earnings over the next twelve months. The ineffectiveness related to these natural gas hedges for the year ended December 31, 2008 was not material.

Other Hedges

The Company's subsidiaries may enter into short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements are used to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. Subsidiaries may also use forward exchange agreements to offset the foreign currency risk for receivables and payables not denominated in, or indexed to, their functional currencies. The Company records these short-term forward exchange agreements on the balance sheet at fair value and changes in the fair value are recognized in current earnings.

Balance Sheet Classification

The Company records the fair values of derivative financial instruments on the balance sheet as follows: (1) receivables if the instrument has a positive fair value and maturity within one year, (2) deposits, receivables, and other assets if the instrument has a positive fair value and maturity after one year, (3) accounts payable and other current liabilities if the instrument has a negative fair value and maturity within one year, and (4) other liabilities if the instrument has a negative fair value and maturity after one year.

10. Accumulated Other Comprehensive Income (Loss) The components of comprehensive income are: (a) net earnings; (b) change in fair value of certain derivative instruments; (c) pension and other postretirement benefit adjustments; and (d) foreign currency translation adjustments. The net effect of exchange rate fluctuations generally reflects changes in the relative strength of the U.S. dollar against major foreign currencies between the beginning and end of the year.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following table lists the beginning balance, yearly activity and ending balance of each component of accumulated other comprehensive income (loss):

	Net Effect of Exchange Rate Fluctuations	Deferred Tax Effect for Translation	Change in Minimum Pension Liability	Change in Certain Derivative Instruments	Employee Benefit Plans	Total Accumulated Comprehensive Income (Loss)
Balance on January 1, 2006	\$ (117.5)	\$ 12.7	\$ (145.5)	\$ 14.4	\$ -	\$ (235.9)
2006 Change	285.5		55.0	(49.3)	(639.9)	(348.7)
Translation effect			(17.6)			(17.6)
Tax effect			(14.8)		22.8	8.0
Balance on Dec. 31, 2006	168.0	12.7	(122.9)	(34.9)	(617.1)	(594.2)
2007 Change	325.3			28.2	79.1	432.6
Translation effect					(6.7)	(6.7)
Reclass			122.9	2.2	(125.1)	-
Tax effect					(8.6)	(8.6)
Balance on Dec. 31, 2007	493.3	12.7	-	(4.5)	(678.4)	(176.9)
2008 Change	(431.9)			(32.9)	(1,080.1)	(1,544.9)
Translation effect					46.1	46.1
Tax effect					55.1	55.1
Balance on Dec. 31, 2008	\$ 61.4	\$ 12.7	\$ -	\$ (37.4)	\$ (1,657.3)	\$ (1,620.6)

For 2008 and 2007, respectively, foreign currency translation adjustments include a loss of approximately \$19.9 million and \$35.1 million related to a hedge of the Company's net investment in a non-U.S. subsidiary.

11. Income Taxes Deferred income taxes reflect: (1) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes; and (2) carryovers and credits for income tax purposes.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Significant components of the Company's deferred tax assets and liabilities at December 31, 2008 and 2007 are as follows:

	2008	2007
Deferred tax assets:		
Accrued postretirement benefits	\$ 84.0	\$ 95.8
Asbestos-related liabilities	173.4	159.5
Foreign tax credit	295.5	417.0
Tax loss and credit carryovers	342.9	264.8
Capital loss carryovers	23.7	32.7
Alternative minimum tax credits	20.5	21.4
Accrued liabilities	159.3	178.5
Pension liability	181.0	
Other	26.5	38.2
Total deferred tax assets	1,306.8	1,207.9
Deferred tax liabilities:		
Property, plant, and equipment	151.1	229.3
Prepaid pension costs		147.0
Inventory	13.4	20.0
Other	49.3	59.1
Total deferred tax liabilities	213.8	455.4
Valuation allowance	(1,047.5)	(728.0)
Net deferred taxes	\$ 45.5	\$ 24.5

Deferred taxes are included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid expenses	\$ 24.1	\$ 9.2
Deposits, receivables, and other assets	99.0	124.7
Deferred taxes	(77.6)	(109.4)
Net deferred taxes	\$ 45.5	\$ 24.5

The Company reviews the likelihood that it will realize the benefit of its deferred tax assets and therefore the need for valuation allowances on a quarterly basis, or whenever events indicate that a review is required. In determining the requirement for a valuation allowance, the historical and projected financial results of the legal entity or consolidated group recording the net deferred tax asset is considered, along with other positive and negative evidence.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following details the Valuation Allowance activity:

Year	Beginning Year Balance	Foreign Currency Translation	Other Changes	Goodwill	Other Comprehensive Income	Ending Year Balance
2006	\$ (1,024.7)	\$ (16.4)	\$ (44.2)	\$ 44.2	\$ (221.2)	\$ (1,262.3)
2007	(1,262.3)	(17.4)	514.1	24.9	12.7	(728.0)
2008	(728.0)	21.6	(12.9)	0.6	(328.8)	(1,047.5)

In 2007, the Company reduced the valuation allowance recorded against its deferred tax assets in the United States by \$466.0 million through the utilization of net operating and capital loss carryforwards.

Other international valuation allowances approximating \$66 million were established principally in prior years in allocation of the costs of acquisitions. Beginning January 1, 2009, under FAS No.141R, “Business Combinations,” any future reductions of these components will result in an increase to income versus the reduction to goodwill required in previous years.

The provision (benefit) for income taxes consists of the following:

	2008	2007	2006
Current:			
U.S. Federal	\$ (2.7)	\$ -	\$ -
State	0.6	31.1	2.0
Foreign	213.0	145.2	113.7
	210.9	176.3	115.7
Deferred:			
U.S. Federal	14.6	8.0	9.2
State	(2.0)	1.0	(14.6)
Foreign	8.4	(1.7)	16.2
	21.0	7.3	10.8
Total:			
U.S. Federal	11.9	8.0	9.2
State	(1.4)	32.1	(12.6)
Foreign	221.4	143.5	129.9
	\$ 231.9	\$ 183.6	\$ 126.5
Total for continuing operations	\$ 236.7	\$ 147.8	\$ 125.3
Total for discontinued operations	(4.8)	35.8	1.2
	\$ 231.9	\$ 183.6	\$ 126.5

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The provision (benefit) for income taxes was calculated based on the following components of earnings (loss) before income taxes:

Continuing operations	2008	2007	2006
Domestic	\$ (140.6)	\$ (180.7)	\$ (294.1)
Foreign	699.0	687.3	459.2
	\$ 558.4	\$ 506.6	\$ 165.1
Discontinued operations	2008	2007	2006
Domestic	\$ 2.0	\$ (1.1)	\$ (19.7)
Foreign	-	1.7	(2.8)
	\$ 2.0	\$ 0.6	\$ (22.5)

A reconciliation of the provision (benefit) for income taxes based on the statutory U.S. Federal tax rate of 35% to the provision for income taxes is as follows:

	2008	2007	2006
Tax provision (benefit) on pretax earnings (loss) from continuing operations at statutory U.S. Federal tax rate	\$ 195.4	\$ 177.3	\$ 57.8
Increase (decrease) in provision for income taxes due to:			
Valuation allowance - U.S.	70.6	(466.0)	104.6
Foreign subsidiary ownership restructuring and incentives	35.1	535.9	30.8
Foreign source income taxable in the U.S.	11.3	29.3	1.8
Reversal of non-U.S. tax valuation allowance	-	(13.4)	(34.7)
Foreign tax credit utilization	-	(40.4)	
State taxes, net of federal benefit	3.8	(2.9)	(13.5)
Rate differences on non-U.S. earnings	(55.3)	(65.7)	(23.8)
Adjustment for non-U.S. tax law changes	(20.1)	(9.9)	(1.6)
Other items	(4.1)	3.6	3.9
Provision for income taxes	\$ 236.7	\$ 147.8	\$ 125.3

In 2007 the Company implemented a plan to restructure the ownership and intercompany obligations of certain foreign subsidiaries. These actions resulted in the taxation of a significant portion of previously unremitted foreign earnings. The Company also realigned its debt service obligations to operations outside the U.S. in order to better balance its future operating cash flows with its global financing costs. The foreign earnings reported as taxable in the U.S. were offset by net operating loss carryforwards and foreign tax credits. Foreign tax credit carryforwards arising from the restructuring were fully offset by an increase in the valuation allowance.

The Company has recognized tax benefits as a result of incentives in certain non-U.S. jurisdictions which expire between 2012 to 2015.

At December 31, 2008, before valuation allowance, the Company has unused research tax credits of \$8.4 million expiring from 2009 to 2029 and foreign tax credits of \$295.5 million expiring in 2017. The

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Company also has unused alternative minimum tax credits of \$20.5 million which do not expire and which will be available to offset future U.S. Federal income tax. Approximately \$72.3 million of the deferred tax assets relate to net operating and capital loss carryforwards that can be carried over indefinitely with the remaining \$286.0 million expiring between 2009 and 2028. As a result of U.S. tax legislation enacted in 2008, the Company realized \$2.3 million of benefits from its research and alternative minimum tax credit carryforwards. The related valuation on these credits was reduced accordingly.

At December 31, 2008, the Company's equity in the undistributed earnings of foreign subsidiaries for which income taxes had not been provided approximated \$1,583.2 million. The Company intends to reinvest these earnings indefinitely in the non-U.S. operations. It is not practicable to estimate the U.S. and foreign tax which would be payable should these earnings be distributed.

The Company adopted FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes," ("FIN 48") as of January 1, 2007. This interpretation was issued to clarify the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FAS No. 109, "Accounting for Income Taxes." FIN 48 defines criteria that a tax position must meet for any part of the benefit of that position to be recognized in an enterprise's financial statements and also includes requirements for measuring the amount of the benefit to be recognized in the financial statements.

As a result of the adoption of FIN 48, the Company recognized no adjustment to retained earnings for unrecognized income tax benefits. The Company reclassified \$28.5 million of deferred tax assets related to general business credits and net operating losses that were previously offset by a full valuation allowance to the liability for unrecognized income tax benefits. This balance sheet reclassification had no effect on share owners' equity. In connection with the adoption of FIN 48, the Company is maintaining its historical method of accruing interest and penalties associated with unrecognized income tax benefits as a component of its income tax expense.

The following is a reconciliation of the Company's total gross unrecognized tax benefits for the year ended December 31, 2008:

	2008	2007
Balance at January 1	\$ 53.0	\$ 45.8
Additions for tax positions of prior years	51.2	0.1
Reductions for tax positions of prior years	(2.1)	(2.5)
Additions based on tax positions related to the current year	6.1	11.0
Reductions due to the lapse of the applicable statute of limitations	(3.1)	(1.4)
Reductions due to settlements	(2.0)	-
Balance at December 31	\$ 103.1	\$ 53.0

At December 31, 2008 and December 31, 2007, accrued interest and penalties related to unrecognized tax benefits were \$14.5 million and \$3.9 million, respectively. Tax expense for the year ended December 31, 2008 includes interest and penalties of \$5.4 million on unrecognized tax benefits for prior years.

The unrecognized tax benefit liability, including interest and penalties, as of December 31, 2008 and December 31, 2007 was \$117.6 million and \$56.9 million respectively. Approximately \$72.7 million and \$41.1 million as of December 31, 2008 and December 31, 2007, respectively, relate to unrecognized tax benefits, which if recognized, would impact the Company's effective income tax rate. This amount differs from the gross unrecognized tax benefits presented in the table above because of the unrecognized tax benefits that would result in the utilization of certain tax attribute carryforwards that are currently subject to a full valuation allowance due to uncertainties about their future period utilization.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company and/or one of its subsidiaries files a U.S. federal income tax return as well as income tax returns in multiple state and foreign jurisdictions. Tax years through 1999 have been settled with the U.S. Internal Revenue Service and there is no current IRS examination in progress. Due to the existence of tax attribute carryforwards (which are currently offset by full valuation allowances) in the U.S., the Company treats certain post-1999 tax positions as unsettled because of the taxing authorities' ability to modify these attributes. The 2000 tax year is the earliest open year for the Company's other major tax jurisdictions.

The Company does not anticipate a significant change in the total amount of unrecognized income tax benefits within the next twelve months.

12. Convertible Preferred Stock On February 29, 2008, the Company announced that all outstanding shares of convertible preferred stock would be redeemed on March 31, 2008, if not converted by holders prior to that date. All conversions and redemptions were completed by March 31 through the issuance of 8,584,479 shares of common stock. The conversions and redemptions resulted in an increase in common stock and capital in excess of par value.

13. Stock Options and Other Stock Based Compensation The Company has five nonqualified plans under which it has granted stock options, restricted shares and performance vested restricted share units: (1) the Stock Option Plan for Key Employees of Owens-Illinois, Inc.; (2) the Stock Option Plan for Directors of Owens-Illinois, Inc.; (3) the 1997 Equity Participation Plan of Owens-Illinois, Inc.; (4) the 2004 Equity Incentive Plan for Directors of Owens-Illinois, Inc.; and (5) the 2005 Equity Incentive Plan of Owens-Illinois, Inc. At December 31, 2008, there were 2,174,949 shares authorized and available for grants under these plans. Total compensation cost for all grants of shares and units under all of these plans was \$21.4 million (\$19.1 million after tax) for the year ended December 31, 2008. Total compensation cost for grants of shares and units was \$23.6 million (\$21.9 million after tax) in 2007 and \$21.7 million (\$20.4 million after tax) in 2006. The cost in 2006 included \$3.1 million for accelerated vesting of options, shares and units held by the former CEO at the time of his separation in November 2006 and \$1.9 million for fully vested options granted to the new CEO in December 2006.

Stock Options

For options granted prior to March 22, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to accelerated exercisability provisions related to the performance of the Company's common stock or change of control, 50% of the options become exercisable on the fifth anniversary of the date of the option grant, with the remaining 50% becoming exercisable on the sixth anniversary date of the option grant. In general, options expire following termination of employment or the day after the tenth anniversary date of the option grant.

For options granted after March 21, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to change in control, these options become exercisable 25% per year beginning on the first anniversary. In general, options expire following termination of employment or the seventh anniversary of the option grant.

The fair value of options granted before March 22, 2005, is amortized ratably over five years or a shorter period if the grant becomes subject to accelerated exercisability provisions related to the performance of the Company's common stock. The fair value of options granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Stock option information at December 31, 2008 and for the year then ended is as follows:

	Number of Shares (thousands)	Weighted Average Exercise Price (per share)	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Options outstanding at Dec. 31, 2007	3,462	\$ 20.54		
Granted	428	52.33		
Exercised	(604)	23.98		
Forfeited or expired	(73)	46.00		
Options outstanding at Dec. 31, 2008	3,213	23.56	4.7	\$ 22.9
Options vested or expected to vest at Dec. 31, 2008	3,171	\$ 23.56	4.7	\$ 22.6
Options exercisable at Dec. 31, 2008	1,870	\$ 18.03	4.3	\$ 17.4

Certain additional information related to stock options is as follows for the periods indicated:

	2008	2007	2006
Weighted average grant-date fair value of options granted (per share)	\$ 16.21	\$ 9.87	\$ 7.91
Aggregate intrinsic value of options exercised	\$ 17.3	\$ 44.5	\$ 3.7
Aggregate cash received from options exercised	\$ 14.5	\$ 62.8	\$ 7.6

Restricted Shares

Shares granted to employees prior to March 22, 2005, generally vest after three years or upon retirement, whichever is later. Shares granted after March 21, 2005, vest 25% per year beginning on the first anniversary and unvested shares are forfeited upon termination of employment. Shares granted to directors prior to 2008 were immediately vested but may not be sold until the third anniversary of the share grant or the end of the director's then current term on the board, whichever is later. Shares granted to directors after 2007 vest after one year.

The fair value of the shares is equal to the market price of the shares on the date of the grant. The fair value of restricted shares granted before March 22, 2005, is amortized ratably over the vesting period. The fair value of restricted shares granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Restricted share activity is as follows:

	Number of Restricted Shares (thousands)	Weighted Average Grant-Date Fair Value (per share)
Nonvested at January 1, 2008	501	\$ 18.61
Granted	64	52.02
Vested	(72)	20.80
Forfeited	(1)	22.14
Nonvested at Dec. 31, 2008	492	22.63
Awards granted during 2007		\$ 26.07
Awards granted during 2006		\$ 18.74

	2008	2007	2006
Total fair value of shares vested	\$ 2.9	\$ 10.9	\$ 7.7

Performance Vested Restricted Share Units

Restricted share units vest on January 1 of the third year following the year in which they are granted. Holders of vested units receive 0.5 to 1.5 shares of the Company's common stock for each unit, depending upon the attainment of consolidated performance goals established by the Compensation Committee of the Company's Board of Directors. If minimum goals are not met, no shares will be issued. Granted but unvested restricted share units are forfeited upon termination of employment, unless certain retirement criteria are met.

The fair value of each restricted share unit is equal to the product of the fair value of the Company's common stock on the date of grant and the estimated number of shares into which the restricted share unit will be converted. The fair value of restricted share units is amortized ratably over the vesting period. Should the estimated number of shares into which the restricted share unit will be converted change, an adjustment will be recorded to recognize the accumulated difference in amortization between the revised and previous estimates.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Performance vested restricted share unit activity is as follows:

	Number of Restricted Shares Units (thousands)	Weighted Average Grant-Date Fair Value (per unit)
Nonvested at January 1, 2008	963	\$ 21.47
Granted	166	52.23
Vested	(222)	24.22
Forfeited	(21)	22.86
Nonvested at Dec. 31, 2008	886	26.51
Awards granted during 2007		\$ 24.18
Awards granted during 2006		\$ 18.24

	2008
Number of shares issued to holders of vested units (thousands)	316
Fair value of shares at issuance date	\$ 16.9

As of December 31, 2008, there was \$18.0 million of total unrecognized compensation cost related to all unvested stock options, restricted shares and performance vested restricted share units. That cost is expected to be recognized over a weighted average period of approximately four years.

14. Pension Benefit Plans and Other Postretirement Benefits

Pension Benefit Plans

Net expense (income) to results of operations for all of the Company's pension plans and certain deferred compensation arrangements amounted to \$(3.5) million in 2008, \$24.9 million in 2007, and \$41.9 million in 2006.

The Company has defined benefit pension plans covering substantially all employees located in the United States, the United Kingdom, The Netherlands, Canada and Australia, as well as many employees in Germany and France. Benefits generally are based on compensation for salaried employees and on length of service for hourly employees. The Company's policy is to fund pension plans such that sufficient assets will be available to meet future benefit requirements. The Company's defined benefit pension plans use a December 31 measurement date. The following tables relate to the Company's principal defined benefit pension plans.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The changes in the pension benefit obligations for the year were as follows:

	2008	2007
Obligations at beginning of year	\$ 3,817.7	\$ 3,879.2
Change in benefit obligations:		
Service cost	46.3	54.0
Interest cost	215.2	212.0
Actuarial gain, including effect of changing discount rates	(108.5)	(73.6)
Curtailments	(9.5)	(21.9)
Special termination benefits	4.4	
Settlements		(55.8)
Participant contributions	8.8	10.0
Benefit payments	(257.8)	(325.1)
Plan amendments	3.0	(3.5)
Foreign currency translation	(284.2)	136.4
Other		6.0
Net change in benefit obligations	(382.3)	(61.5)
Obligations at end of year	\$ 3,435.4	\$ 3,817.7

The changes in the fair value of the pension plans' assets for the year were as follows:

	2008	2007
Fair value at beginning of year	\$ 4,084.9	\$ 4,043.5
Change in fair value:		
Actual gain (loss) on plan assets	(973.2)	177.6
Benefit payments	(257.8)	(325.1)
Employer contributions	61.2	63.9
Participant contributions	8.8	10.0
Foreign currency translation	(213.7)	115.0
Other	(3.3)	
Net change in fair value of assets	(1,378.0)	41.4
Fair value at end of year	\$ 2,706.9	\$ 4,084.9

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The funded status of the pension plans at year end was as follows:

	2008	2007
Plan assets at fair value	\$ 2,706.9	\$ 4,084.9
Projected benefit obligations	3,435.4	3,817.7
Plan assets greater (less) than projected benefit obligations	(728.5)	267.2
Items not yet recognized in pension expense:		
Actuarial loss	1,748.1	700.4
Prior service credit	(15.6)	(18.7)
	1,732.5	681.7
Net amount recognized	\$ 1,004.0	\$ 948.9

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid pension	\$ -	\$ 566.4
Current pension liability, included with Other accrued liabilities	(8.0)	(9.2)
Noncurrent pension liability, included with Pension benefits	(720.5)	(290.0)
Accumulated other comprehensive income	1,732.5	681.7
Net amount recognized	\$ 1,004.0	\$ 948.9

The following changes in plan assets and benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial loss	\$ 1,148.8	\$ (62.2)	\$ 1,086.6
Amortization of actuarial loss	(30.3)	1.1	(29.2)
Current year prior service cost	3.0		3.0
Amortization of prior service credit	1.1	(0.1)	1.0
Curtailment	(8.5)	2.4	(6.1)
	1,114.1	(58.8)	1,055.3
Translation			(44.9)
	\$ 1,114.1	\$ (58.8)	\$ 1,010.4

The accumulated benefit obligation for all defined benefit pension plans was \$3,157.0 million and \$3,566.0 million at December 31, 2008 and 2007, respectively.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The components of the net pension expense (income) for the year were as follows:

	2008	2007	2006
Service cost	\$ 46.3	\$ 54.0	\$ 60.8
Interest cost	215.2	212.0	204.3
Expected asset return	(318.3)	(317.6)	(298.4)
Settlement cost		18.6	
Special termination benefits	4.4		
Curtailment (gain) loss	0.1	(1.5)	
Other	(1.2)	5.1	9.2
Amortization:			
Prior service credit	(1.1)	(0.8)	(0.6)
Loss	30.3	38.2	61.5
Net amortization	29.2	37.4	60.9
Net expense (income)	\$ (24.3)	\$ 8.0	\$ 36.8
Total for continuing operations	\$ (24.3)	\$ 3.4	\$ 36.2
Total for discontinued operations		4.6	0.6
	\$ (24.3)	\$ 8.0	\$ 36.8

Amounts that will be amortized from accumulated other comprehensive income into net pension expense during 2009:

Amortization:	
Loss	\$ 43.6
Prior service cost	(1.0)
Net amortization	\$ 42.6

The following information is for plans with projected and accumulated benefit obligations in excess of the fair value of plan assets at year end:

	2008	2007
Projected benefit obligations	\$ 3,435.4	\$ 1,125.1
Fair value of plan assets	2,706.9	816.1
Accumulated benefit obligations	3,157.0	1,015.4

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The weighted average assumptions used to determine benefit obligations were as follows:

	2008	2007
Discount rate	6.29%	5.87%
Rate of compensation increase	4.34%	4.32%

The weighted average assumptions used to determine net periodic pension costs were as follows:

	2008	2007	2006
Discount rate	5.87%	5.49%	5.30%
Rate of compensation increase	4.32%	4.34%	4.54%
Expected long-term rate of return on assets	8.09%	8.08%	8.08%

Future benefits are assumed to increase in a manner consistent with past experience of the plans, which, to the extent benefits are based on compensation, includes assumed salary increases as presented above. Amortization included in net pension expense (credits) is based on the average remaining service of employees.

For 2008, the Company's weighted average expected long-term rate of return on assets was 8.09%. In developing this assumption, the Company evaluated input from its third party pension plan asset managers, including their review of asset class return expectations and long-term inflation assumptions. The Company also considered its historical 10-year average return (through December 31, 2007), which was in line with the expected long-term rate of return assumption for 2008.

The weighted average actual asset allocations and weighted average target allocation ranges by asset category for the Company's pension plan assets were as follows:

Asset Category	Actual Allocation		Target Allocation Ranges
	2008	2007	
Equity securities	48%	63%	48-58%
Debt securities	43%	28%	30-40%
Real estate	6%	5%	3-13%
Other	3%	4%	0-9%
Total	100%	100%	

It is the Company's policy to invest pension plan assets in a diversified portfolio consisting of an array of asset classes within the above target asset allocation ranges. The investment risk of the assets is limited by appropriate diversification both within and between asset classes. The assets for both the U.S. and non-U.S. plans are primarily invested in a broad mix of domestic and international equities, domestic and international bonds, and real estate, subject to the target asset allocation ranges. The assets are managed with a view to ensuring that sufficient liquidity will be available to meet expected cash flow requirements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Based on exchange rates at the end of 2008, the Company expects to contribute approximately \$70 million to \$75 million to its non-U.S. defined benefit pension plans in 2009.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	262.4
2010	234.1
2011	234.7
2012	238.7
2013	241.8
2014 - 2018	1,241.1

The Company also sponsors several defined contribution plans for all salaried and hourly U.S. employees. Participation is voluntary and participants' contributions are based on their compensation. The Company matches contributions of participants, up to various limits, in substantially all plans. Company contributions to these plans amounted to \$7.1 million in 2008, \$6.7 million in 2007, and \$6.4 million in 2006.

Postretirement Benefits Other Than Pensions

The Company provides certain retiree health care and life insurance benefits covering substantially all U.S. salaried and certain hourly employees, substantially all employees in Canada and in The Netherlands. Employees are generally eligible for benefits upon retirement and completion of a specified number of years of creditable service. The Company uses a December 31 measurement date to measure its Postretirement Benefit Obligations.

The changes in the postretirement benefit obligations for the year were as follows:

	2008	2007
Obligations at beginning of year	\$ 309.5	\$ 317.6
Change in benefit obligations:		
Service cost	2.2	3.0
Interest cost	17.2	17.5
Actuarial gain, including the effect of changing discount rates	(30.0)	(9.5)
Curtailments	(2.9)	(9.1)
Special termination benefits	0.9	
Benefit payments	(19.9)	(24.4)
Foreign currency translation	(16.7)	14.4
Other		
Net change in benefit obligations	(49.2)	(8.1)
Obligations at end of year	\$ 260.3	\$ 309.5

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The funded status of the postretirement benefit plans at year end was as follows:

	2008	2007
Postretirement benefit obligations	\$ 260.3	\$ 309.5
Items not yet recognized in net postretirement benefit cost:		
Prior service credit	20.7	23.8
Actuarial loss	(39.7)	(78.2)
	(19.0)	(54.4)
Net amount recognized	\$ 241.3	\$ 255.1

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Current nonpension postretirement benefit, included with		
Other accrued liabilities	\$ (22.3)	\$ (24.3)
Nonpension postretirement benefits	(238.0)	(285.2)
Accumulated other comprehensive income	19.0	54.4
Net amount recognized	\$ (241.3)	\$ (255.1)

The following changes in benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial gain	\$ (28.4)	\$ 3.0	\$ (25.4)
Amortization of actuarial loss	(6.2)		(6.2)
Amortization of prior service credit	3.1		3.1
Curtailment	(2.5)	0.7	(1.8)
	(34.0)	3.7	(30.3)
Translation			(1.2)
	\$ (34.0)	\$ 3.7	\$ (31.5)

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The components of the net postretirement benefit cost for the year were as follows:

	2008	2007	2006
Service cost	\$ 2.2	\$ 3.0	\$ 4.3
Interest cost	17.2	17.4	16.8
Curtailment gain		(14.9)	(15.9)
Special termination benefit	0.9		
Other			0.9
Amortization:			
Prior service credit	(3.1)	(3.8)	(4.3)
Loss	6.2	5.8	3.9
Net amortization	3.1	2.0	(0.4)
Net postretirement benefit cost	\$ 23.4	\$ 7.5	\$ 5.7
Total for continuing operations	23.4	20.7	3.2
Total for discontinued operations		(13.2)	2.5
	\$ 23.4	\$ 7.5	\$ 5.7

Amounts that will be amortized from accumulated other comprehensive income into net postretirement benefit cost during 2009:

Amortization:	
Loss	\$ 3.9
Prior service credit	(3.1)
Net amortization	\$ 0.8

The weighted average discount rate used to determine the accumulated postretirement benefit obligation was 6.40% and 5.86% at December 31, 2008 and 2007, respectively.

The weighted average discount rate used to determine net postretirement benefit cost was 5.86%, 5.56%, and 5.45% at December 31, 2008, 2007, and 2006, respectively.

The weighted average assumed health care cost trend rates at December 31 were as follows:

	2008	2007
Health care cost trend rate assumed for next year	7.38%	8.51%
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	5.67%	5.64%
Year that the rate reaches the ultimate trend rate	2010	2010

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Assumed health care cost trend rates affect the amounts reported for the postretirement benefit plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	1-Percentage- Point Increase	1-Percentage- Point Decrease
Effect on total of service and interest cost	\$ 8.9	\$ (7.6)
Effect on accumulated postretirement benefit obligations	15.9	(13.4)

Amortization included in net postretirement benefit cost is based on the average remaining service of employees.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	22.3
2010	22.0
2011	21.8
2012	21.5
2013	21.2
2014 - 2018	102.6

Benefits provided by the Company for certain hourly retirees are determined by collective bargaining. Most other domestic hourly retirees receive health and life insurance benefits from a multi-employer trust established by collective bargaining. Payments to the trust as required by the bargaining agreements are based upon specified amounts per hour worked and were \$8.9 million in 2008, \$7.4 million in 2007, and \$7.4 million in 2006. Postretirement health and life benefits for retirees of foreign subsidiaries are generally provided through the national health care programs of the countries in which the subsidiaries are located.

15. Other Income Other income in 2006 includes a gain of \$15.9 million (\$11.2 million after tax) related to curtailment of certain postretirement benefits in The Netherlands.

16. Other Expense Other expense for the year ended December 31, 2008 included the following:

- The Company recorded charges totaling \$132.4 million (\$110.1 million after tax and minority shareowners' interests), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 17 for additional information.
- During the fourth quarter of 2008, the Company recorded a charge of \$250.0 million (\$248.8 million after tax) to increase the reserve for estimated future asbestos-related costs as a result of the findings from the annual review of asbestos-related liabilities. See Note 19 for additional information.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Other costs and expenses for the year ended December 31, 2007 included the following:

- In the South American Segment's 50%-owned Caribbean affiliate, declining productivity and cash flows resulted in impairment of the Company's equity investment, establishment of valuation allowances against advances to the affiliate, and accrual of certain contingent obligations for total charges of \$45.0 million (\$43.9 million after tax) recorded in 2007 with an additional \$0.9 million (before and after tax) recorded in the first quarter of 2008.
- The Company recorded charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 17 for additional information.
- During the fourth quarter of 2007, the Company recorded a charge of \$115.0 million (pretax and after tax) to increase the reserve for estimated future asbestos-related costs as a result of the findings from the annual review of asbestos-related liabilities. See Note 19 for additional information.

Other costs and expenses for the year ended December 31, 2006 included the following:

- During the third quarter of 2006, the Company recorded a charge of \$29.7 million (\$27.7 million after tax), principally related to the closing of its Godfrey, Illinois machine parts manufacturing operation.
- During the fourth quarter of 2006, the Company recorded a charge of \$120.0 million (pretax and after tax) to increase the reserve for estimated future asbestos-related costs as a result of the findings from the annual review of asbestos-related liabilities. See Note 19 for additional information.

17. Restructuring Accruals Beginning in 2007, the Company commenced a strategic review of its global profitability and manufacturing footprint. The combined 2007 and 2008 charges, amounting to \$187.7 million (\$150.3 million after tax and minority shareowners' interests) and approximately 1,800 jobs and corresponding reduction in the Company's workforce, reflect the decisions reached through December 31, 2008 in the Company's ongoing strategic review of its global manufacturing footprint commenced in mid-2007. Amounts recorded by the Company do not include any gains that may be realized upon the ultimate sale or disposition of closed facilities.

2007

During the third and fourth quarters of 2007, the Company recorded restructuring charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment in Europe and North America.

As a result of its strategic review, the Company decided to curtail selected production capacity. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity resulted in elimination of approximately 560 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

2008

During 2008, the Company recorded restructuring charges totaling \$132.4 million (\$110.1 million after tax and minority share owners' interests). The 2008 charges consisted primarily of \$85.5 million for the closure of two Canadian plants with additional charges across all segments as well as in Retained Corporate Costs and Other.

As a continuation of the Company's strategic review in 2008, the Company decided to curtail and realign selected production capacity and other activities across all segments as well as in Retained Corporate Costs and Other. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity and realignment of selected operations will result in elimination of approximately 1,240 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

Probable cash expenditures for the 2007 and 2008 charges are expected to total approximately \$110 million. The Company expects that the majority of these costs will be paid out by the end of 2009.

Selected information related to the restructuring accrual is as follows:

	Employee Costs	Asset Impairment	Other	Total
2007 Charges	\$ 26.1	\$ 22.3	\$ 6.9	\$ 55.3
Write-down of assets to net realizable value	-	(22.3)	(2.4)	(24.7)
Total restructuring accrual at December 31, 2007	26.1	-	4.5	30.6
2008 charges	70.1	32.5	29.8	132.4
Write-down of assets to net realizable value		(32.5)	(4.7)	(37.2)
Net cash paid, principally severance and related benefits	(35.6)		(7.2)	(42.8)
Other, principally foreign exchange translation	(13.0)		(6.1)	(19.1)
Remaining restructuring accrual as of December 31, 2008	\$ 47.6	\$ -	\$ 16.3	\$ 63.9

BSN Acquisition

During the second quarter of 2005, the Company concluded its evaluation of acquired capacity in connection with the acquisition of BSN Glasspack S.A. and announced the permanent closing of its Düsseldorf, Germany glass container factory, and the shutdown of a furnace at its Reims, France glass container facility, both in 2005. These actions were part of the European integration strategy to optimally align the manufacturing capacities with the market and improve operational efficiencies. As a result, the Company recorded an accrual of €47.1 million through an adjustment to goodwill.

These actions resulted in the elimination of approximately 400 jobs and a corresponding reduction in the Company's workforce. The Company anticipates that it will pay a total of approximately €110.9 million in cash related to severance, benefits, plant clean-up, and other plant closing costs related to restructuring accruals.

The European restructuring accrual recorded in the second quarter of 2005 was in addition to the initial estimated accrual of €63.8 million recorded in 2004.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Selected information related to the restructuring accrual is as follows, with 2008 activity translated from Euros into dollars at the December 31, 2008 exchange rate:

Remaining European restructuring accrual	
as of January 1, 2006	80.9
Net cash paid, principally severance and related benefits	(33.7)
Partial reversal of accrual (goodwill adjustment)	(7.6)
Other, principally foreign exchange translation	(1.5)
Remaining European restructuring accrual	
as of December 31, 2006	38.1
Net cash paid, principally severance and related benefits	(17.8)
Other, principally foreign exchange translation	7.4
Remaining European restructuring accrual	
as of December 31, 2007	27.7
Net cash paid, principally severance and related benefits	\$ (6.1)
Other, principally foreign exchange translation	(4.8)
Remaining European restructuring accrual	
as of December 31, 2008	\$ 16.8

18. Additional Interest Charges from Early Extinguishment of Debt During 2007, the Company recorded additional interest charges of \$9.5 million (\$8.8 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity. During 2006, the Company recorded additional interest charges of \$17.5 million (\$17.1 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity.

19. Contingencies The Company is one of a number of defendants in a substantial number of lawsuits filed in numerous state and federal courts by persons alleging bodily injury (including death) as a result of exposure to dust from asbestos fibers. From 1948 to 1958, one of the Company's former business units commercially produced and sold approximately \$40 million of a high-temperature, calcium-silicate based pipe and block insulation material containing asbestos. The Company exited the pipe and block insulation business in April 1958. The traditional asbestos personal injury lawsuits and claims relating to such production and sale of asbestos material typically allege various theories of liability, including negligence, gross negligence and strict liability and seek compensatory and in some cases, punitive damages in various amounts (herein referred to as "asbestos claims").

The following table shows the approximate number of plaintiffs and claimants who had asbestos claims pending against the Company at the beginning of each listed year, the number of claims disposed of during that year, the year's filings and the claims pending at the end of each listed year (eliminating duplicate filings):

	2008	2007	2006
Pending at beginning of year	14,000	18,000	32,000
Disposed	8,000	13,000	21,000
Filed	5,000	9,000	7,000
Pending at end of year	11,000	14,000	18,000

Based on an analysis of the lawsuits pending as of December 31, 2008, approximately 84% of plaintiffs either do not specify the monetary damages sought, or in the case of court filings, claim an amount

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

sufficient to invoke the jurisdictional minimum of the trial court. Approximately 15% of plaintiffs specifically plead damages of \$15 million or less, and 0.4% of plaintiffs specifically plead damages greater than \$15 million but less than \$100 million. Fewer than 1% of plaintiffs specifically plead damages \$100 million or greater but less than \$122 million.

As indicated by the foregoing summary, current pleading practice permits considerable variation in the assertion of monetary damages. The Company's experience resolving hundreds of thousands of asbestos claims and lawsuits over an extended period, demonstrates that the monetary relief which may be alleged in a complaint bears little relevance to a claim's merits or disposition value. Rather, the amount potentially recoverable is determined by such factors as the plaintiff's severity of disease, the product identification evidence against specific defendants, the defenses available to those defendants, the specific jurisdiction in which the claim is made, and the plaintiff's history of smoking or exposure to other possible disease-causative factors.

In addition to the pending claims set forth above, the Company has claims-handling agreements in place with many plaintiffs' counsel throughout the country. These agreements require evaluation and negotiation regarding whether particular claimants qualify under the criteria established by such agreements. The criteria for such claims include verification of a compensable illness and a reasonable probability of exposure to a product manufactured by the Company's former business unit during its manufacturing period ending in 1958. Some plaintiffs' counsel have historically withheld claims under these agreements for later presentation while focusing their attention on active litigation in the tort system. The Company believes that as of December 31, 2008 there are approximately 1,000 claims against other defendants which are likely to be asserted some time in the future against the Company. These claims are not included in the pending "lawsuits and claims" totals set forth above.

The Company is also a defendant in other asbestos-related lawsuits or claims involving maritime workers, medical monitoring claimants, co-defendants and property damage claimants. Based upon its past experience, the Company believes that these categories of lawsuits and claims will not involve any material liability and they are not included in the above description of pending matters or in the following description of disposed matters.

Since receiving its first asbestos claim, the Company as of December 31, 2008, has disposed of the asbestos claims of approximately 367,000 plaintiffs and claimants at an average indemnity payment per claim of approximately \$7,300. Certain of these dispositions have included deferred amounts payable over a number of years. Deferred amounts payable totaled approximately \$34.0 million at December 31, 2008 (\$34.0 million at December 31, 2007) and are included in the foregoing average indemnity payment per claim. The Company's indemnity payments for these claims have varied on a per claim basis, and are expected to continue to vary considerably over time. As discussed above, a part of the Company's objective is to achieve, where possible, resolution of asbestos claims pursuant to claims-handling agreements. Failure of claimants to meet certain medical and product exposure criteria in the Company's administrative claims handling agreements has generally reduced the number of marginal or suspect claims that would otherwise have been received. This may have the effect of increasing the Company's per-claim average indemnity payment over time.

The Company believes that its ultimate asbestos-related liability (i.e., its indemnity payments or other claim disposition costs plus related legal fees) cannot be estimated with certainty. Beginning with the initial liability of \$975 million established in 1993, the Company has accrued a total of approximately \$3.47 billion through 2008, before insurance recoveries, for its asbestos-related liability. The Company's ability reasonably to estimate its liability has been significantly affected by the volatility of asbestos-related litigation in the United States, the inherent uncertainty of future disease incidence and claiming patterns, the expanding list of non-traditional defendants that have been sued in this litigation and found

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

liable for substantial damage awards, the use of mass litigation screenings to generate new lawsuits, the large number of claims asserted or filed by parties who claim prior exposure to asbestos materials but have no present physical impairment as a result of such exposure, and the significant number of co-defendants that have filed for bankruptcy.

The Company has continued to monitor trends which may affect its ultimate liability and has continued to analyze the developments and variables affecting or likely to affect the resolution of pending and future asbestos claims against the Company. The material components of the Company's accrued liability are based on amounts estimated by the Company in connection with its annual comprehensive review and consist of the following: (i) the reasonably probable contingent liability for asbestos claims already asserted against the Company; (ii) the contingent liability for preexisting but unasserted asbestos claims for prior periods arising under its administrative claims-handling agreements with various plaintiffs' counsel; (iii) the contingent liability for asbestos claims not yet asserted against the Company, but which the Company believes it is reasonably probable will be asserted in the next several years, to the degree that an estimation as to future claims is possible, and (iv) the legal defense costs likely to be incurred in connection with the foregoing types of claims.

The significant assumptions underlying the material components of the Company's accrual are:

- a) the extent to which settlements are limited to claimants who were exposed to the Company's asbestos-containing insulation prior to its exit from that business in 1958;
- b) the extent to which claims are resolved under the Company's administrative claims agreements or on terms comparable to those set forth in those agreements;
- c) the extent to which the Company's accelerated settlements in 2007 and 2008 impact the number and type of future claims and lawsuits;
- d) the extent of decrease or increase in the incidence of serious disease cases and claiming patterns for such cases;
- e) the extent to which the Company is able to defend itself successfully at trial;
- f) the extent to which courts and legislatures eliminate, reduce or permit the diversion of financial resources for unimpaired claimants and so-called forum shopping;
- g) the extent to which additional defendants with substantial resources and assets are required to participate significantly in the resolution of future asbestos lawsuits and claims;
- h) the number and timing of additional co-defendant bankruptcies; and
- i) the extent to which co-defendant bankruptcy trusts direct resources to resolve claims that are also presented to the Company and the timing of the payments made by the bankruptcy trusts.

As noted above, the Company conducts a comprehensive review of its asbestos-related liabilities and costs annually in connection with finalizing and reporting its annual results of operations, unless significant changes in trends or new developments warrant an earlier review. If the results of an annual comprehensive review indicate that the existing amount of the accrued liability is insufficient to cover its estimated future asbestos-related costs, then the Company will record an appropriate charge to increase the accrued liability. The Company believes that an estimation of the reasonably probable amount of the contingent liability for claims not yet asserted against the Company is not possible beyond a period of

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

several years. Therefore, while the results of future annual comprehensive reviews cannot be determined, the Company expects the addition of one year to the estimation period will result in an annual charge.

Other litigation is pending against the Company, in many cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are non-routine and involve compensatory, punitive or treble damage claims as well as other types of relief. In accordance with FAS No. 5, the Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based including additional information, negotiations, settlements, and other events.

The ultimate legal and financial liability of the Company with respect to the lawsuits and proceedings referred to above, in addition to other pending litigation, cannot be estimated with certainty. The Company's reported results of operations for 2008 were materially affected by the \$250.0 million (\$248.8 million after tax) fourth quarter charge for asbestos-related costs and asbestos-related payments continue to be substantial. Any future additional charge would likewise materially affect the Company's results of operations for the period in which it is recorded. Also, the continued use of significant amounts of cash for asbestos-related costs has affected and will continue to affect the Company's cost of borrowing and its ability to pursue global or domestic acquisitions. However, the Company believes that its operating cash flows and other sources of liquidity will be sufficient to pay its obligations for asbestos-related costs and to fund its working capital and capital expenditure requirements on a short-term and long-term basis.

20. Segment Information The Company's former Plastics Packaging segment has been reclassified to discontinued operations as a result of the July 31, 2007 sale of that business. Following the sale, the Company redefined its reportable segments and divided the former Glass Containers segment into four geographic segments: (1) North America; (2) Europe; (3) Asia Pacific; (4) South America. These four segments are aligned with the Company's internal approach to managing, reporting, and evaluating performance of its global glass operations. In connection with this change, certain assets and activities not directly related to one of the regions or to glass manufacturing are reported with Retained Corporate Costs and Other. These include licensing, equipment manufacturing, global engineering, and non-glass equity investments. Retained Corporate Costs and Other also includes certain headquarters administrative and facilities costs and certain incentive compensation and other benefit plan costs that are global in nature and are not allocable to the reportable segments. Amounts for 2006 in the following tables are presented on the redefined basis.

The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings from continuing operations before interest income, interest expense, provision for income taxes and minority share owners' interests in earnings of subsidiaries and excludes amounts related to certain items that management considers not representative of ongoing operations as well as certain retained corporate costs. The Company's management uses Segment Operating Profit, in combination with selected cash flow information, to evaluate performance and to allocate resources.

Segment Operating Profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Beginning in 2008, the Company revised its method of allocating corporate expenses. The Company decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services. It is not practicable to quantify the net effect of these changes on periods prior to 2008. However, the effect for 2008 was to reduce the amount of retained corporate costs by approximately \$38.0 million. The information below is presented on a continuing operations basis, and therefore, the 2007 and 2006 amounts exclude amounts related to the discontinued operations. See Note 22 for more information.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Financial information regarding the Company's reportable segments is as follows:

Net Sales:	2008	2007	2006

(1) Retained Corporate Costs and Other includes assets of discontinued operations.

(2) Excludes property, plant and equipment acquired through acquisitions.

Owens-Illinois, Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company's net property, plant, and equipment by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 679.5	\$ 1,966.1	\$ 2,645.6
2007	678.9	2,271.1	2,950.0
2006	712.5	2,162.0	2,874.5

The Company's net sales by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 1,894.8	\$ 5,989.9	\$ 7,884.7
2007	1,920.6	5,646.1	7,566.7
2006	1,793.7	4,856.7	6,650.4

Operations in individual countries outside the United States that accounted for more than 10% of consolidated net sales from continuing operations were in Italy (2008 - 10.7%, 2007 - 10.1%) and France (2008 - 14.7%, 2007 - 19.3%, 2006 - 19.3%).

21. Goodwill The changes in the carrying amount of goodwill for the years ended December 31, 2006, 2007 and 2008 are as follows:

	North America	Europe	Asia Pacific	South America	Other	Total
Balance as of January 1, 2006	\$ 747.5	\$ 926.7	\$ 470.8	\$ -	\$ 14.7	\$ 2,159.7
Translation effects	2.8	99.5	31.3			133.6
Other changes, principally adjustments to reverse foreign deferred tax valuation allowances	(28.7)	(9.2)			(0.2)	(38.1)
Balance as of December 31, 2006	721.6	1,017.0	502.1	-	14.5	2,255.2
Translation effects	25.1	115.3	54.6			195.0
Other changes	(1.1)	(13.0)			(8.0)	(22.1)
Balance as of December 31, 2007	745.6	1,119.3	556.7	-	6.5	2,428.1
Translation effects	(28.8)	(58.2)	(123.1)		0.3	(209.8)
Other changes		(10.1)			(0.7)	(10.8)
Balance as of December 31, 2008	\$ 716.8	\$ 1,051.0	\$ 433.6	\$ -	\$ 6.1	\$ 2,207.5

During the fourth quarters of 2008, 2007 and 2006, the Company completed its annual impairment testing and determined that no impairment existed.

22. Discontinued Operations On July 31, 2007, the Company completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. As required by FAS No. 144, the Company has presented the results of operations for the plastics packaging business in the Consolidated Results of Operations for the years ended December 31, 2007 and 2006 as discontinued operations. Interest expense was allocated to the discontinued operations based on debt that was required

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

by an amendment to the Secured Credit Agreement to be repaid from the net proceeds. Amounts for the prior periods have been reclassified to conform to this presentation.

The following summarizes the revenues and expenses of the discontinued operations as reported in the consolidated results of operations for the periods indicated:

	Years ended	
	December 31,	
	2007	2006
Net sales	\$ 455.0	\$ 771.6
Manufacturing, shipping and delivery	(343.5)	(602.9)
Gross profit	111.5	168.7
Selling and administrative	(20.7)	(34.4)
Research, development and engineering	(8.3)	(15.1)
Interest expense	(80.6)	(139.2)
Other income	(0.1)	2.9
Other expense	(1.2)	(5.4)
Earnings (loss) before items below	0.6	(22.5)
(Provision) credit for income taxes	2.4	(1.2)
Minority share owners' interests in earnings of subsidiaries	(0.2)	
Gain on sale of discontinued operations	1,038.5	
Net earnings (loss) from discontinued operations	\$ 1,041.3	\$ (23.7)

The 2007 gain on the sale of discontinued operations of \$1,038.5 million includes charges totaling \$62.1 million for debt retirement costs, consisting principally of redemption premiums and write off of unamortized fees, and a gain of \$8.7 million for curtailment and settlement of pension and other postretirement benefits. The gain also includes a net provision for income taxes of \$38.2 million, consisting of taxes on the gain of \$445.0 million that are substantially offset by a credit of \$406.8 million for the reversal of valuation allowances against existing tax loss carryforwards. The sale agreement provides for an adjustment of the selling price based on working capital levels and certain other factors.

The gain on sale of discontinued operations of \$6.8 million reported in 2008 relates to an adjustment of the 2007 gain on the sale of the plastics packaging business mainly related to finalizing certain tax allocations and an adjustment to the selling price in accordance with procedures set forth in the final contract.

23. Fair Value Measurements In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (FAS No. 157), which defines fair value, establishes a framework for measuring fair value and enhances disclosure about fair value measurements. On February 2, 2008, the FASB issued FASB Staff Position No. 157-2 (FSP 157-2) which delays the effective date of FAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on at least an annual basis. Where the measurement objective specifically requires the use of "fair value" the Company has adopted the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

provisions of FAS No. 157 related to financial assets and financial liabilities as of January 1, 2008. The adoption of FAS No. 157 had no impact on the Company.

FAS No. 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. FAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The Company's derivative assets and liabilities consist of interest rate swaps, natural gas forwards, and foreign exchange option and forward contracts. The Company uses an income approach to valuing these contracts. Interest rate yield curves, natural gas forward rates, and foreign exchange rates are the significant inputs into the valuation models. These inputs are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies the \$0.4 million net derivative liability as Level 2 in the hierarchy. The Company also evaluates counterparty risk in determining fair values.

The Company adopted Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of FASB Statement No. 115" ("FAS No. 159"), effective January 1, 2008. This standard permits entities to choose to measure many financial instruments and certain other items at fair value. While FAS No. 159 became effective January 1, 2008, the Company did not elect the fair value measurement option for any of its financial assets or liabilities.

24. Financial Information for Subsidiary Guarantors and Non-Guarantors The following presents condensed consolidating financial information for the Company, segregating: (1) Owens-Illinois, Inc., the issuer of two series of senior notes and debentures (the "Parent"); (2) the two subsidiaries which have guaranteed the senior notes and debentures on a subordinated basis (the "Guarantor Subsidiaries"); and (3) all other subsidiaries (the "Non-Guarantor Subsidiaries"). The Guarantor Subsidiaries are 100% owned direct and indirect subsidiaries of the Company and their guarantees are full, unconditional and joint and several. They have no operations and function only as intermediate holding companies.

Wholly-owned subsidiaries are presented on the equity basis of accounting. Certain reclassifications have been made to conform all of the financial information to the financial presentation on a consolidated basis. The principal eliminations relate to investments in subsidiaries and inter-company balances and transactions.

Gain (loss) on sale of discontinued operations			6.36	(0.21)	6.19
Net earnings (loss)	\$ 0.30	\$ 0.89	\$ 6.86	\$ (0.15)	\$ 7.99

- (c) Amounts related to the Company's plastics packaging business have been reclassified to discontinued operations following as a result of the July 2007 sale of that business.
- (d) Amount for the second quarter includes a benefit of \$13.5 million for the recognition of tax credits related to restructuring of investments in certain European operations. The effect of this benefit is an increase in earnings per share of \$0.08.

Amount for the third quarter includes charges of \$61.9 million (\$55.1 million after tax) for restructuring and asset impairment. The effect of these charges is a reduction in earnings per share of \$0.33.

Amount for the fourth quarter includes charges totaling \$162.9 million (\$152.8 million after tax) for the following: (1) \$115.0 million (pretax and after tax) to increase the accrual for estimated future asbestos-related costs; (2) \$38.4 million (\$29.0 million after tax) for restructuring and asset impairment; and (3) \$9.5 million (\$8.8 million after tax) for note repurchase premiums and the write-off of finance fees related to debt that was repaid prior to its maturity. The effect of these charges is a reduction in earnings per share of \$0.94.

- (e) Earnings per share are computed independently for each period presented. As such, the sums of the amounts calculated separately for each quarter do not equal the year-to-date amount.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, the Company has investments in certain unconsolidated entities. As the Company does not control or manage these entities, its disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those maintained with respect to its consolidated subsidiaries.

As required by Rule 13a-15(b) of the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of December 31, 2008.

Management concluded that the Company's system of internal control over financial reporting was effective as of December 31, 2008. There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting. The

Company is undertaking the phased implementation of a global Enterprise Resource Planning software system and believes it is maintaining and monitoring appropriate internal controls during the implementation period. The Company believes that the internal control environment will be enhanced as a result of implementation.

Management's Report on Internal Control over Financial Reporting

The management of Owens-Illinois, Inc. is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States. However, all internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and reporting.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2008. In making this assessment management used the criteria for effective internal control over financial reporting as described in "Internal Control – Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO framework).

Based on this assessment, using the criteria above, management concluded that the Company's system of internal control over financial reporting was effective as of December 31, 2008.

The Company's independent registered public accounting firm, Ernst & Young LLP, that audited the Company's consolidated financial statements, has issued an attestation report on the Company's internal control over financial reporting which is included below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Share Owners of
Owens-Illinois, Inc.

We have audited Owens-Illinois, Inc.'s internal control over financial reporting as of December 31, 2008 based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Owens-Illinois, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Owens-Illinois, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Owens-Illinois, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of results of operations, share owners' equity, and cash flows for each of the three years in the period ended December 31, 2008 and our report dated February 17, 2009 expressed an unqualified opinion thereon.

**SEPARATE FINANCIAL STATEMENTS OF AFFILIATES WHOSE SECURITIES ARE
PLEDGED AS COLLATERAL.**

- 1) Financial statements of Owens-Brockway Packaging, Inc. and subsidiaries including consolidated balance sheets as of December 31, 2008 and 2007, and the related statements of operations, net parent investment, and cash flows for the years ended December 31, 2008, 2007 and 2006.
- 2) Financial statements of Owens-Brockway Glass Container Inc. and subsidiaries including consolidated balance sheets as of December 31, 2008 and 2007, and the related statements of operations, net parent investment, and cash flows for the years ended December 31, 2008, 2007 and 2006.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Share Owner of
Owens-Brockway Packaging, Inc.

We have audited the accompanying consolidated balance sheets of Owens-Brockway Packaging, Inc. and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of results of operations, net Parent investment, and cash flows for each of the three years in the period ended December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Owens-Brockway Packaging, Inc. and subsidiaries at December 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 13 to the consolidated financial statements, the Company changed its method of accounting for defined benefit pension plans and other postretirement plans in 2006.

See Accompanying Notes to Consolidated Financial Statements.

Owens-Brockway Packaging, Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Significant Accounting Policies

Basis of Consolidated Statements The consolidated financial statements of Owens-Brockway Packaging, Inc. ("Company") include the accounts of its subsidiaries. Newly acquired subsidiaries have been included in the consolidated financial statements from dates of acquisition.

The Company uses the equity method of accounting for investments in which it has a significant ownership interest, generally 20% to 50%. Other investments are accounted for at cost. The Company monitors investments for other than temporary declines in fair value and records reductions in carrying values when appropriate.

Relationship with Owens-Illinois Group, Inc. and Owens-Illinois, Inc. The Company is a wholly-owned subsidiary of Owens-Illinois Group, Inc. ("OI Group") and an indirect subsidiary of Owens-Illinois, Inc. ("OI Inc."). Although OI Inc. does not conduct any operations, it has substantial obligations related to outstanding indebtedness, dividends for preferred stock and asbestos-related payments. OI Inc. relies primarily on distributions from its direct and indirect subsidiaries to meet these obligations.

For federal and certain state income tax purposes, the taxable income of the Company is included in the consolidated tax returns of OI Inc. and income taxes are allocated to the Company on a basis consistent with separate returns.

Nature of Operations The Company is a leading manufacturer of glass container products. The Company's principal product lines in the Glass Containers product segment are glass containers for the food and beverage industries. The Company has glass container operations located in 22 countries. The principal markets and operations for the Company's glass products are in North America, Europe, South America, and Australia.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management of the Company to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates, at which time the Company would revise its estimates accordingly.

Cash The Company defines "cash" as cash and time deposits with maturities of three months or less when purchased. Outstanding checks in excess of funds on deposit are included in accounts payable.

Fair Values of Financial Instruments The carrying amounts reported for cash, short-term investments and short-term loans approximate fair value. In addition, carrying amounts approximate fair value for certain long-term debt obligations subject to frequently redetermined interest rates. Fair values for the Company's significant fixed rate debt obligations are generally based on published market quotations.

Derivative Instruments The Company uses currency swaps, interest rate swaps, options, and commodity futures contracts to manage risks generally associated with foreign exchange rate, interest rate and commodity market volatility. Derivative financial instruments are included on the balance sheet at fair value. Whenever possible, derivative instruments are designated as and are effective as hedges, in accordance with accounting principles generally accepted in the United States. If the underlying hedged transaction ceases to exist, all changes in fair value of the related derivatives that have not been settled are recognized in current earnings. The Company does not enter into derivative financial instruments for trading purposes and is not a party to leveraged derivatives. In accordance with FAS No. 104, cash flows from fair value hedges of debt and short-term forward exchange contracts are classified as a financing

activity. Cash flows of currency swaps, interest rate swaps, and commodity futures contracts are classified as operating activities. See Note 9 for additional information related to derivative instruments.

Inventory Valuation The Company values most U.S. inventories at the lower of last-in, first-out (LIFO) cost or market. Other inventories are valued at the lower of standard costs (which approximate average costs) or market.

Goodwill Goodwill represents the excess of cost over fair value of assets of businesses acquired. Goodwill is evaluated annually, as of October 1, for impairment or more frequently if an impairment indicator exists.

Intangible Assets and Other Long-Lived Assets Intangible assets are amortized over the expected useful life of the asset. Amortization expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Amortization expense related to non-manufacturing activities is included in selling and administrative and other. The Company evaluates the recoverability of intangible assets and other long-lived assets based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Property, Plant, and Equipment Property, plant, and equipment ("PP&E") is carried at cost and includes expenditures for new facilities and equipment and those costs which substantially increase the useful lives or capacity of existing PP&E. In general, depreciation is computed using the straight-line method and recorded over the estimated useful life of the asset. Factory machinery and equipment is depreciated over periods ranging from 5 to 25 years with the majority of such assets (principally glass-melting furnaces and forming machines) depreciated over 7-15 years. Buildings and building equipment are depreciated over periods ranging from 10 to 50 years. Depreciation expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Depreciation expense related to non-manufacturing activities is included in selling and administrative. Maintenance and repairs are expensed as incurred. Costs assigned to PP&E of acquired businesses are based on estimated fair values at the date of acquisition. The Company evaluates the recoverability of property, plant, and equipment based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Revenue Recognition The Company recognizes sales, net of estimated discounts and allowances, when the title to the products and risk of loss are transferred to customers. Provisions for rebates to customers are provided in the same period that the related sales are recorded.

Shipping and Handling Costs Shipping and handling costs are included with manufacturing, shipping, and delivery costs in the Consolidated Statements of Operations.

Income Taxes on Undistributed Earnings In general, the Company plans to continue to reinvest the undistributed earnings of foreign subsidiaries and foreign corporate joint ventures accounted for by the equity method. Accordingly, taxes are provided only on that amount of undistributed earnings in excess of planned reinvestments.

Foreign Currency Translation The assets and liabilities of substantially all subsidiaries and associates are translated at current exchange rates and any related translation adjustments are recorded directly in net Parent investment.

Accounts Receivable Receivables are stated at amounts estimated by management to be the net realizable value. The Company charges off accounts receivable when it becomes apparent based upon age or customer circumstances that amounts will not be collected.

Allowance for Doubtful Accounts The allowance for doubtful accounts is established through charges to the provision for bad debts. The Company evaluates the adequacy of the allowance for doubtful accounts on a periodic basis. The evaluation includes historical trends in collections and write-offs, management's judgment of the probability of collecting accounts and management's evaluation of business risk.

New Accounting Standards In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141R, "Business Combinations" ("FAS No. 141R"). FAS No. 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree and recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase. FAS No. 141R also sets forth the disclosures required to be made in the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Accordingly, FAS No. 141R will be applied by the Company to business combinations occurring on or after January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" ("FAS No. 160"). FAS No. 160 establishes accounting and reporting standards for the non-controlling interest in a subsidiary and the deconsolidation of a subsidiary. FAS No. 160 is effective for years beginning on or after December 15, 2008. Adoption of FAS No. 160 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" ("FAS No. 161"). FAS No. 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial condition, financial performance, and cash flows. FAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Adoption of FAS No. 161 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In December 2008, the FASB issued a FASB Staff Position on Statement of Financial Accounting Standards No. 132(R), "Employers' Disclosures about Postretirement Benefit Plan Assets" ("FSP FAS No. 132(R)-1"). FSP FAS No. 132(R)-1 requires additional disclosures about the fair value of postretirement benefit plan assets to provide users of financial statements with useful, transparent and timely information about the asset portfolios. FSP FAS No. 132(R)-1 is effective for years ending after December 15, 2009. Adoption of FSP FAS No. 132(R)-1 will have no impact on the Company's results of operations, financial position or cash flows.

In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position FSP 157-2, "Effective Date of FASB Statement No. 157" (FSP 157-2). FSP 157-2 delays the effective date of FAS No. 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until the beginning of the first quarter of fiscal 2009. The adoption of FAS No. 157 is not expected to have a significant impact on the Company's consolidated financial statements when it is applied to non-financial

assets and non-financial liabilities that are not measured at fair value on a recurring basis, beginning in the first quarter of 2009.

Participation in OI Inc. Stock Option Plans and Other Stock Based Compensation The Company participates in the equity compensation plans of OI Inc. under which employees of the Company may be granted options to purchase common shares of OI Inc., restricted common shares of OI Inc., or restricted share units of OI Inc.

Stock Options

For options granted prior to March 22, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to accelerated exercisability provisions related to the performance of OI Inc.'s common stock or change of control, 50% of the options become exercisable on the fifth anniversary of the date of the option grant, with the remaining 50% becoming exercisable on the sixth anniversary date of the option grant. In general, options expire following termination of employment or the day after the tenth anniversary date of the option grant.

For options granted after March 21, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to change in control, these options become exercisable 25% per year beginning on the first anniversary. In general, options expire following termination of employment or the seventh anniversary of the option grant.

The fair value of options granted before March 22, 2005, is amortized ratably over five years or a shorter period if the grant becomes subject to accelerated exercisability provisions related to the performance of OI Inc.'s common stock. The fair value of options granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Restricted Shares

Shares granted to employees prior to March 22, 2005, generally vest after three years or upon retirement, whichever is later. Shares granted after March 21, 2005, vest 25% per year beginning on the first anniversary and unvested shares are forfeited upon termination of employment. Shares granted to directors prior to 2008 were immediately vested but may not be sold until the third anniversary of the share grant or the end of the director's then current term on the board, whichever is later. Share granted to the directors after 2007 vest after one year.

The fair value of the shares is equal to the market price of the shares on the date of the grant. The fair value of restricted shares granted before March 22, 2005, is amortized ratably over the vesting period. The fair value of restricted shares granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Performance Vested Restricted Share Units

Restricted share units vest on January 1 of the third year following the year in which they are granted. Holders of vested units receive 0.5 to 1.5 shares of OI Inc.'s common stock for each unit, depending upon the attainment of consolidated performance goals established by the Compensation Committee of OI Inc.'s Board of Directors. If minimum goals are not met, no shares will be issued. Granted but unvested restricted share units are forfeited upon termination of employment, unless certain retirement criteria are met.

The fair value of each restricted share unit is equal to the product of the fair value of OI Inc.'s common stock on the date of grant and the estimated number of shares into which the restricted share unit will be

converted. The fair value of restricted share units is amortized ratably over the vesting period. Should the estimated number of shares into which the restricted share unit will be converted change, an adjustment will be recorded to recognize the accumulated difference in amortization between the revised and previous estimates.

Accounting

OI Inc. adopted the provisions of FAS No. 123R "Share-Based Payment" (FAS No. 123R) effective January 1, 2006 using the modified-prospective method of adoption, which requires recognition of compensation cost in the financial statements beginning on the date of adoption.

As discussed in Note 11, costs incurred under these plans by OI Inc. related to stock-based compensation awards granted directly to the Company's employees are included in the allocable costs charged to the Company and other operating subsidiaries of OI Inc. on an intercompany basis.

2. Supplemental Cash Flow Information Changes in the components of working capital related to operations (net of the effects related to acquisitions and divestitures) were as follows:

	2008	2007	2006
Decrease (increase) in current assets:			
Receivables	\$ 73.8	\$ (30.1)	\$ (173.9)
Inventories	(77.8)	70.5	(36.8)
Prepaid expenses	(7.0)	6.8	2.4
Increase (decrease) in current liabilities:			
Accounts payable and accrued liabilities	(166.7)	(13.5)	(28.1)
Salaries and wages	(18.8)	24.9	(13.8)
U.S. and foreign income taxes	6.4	(32.4)	28.5
	\$ (190.1)	\$ 26.2	\$ (221.7)

Interest paid in cash, including note repurchase premiums in 2007 and 2006, aggregated \$209.3 million for 2008, \$390.3 million for 2007, and \$380.0 million for 2006.

Income taxes paid (received) in cash were as follows:

	2008	2007	2006
Domestic	\$ (0.3)	\$ 0.2	\$ (0.4)
Foreign	158.4	149.2	126.8
	\$ 158.1	\$ 149.4	\$ 126.4

3. Inventories Major classes of inventory are as follows:

	2008	2007
Finished goods	\$ 831.7	\$ 861.1
Work in process	0.8	1.4
Raw materials	109.8	90.5
Operating supplies	56.8	67.3
	\$ 999.1	\$ 1,020.3

If the inventories which are valued on the LIFO method had been valued at standard costs, which approximate current costs, consolidated inventories would be higher than reported by \$32.5 million and \$29.1 million, at December 31, 2008 and 2007, respectively.

Inventories which are valued at the lower of standard costs (which approximate average costs), or market at December 31, 2008 and 2007 were approximately \$861.4 million and \$872.8 million, respectively.

4. Equity Investments Summarized information pertaining to the Company's equity associates follows:

	2008	2007	
At end of year:			
Equity in undistributed earnings:			
Foreign	\$ 35.4	\$ 22.4	
Domestic	15.2	18.7	
Total	\$ 50.6	\$ 41.1	
	2008	2007	2006
For the year:			
Equity in earnings:			
Foreign	\$ 14.1	\$ 5.3	\$ 2.0
Domestic	36.7	28.8	21.4
Total	\$ 50.8	\$ 34.1	\$ 23.4
Dividends received	\$ 24.5	\$ 21.7	\$ 43.5

Summarized combined financial information for equity associates is as follows:

	2008	2007 (a)	
At end of year:			
Current assets	\$ 208.3	\$ 191.3	
Non-current assets	325.9	302.4	
Total assets	534.2	493.7	
Current liabilities	167.5	117.0	
Other liabilities and deferred items	182.5	265.5	
Total liabilities and deferred items	350.0	382.5	
Net assets	\$ 184.2	\$ 111.2	
	2008	2007 (a)	2006
For the year:			
Net sales	\$ 635.8	\$ 535.9	\$ 564.0
Gross profit	\$ 227.5	\$ 176.5	\$ 132.2
Net earnings	\$ 153.9	\$ 112.4	\$ 69.4

(a) Amounts for 2007 exclude the Company's Caribbean investment due to the impairment recorded during 2007.

The Company's significant equity method investments include: (1) 43.5% of the common shares of Vetri Speciali SpA, a specialty glass manufacturer; (2) a 25% partnership interest in General Chemical Soda

Ash (Partners), a soda ash supplier; and (3) a 50% partnership interest in Rocky Mountain Bottle Company, a glass container manufacturer.

5. External Debt The following table summarizes the external long-term debt of the Company at December 31, 2008 and 2007:

	2008	2007
Secured Credit Agreement:		
Revolving Credit Facility:		
Revolving Loans	\$ 18.7	\$ -
Term Loans:		
Term Loan A (225.0 million AUD at Dec. 31, 2008)	155.7	198.1
Term Loan B	191.5	191.5
Term Loan C (110.8 million CAD at Dec. 31, 2008)	90.9	113.2
Term Loan D (€191.5 million at Dec. 31, 2008)	269.6	281.8
Senior Notes:		
8.25%, due 2013	461.1	450.3
6.75%, due 2014	400.0	400.0
6.75%, due 2014 (€225 million)	316.8	331.1
6.875%, due 2017 (€300 million)	422.4	441.5
Other	104.6	101.8
	2,431.3	2,509.3
Less amounts due within one year	18.2	15.2
External long-term debt	\$ 2,413.1	\$ 2,494.1

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At December 31, 2008, the Agreement included a \$900.0 million revolving credit facility, a 225.0 million Australian dollar term loan, and a 110.8 million Canadian dollar term loan, each of which has a final maturity date of June 15, 2012. It also included a \$191.5 million term loan and a €191.5 million term loan, each of which has a final maturity date of June 14, 2013.

As a result of the bankruptcy of Lehman Brothers Holdings Inc. and several of its subsidiaries, the Company believes that the maximum amount available under the revolving credit facility was reduced by \$32.3 million. After further deducting amounts attributable to letters of credit and overdraft facilities that are supported by the revolving credit facility, at December 31, 2008 the Company's subsidiary borrowers had unused credit of \$768.4 million available under the Agreement.

The Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments and acquisitions, become liable under contingent obligations in certain defined instances only, make restricted junior payments, make certain asset sales within guidelines and limits, make capital expenditures beyond a certain threshold, engage in material transactions with shareholders and affiliates, participate in sale and leaseback financing arrangements, alter its fundamental business, amend certain outstanding debt obligations, and prepay certain outstanding debt obligations.

The Agreement also contains one financial maintenance covenant, a Leverage Ratio, that requires the Company not to exceed a ratio calculated by dividing consolidated total debt, less cash and cash equivalents, by Consolidated Adjusted EBITDA, as defined in the Agreement. The Leverage Ratio could restrict the ability of the Company to undertake additional financing to the extent that such financing would cause the Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Agreement and the lenders cause all of the outstanding debt obligations under the Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. A default or event of default under the Agreement, indentures or agreements governing other indebtedness could also lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross-default provisions.

The leverage ratio also determines pricing under the Agreement. The interest rate on borrowings under the Agreement is, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Agreement. These rates include a margin linked to the leverage ratio and the borrowers' senior secured debt rating. The margins range from 0.875% to 1.75% for Eurocurrency Rate loans and from -0.125% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.50% per annum linked to the leverage ratio. The weighted average interest rate on borrowings outstanding under the Agreement at December 31, 2008 was 4.07%. As of December 31, 2008, the Company was in compliance with all covenants and restrictions in the Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Agreement will not be adversely affected by the covenants and restrictions.

Borrowings under the Agreement are secured by substantially all of the assets of the Company's domestic subsidiaries and certain foreign subsidiaries, which have a book value of approximately \$2.0 billion. Borrowings are also secured by a pledge of intercompany debt and equity in most of the Company's domestic subsidiaries and stock of certain foreign subsidiaries. All borrowings under the agreement are guaranteed by substantially all domestic subsidiaries of the Company for the term of the Agreement.

During March 2007, a subsidiary of the Company issued Senior Notes totaling €300.0 million. The notes bear interest at 6.875% and are due March 31, 2017. The notes are guaranteed by substantially all of the Company's domestic subsidiaries. The proceeds were used to retire the \$300 million principal amount of OI Inc.'s 8.10% Senior Notes which matured in May 2007, and to reduce borrowings under the revolving credit facility.

On July 31, 2007, the OI Inc. completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. In accordance with an amendment of the Agreement that became effective upon completion of the sale of the plastics business, the Company was required to use the net proceeds (as defined in the Agreement) to repay senior secured debt. In addition, the amendment provides for modification of certain covenants, including the elimination of the financial covenant requiring the Company to maintain a specified interest coverage ratio. OI Inc. used a portion of the net proceeds in the third quarter of 2007 to redeem all \$450.0 million of the 7.75% Senior Secured Notes and repurchase \$283.1 million of the 8.875% Senior Secured Notes. The remaining \$566.9 million of the 8.875% Senior Secured Notes were repurchased or discharged in accordance with the indenture in October 2007. The remaining net proceeds, along with funds from operations and/or additional borrowings under the revolving credit facility, were used to redeem all \$625.0 million of the 8.75% Senior Secured Notes on November 15, 2007. The Company recorded \$9.5 million of additional interest charges for note repurchase premiums and the related write-off of unamortized finance fees.

During October 2006, the Company entered into a €300 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines. In addition, the Company participates in a receivables financing program in the Asia Pacific

region with a revolving funding commitment of 100 million Australian dollars and 25 million New Zealand dollars that extends through July 2009 and October 2009, respectively. Information related to the Company's accounts receivable securitization program is as follows:

	Dec. 31, 2008	Dec. 31, 2007
Balance (included in short-term loans)	\$ 293.7	\$ 361.8
Weighted average interest rate	5.31%	5.48%

The Company capitalized \$25.6 million and \$27.0 million in 2008 and 2007, respectively, under capital lease obligations with the related financing recorded as long term debt. These amounts are included in other in the long-term debt table above.

Annual maturities for all of the Company's long-term debt through 2013 are as follows: 2009, \$18.2 million; 2010, \$19.0 million; 2011, \$159.0 million; 2012, \$152.4 million; and 2013, \$930.7 million.

Fair values at December 31, 2008, of the Company's significant fixed rate debt obligations were as follows:

	Principal Amount (millions of dollars)	Indicated Market Price	Fair Value (millions of dollars)	Hedge Value (millions of dollars)
Senior Notes:				
8.25%, due 2013	\$ 450.0	96.00	\$ 432.0	\$ 461.1
6.75%, due 2014	400.0	92.75	371.0	
6.75%, due 2014 (€225 million)	316.8	77.63	245.9	
6.875%, due 2017 (€300 million)	422.4	74.13	313.1	

6. Guarantees of Debt OI Group and the Company guarantee OI Inc.'s senior notes and debentures on a subordinated basis. The fair value of the OI Inc. debt being guaranteed was \$462.6 at December 31, 2008.

7. Operating Leases Rent expense attributable to all warehouse, office buildings, and equipment operating leases was \$95.4 million in 2008, \$87.4 million in 2007, and \$75.7 million in 2006. Minimum future rentals under operating leases are as follows: 2009, \$45.5 million; 2010, \$34.4 million; 2011, \$22.6 million; 2012, \$14.6 million; 2013, \$7.4 million; and 2014 and thereafter, \$7.4 million.

8. Foreign Currency Transactions Aggregate foreign currency exchange gains (losses) included in other costs and expenses were \$0.6 million in 2008, \$(8.1) million in 2007, and \$(1.0) million in 2006.

9. Derivative Instruments At December 31, 2008, the Company had the following derivative instruments related to its various hedging programs:

Interest Rate Swaps Designated as Fair Value Hedges

In the fourth quarter of 2003 and the first quarter of 2004, the Company entered into a series of interest rate swap agreements with a current total notional amount of \$500 million that mature in 2010 and 2013. The swaps were executed in order to: (i) convert a portion of the senior notes and senior debentures fixed-rate debt into floating-rate debt; (ii) maintain a capital structure containing appropriate amounts of fixed and floating-rate debt; and (iii) reduce net interest payments and expense in the near-term.

The Company's fixed-to-variable interest rate swaps are accounted for as fair value hedges. Because the relevant terms of the swap agreements match the corresponding terms of the notes, there is no hedge ineffectiveness. Accordingly, the Company recorded the net of the fair market values of the swaps as a long-term asset (liability) along with a corresponding net increase (decrease) in the carrying value of the hedged debt.

Under the swaps, the Company receives fixed rate interest amounts (equal to interest on the corresponding hedged note) and pays interest at a six-month U.S. LIBOR rate (set in arrears) plus a margin spread (see table below). The interest rate differential on each swap is recognized as an adjustment of interest expense during each six-month period over the term of the agreement.

The following selected information relates to fair value swaps at December 31, 2008:

	Amount Hedged	Average Receive Rate	Average Spread	Asset (Liability) Recorded
OI Inc. public notes swapped by the company through intercompany loans:				
Senior Debentures due 2010	250.0	7.50%	3.2%	9.4
Notes issued by OBGC:				
Senior Notes due 2013	250.0	8.25%	3.7%	11.1
Total	<u>\$ 500.0</u>			<u>\$ 20.5</u>

Commodity Hedges

The Company enters into commodity futures contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. The Company continually evaluates the natural gas market with respect to its forecasted usage requirements over the next twelve to twenty-four months and periodically enters into commodity futures contracts in order to hedge a portion of its usage requirements over that period. At December 31, 2008, the Company had entered into commodity futures contracts for approximately 50% (approximately 10,200,000 MM BTUs) of its estimated North American usage requirements for the full year of 2009 and approximately 1% (approximately 240,000 MM BTUs) for the full year of 2010.

The Company accounts for the above futures contracts on the balance sheet at fair value. The effective portion of changes in the fair value of a derivative that is designated as, and meets the required criteria for, a cash flow hedge is recorded in the Accumulated Other Comprehensive Income component of share owners' equity ("OCI") and reclassified into earnings in the same period or periods during which the underlying hedged item affects earnings. Any material portion of the change in the fair value of a

derivative designated as a cash flow hedge that is deemed to be ineffective is recognized in current earnings.

The above futures contracts are accounted for as cash flow hedges at December 31, 2008.

At December 31, 2008, an unrecognized loss of \$31.8 million (pretax and after tax), related to the domestic commodity futures contracts, was included in OCI, which will be reclassified into earnings over the next twelve months. The ineffectiveness related to these natural gas hedges for the year ended December 31, 2008 was not material.

Other Hedges

The Company's subsidiaries may enter into short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements are used to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. Subsidiaries may also use forward exchange agreements to offset the foreign currency risk for receivables and payables not denominated in, or indexed to, their functional currencies. The Company records these short-term forward exchange agreements on the balance sheet at fair value and changes in the fair value are recognized in current earnings.

Balance Sheet Classification

The Company records the fair values of derivative financial instruments on the balance sheet as follows: (1) receivables if the instrument has a positive fair value and maturity within one year, (2) deposits, receivables, and other assets if the instrument has a positive fair value and maturity after one year, (3) accounts payable and other current liabilities if the instrument has a negative fair value and maturity within one year, and (4) other liabilities if the instrument has a negative fair value and maturity after one year.

10. Accumulated Other Comprehensive Income (Loss). The components of comprehensive income are: (a) net earnings; (b) change in fair value of certain derivative instruments; (c) pension and other postretirement benefit adjustments; and (d) foreign currency translation adjustments. The net effect of exchange rate fluctuations generally reflects changes in the relative strength of the U.S. dollar against major foreign currencies between the beginning and end of the year.

The following table lists the beginning balance, yearly activity and ending balance of each component of accumulated other comprehensive income (loss):

	Net Effect of Exchange Rate Fluctuations	Deferred Tax Effect for Translation	Change in Minimum Pension Liability	Change in Certain Derivative Instruments	Employee Benefit Plans	Total Accumulated Comprehensive Income (Loss)
Balance on Jan. 1, 2006	\$ (97.0)	\$ 12.8	\$ (145.5)	\$ 14.4	\$ -	\$ (215.3)
2006 Change	284.9		55.0	(49.3)	(71.0)	219.6
Translation effect			(17.6)			(17.6)
Tax effect			(14.8)		23.6	8.8
Balance on Dec. 31, 2006	187.9	12.8	(122.9)	(34.9)	(47.4)	(4.5)
2007 Change	305.3			28.2	41.5	375.0
Translation effect					(6.7)	(6.7)
Reclass			122.9	2.2	(125.1)	-
Tax effect					(8.6)	(8.6)
Balance on Dec. 31, 2007	493.2	12.8	-	(4.5)	(146.3)	355.2
2008 Change	(431.9)			(32.9)	(200.8)	(665.6)
Translation effect					46.1	46.1
Tax effect					55.1	55.1
Balance on Dec. 31, 2008	\$ 61.3	\$ 12.8	\$ -	\$ (37.4)	\$ (245.9)	\$ (209.2)

For 2008 and 2007, respectively, foreign currency translation adjustments include a loss of approximately \$19.9 million and \$35.1 million related to a hedge of the Company's net investment in a non-U.S. subsidiary.

11. Income Taxes Deferred income taxes reflect: (1) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and (2) carryovers and credits for income tax purposes.

Significant components of the Company's deferred tax assets and liabilities at December 31, 2008 and 2007 are as follows:

	2008	2007
Deferred tax assets:		
Tax loss carryovers	\$ 233.5	\$ 242.1
Capital loss carryovers	23.7	32.7
Accrued postretirement benefits	20.2	24.4
Other, principally accrued liabilities	190.0	195.5
Total deferred tax assets	467.4	494.7
Deferred tax liabilities:		
Property, plant and equipment	143.9	221.8
Inventory	13.4	20.0
Other	46.1	49.7
Total deferred tax liabilities	203.4	291.5
Valuation allowance	(255.4)	(213.9)
Net deferred tax liabilities	\$ 8.6	\$ (10.7)

Deferred taxes are included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid expenses	\$ 24.8	\$ 11.8
Deposits, receivables, and other assets	101.3	124.7
Deferred taxes	(117.5)	(147.2)
Net deferred tax liabilities	\$ 8.6	\$ (10.7)

The provision for income taxes consists of the following:

	2008	2007	2006
Current:			
U.S. Federal	\$ (0.4)	\$ -	\$ -
State	0.6	0.4	0.3
Foreign	213.0	144.3	113.1
	213.2	144.7	113.4
Deferred:			
U.S. Federal	4.0	0.3	12.9
State	(3.2)	(4.0)	(3.6)
Foreign	9.8	(1.9)	16.1
	10.6	(5.6)	25.4
Total:			
U.S. Federal	3.6	0.3	12.9
State	(2.6)	(3.6)	(3.3)
Foreign	222.8	142.4	129.2
	\$ 223.8	\$ 139.1	\$ 138.8

The provision for income taxes was calculated based on the following components of earnings (loss) before income taxes:

	2008	2007	2006
Domestic	\$ 191.2	\$ 37.4	\$ (119.1)
Foreign	698.9	687.3	452.6
	\$ 890.1	\$ 724.7	\$ 333.5

A reconciliation of the provision for income taxes based on the statutory U.S. Federal tax rate of 35% to the provision for income taxes is as follows:

	2008	2007	2006
Tax provision (benefit) on pretax earnings (loss) from continuing operations at statutory U.S. Federal tax rate	\$ 311.5	\$ 253.7	\$ 116.7
Increase (decrease) in provision for income taxes due to:			
Valuation allowance - U.S.	(53.7)	(538.3)	46.5
Foreign subsidiary ownership restructuring and incentives	35.1	535.9	30.8
Foreign source income taxable in the U.S.	11.3	29.3	1.8
Reversal of non-U.S. tax valuation allowance	-	(13.4)	(34.7)
Foreign tax credit utilization	-	(47.9)	
State taxes, net of federal benefit	(1.3)	(4.8)	(0.3)
Rate differences on non-U.S. earnings	(55.3)	(65.8)	(22.1)
Adjustment for non-U.S. tax law changes	(20.1)	(9.9)	(1.6)
Other items	(3.7)	0.3	1.7
Provision for income taxes	\$ 223.8	\$ 139.1	\$ 138.8

In 2007 the Company implemented a plan to restructure the ownership and intercompany obligations of certain foreign subsidiaries. These actions resulted in taxation of a significant portion of previously unremitted foreign earnings and will transfer a portion of the Company's debt service obligations to operations outside the U.S. in order to better balance operating cash flows with financing costs on a global basis. The foreign earnings reported as taxable in the U.S. were offset by net operating loss carryforwards and foreign tax credits. Foreign tax credit carryforwards arising from the restructuring were fully offset by an increase in the valuation allowance.

The Company has recognized tax benefits as a result of incentives in certain non-U.S. jurisdictions which expire between 2012 and 2015.

The Company is included in OI Inc.'s consolidated tax returns. OI Inc. has net operating losses, capital losses, alternative minimum tax credits, and research and development credits available to offset future U.S. Federal income tax.

At December 31, 2008, the Company's equity in the undistributed earnings of foreign subsidiaries for which income taxes had not been provided approximated \$1,583.2 million. The Company intends to reinvest these earnings indefinitely in the non-U.S. operations. It is not practicable to estimate the U.S. and foreign tax which would be payable should these earnings be distributed.

The Company adopted FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes," ("FIN 48") as of January 1, 2007. This interpretation was issued to clarify the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FAS No. 109, "Accounting for Income Taxes." FIN 48 defines criteria that a tax position must meet for any part of the benefit of that position to be recognized in an enterprise's financial statements and also includes requirements for measuring the amount of the benefit to be recognized in the financial statements.

As a result of the adoption of FIN 48, the Company recognized no adjustment to retained earnings for unrecognized income tax benefits. The Company reclassified \$28.5 million of deferred tax assets related to general business credits and net operating losses that were previously offset by a full valuation allowance to the liability for unrecognized income tax benefits. This balance sheet reclassification had no effect on share owners' equity. In connection with the adoption of FIN 48, the Company is maintaining its historical method of accruing interest and penalties associated with unrecognized income tax benefits as a component of its income tax expense.

The following is a reconciliation of the Company's total gross unrecognized tax benefits for the year ended December 31, 2008:

	2008	2007
Balance at January 1	\$ 53.0	\$ 45.8
Additions for tax positions of prior years	51.2	0.1
Reductions for tax positions of prior years	(2.1)	(2.5)
Additions based on tax positions related to the current year	6.1	11.0
Reductions due to the lapse of the applicable statute of limitations	(3.1)	(1.4)
Reductions due to settlements	(2.0)	-
Balance at December 31	\$ 103.1	\$ 53.0

At December 31, 2008 and December 31, 2007, accrued interest and penalties related to unrecognized tax benefits were \$14.5 million and \$3.9 million, respectively. Tax expense for the year ended December 31, 2008 includes interest and penalties of \$5.4 million on unrecognized tax benefits for prior years.

The unrecognized tax benefit liability, including interest and penalties, as of December 31, 2008 and December 31, 2007 was \$117.6 million and \$56.9 million respectively. Approximately \$72.7 million and \$41.1 million as of December 31, 2008 and December 31, 2007, respectively, relate to unrecognized tax benefits, which if recognized, would impact the Company's effective income tax rate. This amount differs from the gross unrecognized tax benefits presented in the table above because of the unrecognized tax benefits that would result in the utilization of certain tax attribute carryforwards that are currently subject to a full valuation allowance due to uncertainties about their future period utilization.

For federal and certain state income tax purposes, the taxable income of the Company is included in the consolidated tax returns of OI Inc. and income taxes are allocated to the Company on a basis consistent with separate returns. Tax years through 1999 have been settled with the U.S. Internal Revenue Service and there is no current IRS examination in progress. Due to the existence of tax attribute carryforwards (which are currently offset by full valuation allowances) in the U.S., the Company treats certain post-1999 tax positions as unsettled because of the taxing authorities' ability to modify these attributes. The 2000 tax year is the earliest open year for the Company's other major tax jurisdictions.

The Company does not anticipate a significant change in the total amount of unrecognized income tax benefits within the next twelve months.

12. Related Party Transactions Charges for administrative services are allocated to the Company by OI Inc. based on an annual utilization level. Such services include compensation and benefits administration, payroll processing, use of certain general accounting systems, auditing, income tax planning and compliance, and treasury services. Beginning in 2008, the Company revised its method of allocating corporate expenses. The Company decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services.

Allocated costs also include charges associated with OI Inc.'s equity compensation plans. A substantial number of the options, restricted shares and restricted share units granted under these plans have been granted to key employees of another subsidiary of OI Inc., some of whose compensation costs, including stock-based compensation, are included in an allocation of costs to all operating subsidiaries of OI Inc., including the Company.

Management believes that such transactions are on terms no less favorable to the Company than those that could be obtained from unaffiliated third parties.

The following information summarizes the Company's significant related party transactions:

	Years ended December 31,		
	2008	2007	2006
Revenues:			
Sales to affiliated companies	\$ -	\$ 0.3	\$ 0.5
Expenses:			
Administrative services	15.0	19.5	25.5
Corporate management fee	60.9	29.1	27.1
Trademark royalties	19.9		
Total expenses	\$ 95.8	\$ 48.6	\$ 52.6

The above expenses are recorded in the statement of operations as follows:

	Years ended December 31,		
	2008	2007	2006
Cost of sales	\$ 0.9	\$ 16.9	\$ 22.6
Selling, general, and administrative expenses	94.9	31.7	30.0
Total expenses	\$ 95.8	\$ 48.6	\$ 52.6

Intercompany interest is charged to the Company from OI Inc. based on intercompany debt balances. An interest rate is calculated monthly based on OI Inc.'s total consolidated monthly external debt balance and the related interest expense, including finance fee amortization and commitment fees. The calculated rate (6.3% at December 31, 2008) is applied monthly to the intercompany debt balance to determine intercompany interest expense.

13. Pension Benefit Plans and Other Postretirement Benefits

Pension Benefit Plans

The Company participates in OI Inc.'s defined benefit pension plans for substantially all employees located in the United States. Benefits generally are based on compensation for salaried employees and on length of service for hourly employees. OI Inc.'s policy is to fund pension plans such that sufficient assets will be available to meet future benefit requirements. Independent actuaries determine pension costs for each subsidiary of OI Inc. included in the plans; however, accumulated benefit obligation information and plan assets pertaining to each subsidiary have not been separately determined. As such, the accumulated benefit obligation and the plan assets related to the pension plans for domestic employees have been retained by another subsidiary of OI Inc. Net credits to results of operations for the

Company's allocated portion of the domestic pension costs amounted to \$39.9 million in 2008, \$23.0 million in 2007, and \$7.7 million in 2006.

OI Inc. also sponsors several defined contribution plans for all salaried and hourly U.S. employees of the Company. Participation is voluntary and participants' contributions are based on their compensation. OI Inc. matches contributions of participants, up to various limits, in substantially all plans. OI Inc. charges the Company for its share of the match. The Company's share of the contributions to these plans amounted to \$6.0 million in 2008, \$5.7 million in 2007, and \$5.5 million in 2006.

The Company's subsidiaries in the United Kingdom, the Netherlands, Canada, Australia, and many employees of Germany and France also have pension plans covering substantially all employees. The following tables relate to the Company's principal defined benefit pension plans in the United Kingdom, the Netherlands, Canada, Australia, Germany and France (the International Pension Plans).

The International Pension Plans use a December 31 measurement date.

The changes in the International Pension Plans benefit obligations for the year were as follows:

	2008	2007
Obligations at beginning of year	\$ 1,617.1	\$ 1,544.4
Change in benefit obligations:		
Service cost	22.0	25.0
Interest cost	82.9	78.8
Actuarial gain, including the effect of change in discount rates	(52.7)	(92.1)
Participant contributions	8.8	10.0
Benefit payments	(89.4)	(85.5)
Plan amendments		(3.5)
Curtailments	(9.5)	(2.6)
Special termination benefits	4.4	
Foreign currency translation	(284.2)	136.4
Other		6.2
Net change in benefit obligations	(317.7)	72.7
Obligations at end of year	\$ 1,299.4	\$ 1,617.1

The changes in the fair value of the International Pension Plans' assets for the year were as follows:

	2008	2007
Fair value at beginning of year	\$ 1,376.8	\$ 1,253.3
Change in fair value:		
Actual gain (loss) on plan assets	(220.6)	24.4
Benefit payments	(89.4)	(85.5)
Employer contributions	60.1	59.6
Participant contributions	8.8	10.0
Foreign currency translation	(213.7)	115.0
Net change in fair value of assets	(454.8)	123.5
Fair value at end of year	\$ 922.0	\$ 1,376.8

The funded status of the International Pension Plans at year end was as follows:

	2008	2007
Plan assets at fair value	\$ 922.0	\$ 1,376.8
Projected benefit obligations	1,299.4	1,617.1
Plan assets less than projected benefit obligations	(377.4)	(240.3)
Items not yet recognized in pension expense:		
Actuarial loss	362.9	212.0
Prior service credit	(15.1)	(14.7)
	347.8	197.3
Net amount recognized	\$ (29.6)	\$ (43.0)

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid pension	\$ -	\$ 58.1
Current pension liability, included with Other accrued liabilities	(7.2)	(8.5)
Noncurrent pension liability, included with Pension benefits	(370.2)	(289.9)
Accumulated other comprehensive income	347.8	197.3
Net amount recognized	\$ (29.6)	\$ (43.0)

The following changes in plan assets and benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial (gain) loss	\$ 226.7	\$ (62.2)	\$ 164.5
Amortization of actuarial loss	(5.2)	1.1	(4.1)
Amortization of prior service credit	0.6	(0.1)	0.5
Curtailment	(8.5)	2.4	(6.1)
	213.6	(58.8)	154.8
Translation			(44.9)
	\$ 213.6	\$ (58.8)	\$ 109.9

The accumulated benefit obligation for all defined benefit pension plans was \$1,463.8 million and \$1,129.5 million at December 31, 2007 and 2008, respectively.

The components of the International Pension Plans' net pension expense were as follows:

	2008	2007	2006
Service cost	\$ 21.9	\$ 25.0	\$ 28.1
Interest cost	82.9	78.8	69.1
Expected asset return	(96.5)	(94.5)	(81.5)
Curtailment loss	0.1	0.1	
Special termination benefit	4.4		
Other	(1.1)	5.2	
Amortization:			
Prior service cost (credit)	(0.6)	(0.1)	0.2
Loss	5.2	11.4	15.8
Net amortization	4.6	11.3	16.0
Net expense	\$ 16.3	\$ 25.9	\$ 31.7

Amounts that will be amortized from accumulated other comprehensive income into net pension expense during 2009:

Amortization:	
Loss	\$ 5.2
Prior service credit	(0.8)
Net amortization	\$ 4.4

The following information is for plans with projected benefit obligations in excess of the fair value of plan assets at year end:

	2008	2007
Projected benefit obligations	\$ 1,299.4	\$ 1,114.6
Fair value of plan assets	922.0	816.1

The following information is for plans with accumulated benefit obligations in excess of the fair value of plan assets at year end:

	2008	2007
Accumulated benefit obligations	\$ 1,129.5	\$ 1,008.3
Fair value of plan assets	922.0	816.1

The weighted average assumptions used to determine benefit obligations were as follows:

	2008	2007
Discount rate	5.88%	5.46%
Rate of compensation increase	2.65%	3.39%

The weighted average assumptions used to determine net periodic pension costs were as follows:

	2008	2007	2006
Discount rate	5.46%	4.92%	4.57%
Rate of compensation increase	3.39%	3.34%	3.78%
Expected long-term rate of return on assets	6.96%	7.16%	7.15%

Future benefits are assumed to increase in a manner consistent with past experience of the plans, which, to the extent benefits are based on compensation, includes assumed salary increases as presented above. Amortization included in net pension expense is based on the average remaining service of employees.

For 2008, the Company's weighted average expected long-term rate of return on assets was 6.96%. In developing this assumption, the Company evaluated input from its third party pension plan asset managers, including their review of asset class return expectations and long-term inflation assumptions. The Company also considered its historical 10-year average return (through December 31, 2007), which was in line with the expected long-term rate of return assumption for 2008.

The weighted average actual asset allocations and weighted average target allocation ranges by asset category for the Company's pension plan assets were as follows:

Asset Category	Actual Allocation		Target Allocation Ranges
	2008	2007	
Equity securities	31%	63%	28-38%
Debt securities	56%	28%	44-54%
Real estate	5%	5%	0-10%
Other	8%	4%	8-18%
Total	100%	100%	

It is the Company's policy to invest pension plan assets in a diversified portfolio consisting of an array of asset classes within the above target asset allocation ranges. The investment risk of the assets is limited by appropriate diversification both within and between asset classes. The assets are primarily invested in a broad mix of domestic and international equities, domestic and international bonds, and real estate, subject to the target asset allocation ranges. The assets are managed with a view to ensuring that sufficient liquidity will be available to meet expected cash flow requirements.

Based on exchange rates at the end of 2008, the Company expects to contribute approximately \$70 million to \$75 million to its defined benefit pension plans in 2009.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	97.0
2010	70.0
2011	70.0
2012	74.0
2013	76.9
2014 - 2018	400.2

Postretirement Benefits Other Than Pensions

OI Inc. provides certain retiree health care and life insurance benefits covering substantially all U.S. salaried and certain hourly employees and substantially all employees in Canada and The Netherlands. Employees are generally eligible for benefits upon retirement and completion of a specified number of years of creditable service. Independent actuaries determine postretirement benefit costs for each subsidiary of OI Inc.; however, accumulated postretirement benefit obligation information pertaining to each subsidiary has not been separately determined. As such, the accumulated postretirement benefit obligation has been retained by another subsidiary of OI Inc.

The Company's net periodic postretirement benefit cost, as allocated by OI Inc., for domestic employees was \$5.8 million, \$8.1 million, and \$14.7 million, at December 31, 2008, 2007, and 2006, respectively.

The Company's subsidiaries in Canada and the Netherlands also have postretirement benefit plans covering substantially all employees. The following tables relate to the Company's postretirement benefit plan in Canada and the Netherlands (the International Postretirement Benefit Plans).

The changes in the International Postretirement Benefit Plans obligations were as follows:

	2008	2007
Obligations at beginning of year	\$ 95.0	\$ 76.9
Change in benefit obligations:		
Service cost	1.2	1.3
Interest cost	4.5	4.0
Actuarial (gain) loss, including the effect of changing discount rates	(11.9)	2.5
Curtailments	(2.9)	(0.8)
Special termination benefits	0.9	
Benefit payments	(3.1)	(3.3)
Foreign currency translation	(16.7)	14.4
Net change in benefit obligations	(28.0)	18.1
Obligations at end of year	\$ 67.0	\$ 95.0

The funded status of the International Postretirement Benefit Plans at year end was as follows:

	2008	2007
Postretirement benefit obligations	\$ 67.0	\$ 95.0
Items not yet recognized in net postretirement benefit cost:		
Actuarial gain	6.8	(7.3)
Net amount recognized	\$ 73.8	\$ 87.7

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Current nonpension postretirement benefit, included with		
Other accrued liabilities	\$ (3.1)	\$ (3.7)
Nonpension postretirement benefits	(63.9)	(91.3)
Accumulated other comprehensive income	(6.8)	7.3
Net liability recognized	\$ (73.8)	\$ (87.7)

The following changes in benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial loss	\$ (10.4)	\$ 3.0	\$ (7.4)
Amortization of actuarial loss	0.1		0.1
Curtailment	(2.5)	0.7	(1.8)
	(12.8)	3.7	(9.1)
Translation			(1.2)
	\$ (12.8)	\$ 3.7	\$ (10.3)

The Company's nonpension postretirement benefit obligations are included with other long term liabilities on the balance sheet.

The components of International Postretirement Benefit Plans net postretirement benefit cost were as follows:

	2008	2007	2006
Service cost	\$ 1.2	\$ 1.3	\$ 1.9
Interest cost	4.5	4.0	4.2
Curtailment			(15.9)
Special termination benefit	0.9		
Other	0.1		0.6
Amortization:			
Gain	(0.1)	(0.3)	(1.0)
Net postretirement benefit cost	\$ 6.6	\$ 5.0	\$ (10.2)

The weighted average discount rate used to determine the accumulated postretirement benefit obligation was 6.4% and 4.8% at December 31, 2008 and 2007, respectively.

The weighted average discount rate used to determine net postretirement benefit cost was 4.8% at December 31, 2008, 5.2% at December 31, 2007, and 4.8% at December 31, 2006.

The weighted average assumed health care cost trend rates at December 31 were as follows:

	2008	2007
Health care cost trend rate assumed for next year	9.00%	9.65%
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	5.00%	4.82%
Year that the rate reaches the ultimate trend rate	2010	2010

Assumed health care cost trend rates affect the amounts reported for the postretirement benefit plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	1-Percentage- Point Increase	1-Percentage- Point Decrease
Effect on total of service and interest cost	\$ 0.9	\$ 0.7
Effect on accumulated postretirement benefit obligations	9.3	7.7

Amortization included in net postretirement benefit cost is based on the average remaining service of employees.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	\$ 3.1
2010	3.4
2011	3.7
2012	4.1
2013	4.4
2014 - 2018	25.9

Benefits provided by OI Inc. for certain hourly retirees of the Company are determined by collective bargaining. Most other domestic hourly retirees receive health and life insurance benefits from a multi-employer trust established by collective bargaining. Payments to the trust as required by the bargaining agreements are based upon specified amounts per hour worked and were \$8.9 million in 2008, \$7.4 million in 2007, and \$6.6 million in 2006. Postretirement health and life benefits for retirees of foreign subsidiaries are generally provided through the national health care programs of the countries in which the subsidiaries are located.

14. Other Income Other income in 2006 includes a gain of \$15.9 million (\$11.2 million after tax) related to curtailment of certain postretirement benefits in The Netherlands.

15. Other Expense Other expense for the year ended December 31, 2008 included the following:

- The Company recorded charges totaling \$132.4 million (\$110.1 million after tax and minority shareowners' interests), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 16 for additional information.

Other costs and expenses for the year ended December 31, 2007 included the following:

- In the South American Segment's 50%-owned Caribbean affiliate, declining productivity and cash flows resulted in impairment of the Company's equity investment, establishment of

valuation allowances against advances to the affiliate, and accrual of certain contingent obligations for total charges of \$45.0 million (\$43.9 million after tax) recorded in 2007 with an additional \$0.9 million (before and after tax) recorded in the first quarter of 2008.

- The Company recorded charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 16 for additional information.

Other costs and expenses for the year ended December 31, 2006 included the following:

- During the third quarter of 2006, the Company recorded a charge of \$27.5 million (\$25.6 million after tax), principally related to the closing of its Godfrey, Illinois machine parts manufacturing operation.

16. Restructuring Accruals Beginning in 2007, the Company commenced a strategic review of its global profitability and manufacturing footprint. The combined 2007 and 2008 charges, amounting to \$187.7 million (\$150.3 million after tax and minority shareowners' interests) and approximately 1,800 jobs and corresponding reduction in the Company's workforce, reflect the decisions reached through December 31, 2008 in the Company's ongoing strategic review of its global manufacturing footprint commenced in mid-2007. Amounts recorded by the Company do not include any gains that may be realized upon the ultimate sale or disposition of closed facilities.

2007

During the third and fourth quarters of 2007, the Company recorded restructuring charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment in Europe and North America.

As a result of its strategic review, the Company decided to curtail selected production capacity. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity resulted in elimination of approximately 560 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

2008

During 2008, the Company recorded restructuring charges totaling \$132.4 million (\$110.1 million after tax and minority share owners' interests). The 2008 charges consisted primarily of \$85.5 million for the closure of two Canadian plants with additional charges across all segments as well as in Retained Corporate Costs and Other.

As a continuation of the Company's strategic review in 2008, the Company decided to curtail and realign selected production capacity and other activities across all segments as well as in Retained Corporate Costs and Other. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity and realignment of selected operations will result in elimination of approximately 1,240 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

Probable cash expenditures for the 2007 and 2008 charges are expected to total approximately \$110 million. The Company expects that the majority of these costs will be paid out by the end of 2009.

Selected information related to the restructuring accrual is as follows:

	Employee Costs	Asset Impairment	Other	Total
2007 Charges	\$ 26.1	\$ 22.3	\$ 6.9	\$ 55.3
Write-down of assets to net realizable value	-	(22.3)	(2.4)	(24.7)
Total restructuring accrual at December 31, 2007	26.1	-	4.5	30.6
2008 charges	70.1	32.5	29.8	132.4
Write-down of assets to net realizable value		(32.5)	(4.7)	(37.2)
Net cash paid, principally severance and related benefits	(35.6)		(7.2)	(42.8)
Other, principally foreign exchange translation	(13.0)		(6.1)	(19.1)
Remaining restructuring accrual as of December 31, 2008	\$ 47.6	\$ -	\$ 16.3	\$ 63.9

BSN Acquisition

During the second quarter of 2005, the Company concluded its evaluation of acquired capacity in connection with the acquisition of BSN Glasspack S.A. and announced the permanent closing of its Düsseldorf, Germany glass container factory, and the shutdown of a furnace at its Reims, France glass container facility, both in 2005. These actions were part of the European integration strategy to optimally align the manufacturing capacities with the market and improve operational efficiencies. As a result, the Company recorded an accrual of €47.1 million through an adjustment to goodwill.

These actions resulted in the elimination of approximately 400 jobs and a corresponding reduction in the Company's workforce. The Company anticipates that it will pay a total of approximately €110.9 million in cash related to severance, benefits, plant clean-up, and other plant closing costs related to restructuring accruals.

The European restructuring accrual recorded in the second quarter of 2005 was in addition to the initial estimated accrual of €63.8 million recorded in 2004. Selected information related to the restructuring accrual is as follows, with 2008 activity translated from Euros into dollars at the December 31, 2008 exchange rate:

Remaining European restructuring accrual as of January 1, 2006	\$ 80.9
Net cash paid, principally severance and related benefits	(33.7)
Partial reversal of accrual (goodwill adjustment)	(7.6)
Other, principally foreign exchange translation	(1.5)
Remaining European restructuring accrual as of December 31, 2006	38.1
Net cash paid, principally severance and related benefits	(17.8)
Other, principally foreign exchange translation	7.4
Remaining European restructuring accrual as of December 31, 2007	27.7
Net cash paid, principally severance and related benefits	(6.1)
Other, principally foreign exchange translation	(4.8)
Remaining European restructuring accrual as of December 31, 2008	\$ 16.8

17. Contingencies Certain litigation is pending against the Company, in many cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are nonroutine and involve compensatory, punitive or treble damage claims as well as other types of relief. In accordance with FAS No. 5, "Accounting for Contingencies," the Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based including additional information, negotiations, settlements, and other events. The ultimate legal and financial liability of the Company in respect to this pending litigation cannot be estimated with certainty. However, the Company believes, based on its examination and review of such matters and experience to date, that such ultimate liability will not have a material adverse effect on its results of operations or financial condition.

18. Segment Information The Company has four reportable segments based on its four geographic locations: (1) North America; (2) Europe; (3) Asia Pacific; (4) South America. These four segments are aligned with the Company's internal approach to managing, reporting, and evaluating performance of its global glass operations. Certain assets and activities not directly related to one of the regions or to glass manufacturing are reported with Other. These include licensing, equipment manufacturing, global engineering, and non-glass equity investments.

The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings before interest income, interest expense, provision for income taxes and minority share owners' interests in earnings of subsidiaries and excludes amounts related to certain items that management considers not representative of ongoing operations. The Company's management uses Segment Operating Profit, in combination with selected cash flow information, to evaluate performance and to allocate resources.

Segment Operating Profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Beginning in 2008, the OI Inc. revised its method of allocating corporate expenses. OI Inc. decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services. It is not practicable to quantify the net effect of these changes on periods prior to 2008.

Financial information regarding the Company's reportable segments is as follows:

Net Sales:	2008	2007	2006
Europe	\$ 3,497.8	\$ 3,298.7	\$ 2,846.6
North America	2,209.7	2,271.3	2,110.4

2006	110.2	203.3	81.4	56.3	451.2	7.9	459.1

(1) Excludes property, plant and equipment acquired through acquisitions.

The Company's net property, plant, and equipment by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 636.3	\$ 1,966.1	\$ 2,602.4
2007	633.1	2,271.1	2,904.2
2006	668.4	2,172.8	2,841.2

The Company's net sales by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 1,894.8	\$ 5,989.9	\$ 7,884.7
2007	1,920.6	5,646.1	7,566.7
2006	1,787.6	4,904.8	6,692.4

Operations in individual countries outside the United States that accounted for more than 10% of consolidated net sales were in Italy (2008 - 10.7%, 2007 - 10.1%) and France (2008 - 14.7%, 2007 - 19.3%, 2006 - 19.3%).

19. Additional Interest Charges from Early Extinguishment of Debt During 2007, the Company recorded additional interest charges of \$9.5 million (\$8.8 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity. During 2006, the Company recorded additional interest charges of \$17.5 million (\$17.1 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity.

20. Goodwill The changes in the carrying amount of goodwill for the years ended December 31, 2006, 2007 and 2008 are as follows:

	North America	Europe	Asia Pacific	South America	Other	Total
Balance as of January 1, 2006	\$ 747.5	\$ 926.7	\$ 470.8	\$ -	\$ 14.7	\$ 2,159.7
Translation effects	2.8	99.5	31.3			133.6
Other changes, principally adjustments to reverse foreign deferred tax valuation allowances	(28.7)	(9.2)			(0.2)	(38.1)
Balance as of December 31, 2006	721.6	1,017.0	502.1	-	14.5	2,255.2
Translation effects	25.1	115.3	54.6			195.0
Other changes	(1.1)	(13.0)			(8.0)	(22.1)
Balance as of December 31, 2007	745.6	1,119.3	556.7	-	6.5	2,428.1
Translation effects	(28.8)	(58.2)	(123.1)		0.3	(209.8)
Other changes		(10.1)			(0.7)	(10.8)
Balance as of December 31, 2008	\$ 716.8	\$ 1,051.0	\$ 433.6	\$ -	\$ 6.1	\$ 2,207.5

During the fourth quarters of 2008, 2007 and 2006, the Company completed its annual impairment testing and determined that no impairment existed.

21. Fair Value Measurements In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (FAS No. 157), which defines fair value, establishes a framework for measuring fair value and enhances disclosure about fair value measurements. On February 2, 2008, the FASB issued FASB Staff Position No. 157-2 (FSP 157-2) which delays the effective date of FAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on at least an annual basis. Where the measurement objective specifically requires the use of "fair value" the Company has adopted the provisions of FAS No. 157 related to financial assets and financial liabilities as of January 1, 2008. The adoption of FAS No. 157 had no impact on the Company.

FAS No. 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. FAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The Company's derivative assets and liabilities consist of interest rate swaps, natural gas forwards, and foreign exchange option and forward contracts. The Company uses an income approach to valuing these contracts. Interest rate yield curves, natural gas forward rates, and foreign exchange rates are the significant inputs into the valuation models. These inputs are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies the \$0.4 net derivative liability as Level 2 in the hierarchy. The Company also evaluates counterparty risk in determining fair values.

The Company adopted Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of FASB Statement No. 115" ("FAS No. 159"), effective January 1, 2008. This standard permits entities to choose to measure many financial instruments and certain other items at fair value. While FAS No. 159 became effective January 1, 2008, the Company did not elect the fair value measurement option for any of its financial assets or liabilities.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Share Owner of
Owens-Brockway Glass Container Inc.

We have audited the accompanying consolidated balance sheets of Owens-Brockway Glass Container Inc. and subsidiaries as of December 31, 2008 and 2007, and the related consolidated statements of results of operations, net Parent investment, and cash flows for each of the three years in the period ended December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Owens-Brockway Glass Container Inc. and subsidiaries at December 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 12 to the consolidated financial statements, the Company changed its method of accounting for defined benefit pension plans and other postretirement plans in 2006.

Owens-Brockway Glass Container Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Significant Accounting Policies

Basis of Consolidated Statements The consolidated financial statements of Owens-Brockway Glass Container Inc. ("Company") include the accounts of its subsidiaries. Newly acquired subsidiaries have been included in the consolidated financial statements from dates of acquisition.

The Company uses the equity method of accounting for investments in which it has a significant ownership interest, generally 20% to 50%. Other investments are accounted for at cost. The Company monitors investments for other than temporary declines in fair value and records reductions in carrying values when appropriate.

Relationship with Owens-Brockway Packaging, Inc., Owens-Illinois Group, Inc. and Owens-Illinois, Inc. The Company is a wholly-owned subsidiary of Owens-Brockway Packaging, Inc. ("OB Packaging"), and an indirect subsidiary of Owens-Illinois Group, Inc. ("OI Group") and Owens-Illinois, Inc. ("OI Inc."). Although OI Inc. does not conduct any operations, it has substantial obligations related to outstanding indebtedness, dividends for preferred stock and asbestos-related payments. OI Inc. relies primarily on distributions from its direct and indirect subsidiaries to meet these obligations.

For federal and certain state income tax purposes, the taxable income of the Company is included in the consolidated tax returns of OI Inc. and income taxes are allocated to the Company on a basis consistent with separate returns.

Nature of Operations The Company is a leading manufacturer of glass container products. The Company's principal product lines in the Glass Containers product segment are glass containers for the food and beverage industries. The Company has glass container operations located in 22 countries. The principal markets and operations for the Company's glass products are in North America, Europe, South America, and Australia.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management of the Company to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates, at which time the Company would revise its estimates accordingly.

Cash The Company defines "cash" as cash and time deposits with maturities of three months or less when purchased. Outstanding checks in excess of funds on deposit are included in accounts payable.

Fair Values of Financial Instruments The carrying amounts reported for cash, short-term investments and short-term loans approximate fair value. In addition, carrying amounts approximate fair value for certain long-term debt obligations subject to frequently redetermined interest rates. Fair values for the Company's significant fixed rate debt obligations are generally based on published market quotations.

Derivative Instruments The Company uses currency swaps, interest rate swaps, options, and commodity futures contracts to manage risks generally associated with foreign exchange rate, interest rate and commodity market volatility. Derivative financial instruments are included on the balance sheet at fair value. Whenever possible, derivative instruments are designated as and are effective as hedges, in accordance with accounting principles generally accepted in the United States. If the underlying hedged transaction ceases to exist, all changes in fair value of the related derivatives that have not been settled are recognized in current earnings. The Company does not enter into derivative financial instruments for trading purposes and is not a party to leveraged derivatives. In accordance with FAS No. 104, cash flows from fair value hedges of debt and short-term forward exchange contracts are classified as a financing

activity. Cash flows of currency swaps, interest rate swaps, and commodity futures contracts are classified as operating activities. See Note 9 for additional information related to derivative instruments.

Inventory Valuation The Company values most U.S. inventories at the lower of last-in, first-out (LIFO) cost or market. Other inventories are valued at the lower of standard costs (which approximate average costs) or market.

Goodwill Goodwill represents the excess of cost over fair value of assets of businesses acquired. Goodwill is evaluated annually, as of October 1, for impairment or more frequently if an impairment indicator exists.

Intangible Assets and Other Long-Lived Assets Intangible assets are amortized over the expected useful life of the asset. Amortization expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Amortization expense related to non-manufacturing activities is included in selling and administrative and other. The Company evaluates the recoverability of intangible assets and other long-lived assets based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Property, Plant, and Equipment Property, plant, and equipment ("PP&E") is carried at cost and includes expenditures for new facilities and equipment and those costs which substantially increase the useful lives or capacity of existing PP&E. In general, depreciation is computed using the straight-line method and recorded over the estimated useful life of the asset. Factory machinery and equipment is depreciated over periods ranging from 5 to 25 years with the majority of such assets (principally glass-melting furnaces and forming machines) depreciated over 7-15 years. Buildings and building equipment are depreciated over periods ranging from 10 to 50 years. Depreciation expense directly attributed to the manufacturing of the Company's products is included in manufacturing, shipping, and delivery. Depreciation expense related to non-manufacturing activities is included in selling and administrative. Maintenance and repairs are expensed as incurred. Costs assigned to PP&E of acquired businesses are based on estimated fair values at the date of acquisition. The Company evaluates the recoverability of property, plant, and equipment based on undiscounted projected cash flows, excluding interest and taxes, when factors indicate that impairment may exist. If impairment exists, the asset is written down to fair value.

Revenue Recognition The Company recognizes sales, net of estimated discounts and allowances, when the title to the products and risk of loss are transferred to customers. Provisions for rebates to customers are provided in the same period that the related sales are recorded.

Shipping and Handling Costs Shipping and handling costs are included with manufacturing, shipping, and delivery costs in the Consolidated Statements of Operations.

Income Taxes on Undistributed Earnings In general, the Company plans to continue to reinvest the undistributed earnings of foreign subsidiaries and foreign corporate joint ventures accounted for by the equity method. Accordingly, taxes are provided only on that amount of undistributed earnings in excess of planned reinvestments.

Foreign Currency Translation The assets and liabilities of substantially all subsidiaries and associates are translated at current exchange rates and any related translation adjustments are recorded directly in net Parent investment.

Accounts Receivable Receivables are stated at amounts estimated by management to be the net realizable value. The Company charges off accounts receivable when it becomes apparent based upon age or customer circumstances that amounts will not be collected.

Allowance for Doubtful Accounts The allowance for doubtful accounts is established through charges to the provision for bad debts. The Company evaluates the adequacy of the allowance for doubtful accounts on a periodic basis. The evaluation includes historical trends in collections and write-offs, management's judgment of the probability of collecting accounts and management's evaluation of business risk.

New Accounting Standards In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141R, "Business Combinations" ("FAS No. 141R"). FAS No. 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree and recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase. FAS No. 141R also sets forth the disclosures required to be made in the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Accordingly, FAS No. 141R will be applied by the Company to business combinations occurring on or after January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" ("FAS No. 160"). FAS No. 160 establishes accounting and reporting standards for the non-controlling interest in a subsidiary and the deconsolidation of a subsidiary. FAS No. 160 is effective for years beginning on or after December 15, 2008. Adoption of FAS No. 160 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133" ("FAS No. 161"). FAS No. 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial condition, financial performance, and cash flows. FAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Adoption of FAS No. 161 is not presently expected to have a material impact on the Company's results of operations, financial position or cash flows.

In December 2008, the FASB issued a FASB Staff Position on Statement of Financial Accounting Standards No. 132(R), "Employers' Disclosures about Postretirement Benefit Plan Assets" ("FSP FAS No. 132(R)-1"). FSP FAS No. 132(R)-1 requires additional disclosures about the fair value of postretirement benefit plan assets to provide users of financial statements with useful, transparent and timely information about the asset portfolios. FSP FAS No. 132(R)-1 is effective for years ending after December 15, 2009. Adoption of FSP FAS No. 132(R)-1 will have no impact on the Company's results of operations, financial position or cash flows.

In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position FSP 157-2, "Effective Date of FASB Statement No. 157" (FSP 157-2). FSP 157-2 delays the effective date of FAS No. 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), until the beginning of the first quarter of fiscal 2009. The adoption of FAS No. 157 is not expected to have a significant impact on the Company's consolidated financial statements when it is applied to non-financial

assets and non-financial liabilities that are not measured at fair value on a recurring basis, beginning in the first quarter of 2009.

Participation in OI Inc. Stock Option Plans and Other Stock Based Compensation The Company participates in the equity compensation plans of OI Inc. under which employees of the Company may be granted options to purchase common shares of OI Inc., restricted common shares of OI Inc., or restricted share units of OI Inc.

Stock Options

For options granted prior to March 22, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to accelerated exercisability provisions related to the performance of OI Inc.'s common stock or change of control, 50% of the options become exercisable on the fifth anniversary of the date of the option grant, with the remaining 50% becoming exercisable on the sixth anniversary date of the option grant. In general, options expire following termination of employment or the day after the tenth anniversary date of the option grant.

For options granted after March 21, 2005, no options may be exercised in whole or in part during the first year after the date granted. In general, subject to change in control, these options become exercisable 25% per year beginning on the first anniversary. In general, options expire following termination of employment or the seventh anniversary of the option grant.

The fair value of options granted before March 22, 2005, is amortized ratably over five years or a shorter period if the grant becomes subject to accelerated exercisability provisions related to the performance of OI Inc.'s common stock. The fair value of options granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Restricted Shares

Shares granted to employees prior to March 22, 2005, generally vest after three years or upon retirement, whichever is later. Shares granted after March 21, 2005, vest 25% per year beginning on the first anniversary and unvested shares are forfeited upon termination of employment. Shares granted to directors prior to 2008 were immediately vested but may not be sold until the third anniversary of the share grant or the end of the director's then current term on the board, whichever is later. Share granted to the directors after 2007 vest after one year.

The fair value of the shares is equal to the market price of the shares on the date of the grant. The fair value of restricted shares granted before March 22, 2005, is amortized ratably over the vesting period. The fair value of restricted shares granted after March 21, 2005, is amortized over the vesting periods which range from one to four years.

Performance Vested Restricted Share Units

Restricted share units vest on January 1 of the third year following the year in which they are granted. Holders of vested units receive 0.5 to 1.5 shares of OI Inc.'s common stock for each unit, depending upon the attainment of consolidated performance goals established by the Compensation Committee of OI Inc.'s Board of Directors. If minimum goals are not met, no shares will be issued. Granted but unvested restricted share units are forfeited upon termination of employment, unless certain retirement criteria are met.

The fair value of each restricted share unit is equal to the product of the fair value of OI Inc.'s common stock on the date of grant and the estimated number of shares into which the restricted share unit will be

converted. The fair value of restricted share units is amortized ratably over the vesting period. Should the estimated number of shares into which the restricted share unit will be converted change, an adjustment will be recorded to recognize the accumulated difference in amortization between the revised and previous estimates.

Accounting

OI Inc. adopted the provisions of FAS No. 123R "Share-Based Payment" (FAS No. 123R) effective January 1, 2006 using the modified-prospective method of adoption, which requires recognition of compensation cost in the financial statements beginning on the date of adoption.

As discussed in Note 11, costs incurred under these plans by OI Inc. related to stock-based compensation awards granted directly to the Company's employees are included in the allocable costs charged to the Company and other operating subsidiaries of OI Inc. on an intercompany basis.

2. Supplemental Cash Flow Information Changes in the components of working capital related to operations (net of the effects related to acquisitions and divestitures) were as follows:

	2008	2007	2006
Decrease (increase) in current assets:			
Receivables	\$ 73.8	\$ (30.1)	\$ (173.9)
Inventories	(77.8)	70.5	(36.8)
Prepaid expenses	(7.0)	6.8	2.4
Increase (decrease) in current liabilities:			
Accounts payable and accrued liabilities	(166.7)	(13.5)	(28.1)
Salaries and wages	(18.8)	24.9	(13.8)
U.S. and foreign income taxes	6.4	(32.4)	28.5
	\$ (190.1)	\$ 26.2	\$ (221.7)

Interest paid in cash, including note repurchase premiums in 2007 and 2006, aggregated \$209.3 million for 2008, \$390.3 million for 2007, and \$380.0 million for 2006.

Income taxes paid (received) in cash were as follows:

	2008	2007	2006
Domestic	\$ (0.3)	\$ 0.2	\$ (0.4)
Foreign	158.4	149.2	126.8
	\$ 158.1	\$ 149.4	\$ 126.4

3. Inventories Major classes of inventory are as follows:

	2008	2007
Finished goods	\$ 831.7	\$ 861.1
Work in process	0.8	1.4
Raw materials	109.8	90.5
Operating supplies	56.8	67.3
	\$ 999.1	\$ 1,020.3

If the inventories which are valued on the LIFO method had been valued at standard costs, which approximate current costs, consolidated inventories would be higher than reported by \$32.5 million and \$29.1 million, at December 31, 2008 and 2007, respectively.

Inventories which are valued at the lower of standard costs (which approximate average costs), or market at December 31, 2008 and 2007 were approximately \$861.4 million and \$872.8 million, respectively.

4. Equity Investments Summarized information pertaining to the Company's equity associates follows:

	2008	2007	
At end of year:			
Equity in undistributed earnings:			
Foreign	\$ 35.4	\$ 22.4	
Domestic	15.2	18.7	
Total	\$ 50.6	\$ 41.1	
	2008	2007	2006
For the year:			
Equity in earnings:			
Foreign	\$ 14.1	\$ 5.3	\$ 2.0
Domestic	36.7	28.8	21.4
Total	\$ 50.8	\$ 34.1	\$ 23.4
Dividends received	\$ 24.5	\$ 21.7	\$ 43.5

Summarized combined financial information for equity associates is as follows:

	2008	2007 (a)	
At end of year:			
Current assets	\$ 208.3	\$ 191.3	
Non-current assets	325.9	302.4	
Total assets	534.2	493.7	
Current liabilities	167.5	117.0	
Other liabilities and deferred items	182.5	265.5	
Total liabilities and deferred items	350.0	382.5	
Net assets	\$ 184.2	\$ 111.2	
	2008	2007 (a)	2006
For the year:			
Net sales	\$ 635.8	\$ 535.9	\$ 564.0
Gross profit	\$ 227.5	\$ 176.5	\$ 132.2
Net earnings	\$ 153.9	\$ 112.4	\$ 69.4

(a) Amounts for 2007 exclude the Company's Caribbean investment due to the impairment recorded during 2007.

The Company's significant equity method investments include: (1) 43.5% of the common shares of Vetri Speciali SpA, a specialty glass manufacturer; (2) a 25% partnership interest in General Chemical Soda

Ash (Partners), a soda ash supplier; and (3) a 50% partnership interest in Rocky Mountain Bottle Company, a glass container manufacturer.

5. External Debt The following table summarizes the external long-term debt of the Company at December 31, 2008 and 2007:

	2008	2007
Secured Credit Agreement:		
Revolving Credit Facility:		
Revolving Loans	\$ 18.7	\$ -
Term Loans:		
Term Loan A (225.0 million AUD at Dec. 31, 2008)	155.7	198.1
Term Loan B	191.5	191.5
Term Loan C (110.8 million CAD at Dec. 31, 2008)	90.9	113.2
Term Loan D (€191.5 million at Dec. 31, 2008)	269.6	281.8
Senior Notes:		
8.25%, due 2013	461.1	450.3
6.75%, due 2014	400.0	400.0
6.75%, due 2014 (€225 million)	316.8	331.1
6.875%, due 2017 (€300 million)	422.4	441.5
Other	104.6	101.8
	2,431.3	2,509.3
Less amounts due within one year	18.2	15.2
External long-term debt	\$ 2,413.1	\$ 2,494.1

On June 14, 2006, the Company's subsidiary borrowers entered into the Secured Credit Agreement (the "Agreement"). At December 31, 2008, the Agreement included a \$900.0 million revolving credit facility, a 225.0 million Australian dollar term loan, and a 110.8 million Canadian dollar term loan, each of which has a final maturity date of June 15, 2012. It also included a \$191.5 million term loan and a €191.5 million term loan, each of which has a final maturity date of June 14, 2013.

As a result of the bankruptcy of Lehman Brothers Holdings Inc. and several of its subsidiaries, the Company believes that the maximum amount available under the revolving credit facility was reduced by \$32.3 million. After further deducting amounts attributable to letters of credit and overdraft facilities that are supported by the revolving credit facility, at December 31, 2008 the Company's subsidiary borrowers had unused credit of \$768.4 million available under the Agreement.

The Agreement contains various covenants that restrict, among other things and subject to certain exceptions, the ability of the Company to incur certain liens, make certain investments and acquisitions, become liable under contingent obligations in certain defined instances only, make restricted junior payments, make certain asset sales within guidelines and limits, make capital expenditures beyond a certain threshold, engage in material transactions with shareholders and affiliates, participate in sale and leaseback financing arrangements, alter its fundamental business, amend certain outstanding debt obligations, and prepay certain outstanding debt obligations.

The Agreement also contains one financial maintenance covenant, a Leverage Ratio, that requires the Company not to exceed a ratio calculated by dividing consolidated total debt, less cash and cash equivalents, by Consolidated Adjusted EBITDA, as defined in the Agreement. The Leverage Ratio could restrict the ability of the Company to undertake additional financing to the extent that such financing would cause the Leverage Ratio to exceed the specified maximum.

Failure to comply with these covenants and restrictions could result in an event of default under the Agreement. In such an event, the Company could not request borrowings under the revolving facility, and all amounts outstanding under the Agreement, together with accrued interest, could then be declared immediately due and payable. If an event of default occurs under the Agreement and the lenders cause all of the outstanding debt obligations under the Agreement to become due and payable, this would result in a default under a number of other outstanding debt securities and could lead to an acceleration of obligations related to these debt securities. A default or event of default under the Agreement, indentures or agreements governing other indebtedness could also lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross-default provisions.

The leverage ratio also determines pricing under the Agreement. The interest rate on borrowings under the Agreement is, at the Company's option, the Base Rate or the Eurocurrency Rate, as defined in the Agreement. These rates include a margin linked to the leverage ratio and the borrowers' senior secured debt rating. The margins range from 0.875% to 1.75% for Eurocurrency Rate loans and from -0.125% to 0.75% for Base Rate loans. In addition, a facility fee is payable on the revolving credit facility commitments ranging from 0.20% to 0.50% per annum linked to the leverage ratio. The weighted average interest rate on borrowings outstanding under the Agreement at December 31, 2008 was 4.07%. As of December 31, 2008, the Company was in compliance with all covenants and restrictions in the Agreement. In addition, the Company believes that it will remain in compliance and that its ability to borrow funds under the Agreement will not be adversely affected by the covenants and restrictions.

Borrowings under the Agreement are secured by substantially all of the assets of the Company's domestic subsidiaries and certain foreign subsidiaries, which have a book value of approximately \$2.0 billion. Borrowings are also secured by a pledge of intercompany debt and equity in most of the Company's domestic subsidiaries and stock of certain foreign subsidiaries. All borrowings under the agreement are guaranteed by substantially all domestic subsidiaries of the Company for the term of the Agreement.

During March 2007, a subsidiary of the Company issued Senior Notes totaling €300.0 million. The notes bear interest at 6.875% and are due March 31, 2017. The notes are guaranteed by substantially all of the Company's domestic subsidiaries. The proceeds were used to retire the \$300 million principal amount of OI Inc.'s 8.10% Senior Notes which matured in May 2007, and to reduce borrowings under the revolving credit facility.

On July 31, 2007, the OI Inc. completed the sale of its plastics packaging business to Rexam PLC for approximately \$1.825 billion in cash. In accordance with an amendment of the Agreement that became effective upon completion of the sale of the plastics business, the Company was required to use the net proceeds (as defined in the Agreement) to repay senior secured debt. In addition, the amendment provides for modification of certain covenants, including the elimination of the financial covenant requiring the Company to maintain a specified interest coverage ratio. OI Inc. used a portion of the net proceeds in the third quarter of 2007 to redeem all \$450.0 million of the 7.75% Senior Secured Notes and repurchase \$283.1 million of the 8.875% Senior Secured Notes. The remaining \$566.9 million of the 8.875% Senior Secured Notes were repurchased or discharged in accordance with the indenture in October 2007. The remaining net proceeds, along with funds from operations and/or additional borrowings under the revolving credit facility, were used to redeem all \$625.0 million of the 8.75% Senior Secured Notes on November 15, 2007. The Company recorded \$9.5 million of additional interest charges for note repurchase premiums and the related write-off of unamortized finance fees.

During October 2006, the Company entered into a €300 million European accounts receivable securitization program. The program extends through October 2011, subject to annual renewal of backup credit lines. In addition, the Company participates in a receivables financing program in the Asia Pacific

region with a revolving funding commitment of 100 million Australian dollars and 25 million New Zealand dollars that extends through July 2009 and October 2009, respectively. Information related to the Company's accounts receivable securitization program is as follows:

	Dec. 31, 2008	Dec. 31, 2007
Balance (included in short-term loans)	\$ 293.7	\$ 361.8
Weighted average interest rate	5.31%	5.48%

The Company capitalized \$25.6 million and \$27.0 million in 2008 and 2007, respectively, under capital lease obligations with the related financing recorded as long term debt. These amounts are included in other in the long-term debt table above.

Annual maturities for all of the Company's long-term debt through 2013 are as follows: 2009, \$18.2 million; 2010, \$19.0 million; 2011, \$159.0 million; 2012, \$152.4 million; and 2013, \$930.7 million.

Fair values at December 31, 2008, of the Company's significant fixed rate debt obligations were as follows:

	Principal Amount (millions of dollars)	Indicated Market Price	Fair Value (millions of dollars)	Hedge Value (millions of dollars)
Senior Notes:				
8.25%, due 2013	\$ 450.0	96.00	\$ 432.0	\$ 461.1
6.75%, due 2014	400.0	92.75	371.0	
6.75%, due 2014 (€225 million)	316.8	77.63	245.9	
6.875%, due 2017 (€300 million)	422.4	74.13	313.1	

6. Operating Leases Rent expense attributable to all warehouse, office buildings, and equipment operating leases was \$95.4 million in 2008, \$87.4 million in 2007, and \$75.7 million in 2006. Minimum future rentals under operating leases are as follows: 2009, \$45.5 million; 2010, \$34.4 million; 2011, \$22.6 million; 2012, \$14.6 million; 2013, \$7.4 million; and 2014 and thereafter, \$7.4 million.

7. Foreign Currency Transactions Aggregate foreign currency exchange gains (losses) included in other costs and expenses were \$0.6 million in 2008, \$(8.1) million in 2007, and \$(1.0) million in 2006.

8. Derivative Instruments At December 31, 2008, the Company had the following derivative instruments related to its various hedging programs:

Interest Rate Swaps Designated as Fair Value Hedges

In the fourth quarter of 2003 and the first quarter of 2004, the Company entered into a series of interest rate swap agreements with a current total notional amount of \$500 million that mature in 2010 and 2013. The swaps were executed in order to: (i) convert a portion of the senior notes and senior debentures fixed-

rate debt into floating-rate debt; (ii) maintain a capital structure containing appropriate amounts of fixed and floating-rate debt; and (iii) reduce net interest payments and expense in the near-term.

The Company's fixed-to-variable interest rate swaps are accounted for as fair value hedges. Because the relevant terms of the swap agreements match the corresponding terms of the notes, there is no hedge ineffectiveness. Accordingly, the Company recorded the net of the fair market values of the swaps as a long-term asset (liability) along with a corresponding net increase (decrease) in the carrying value of the hedged debt.

Under the swaps, the Company receives fixed rate interest amounts (equal to interest on the corresponding hedged note) and pays interest at a six-month U.S. LIBOR rate (set in arrears) plus a margin spread (see table below). The interest rate differential on each swap is recognized as an adjustment of interest expense during each six-month period over the term of the agreement.

The following selected information relates to fair value swaps at December 31, 2008:

	Amount Hedged	Average Receive Rate	Average Spread	Asset (Liability) Recorded
OI Inc. public notes swapped by the company through intercompany loans:				
Senior Debentures due 2010	250.0	7.50%	3.2%	9.4
Notes issued by OBGC:				
Senior Notes due 2013	250.0	8.25%	3.7%	11.1 ^a
Total	<u>\$ 500.0</u>			<u>\$ 20.5</u>

Commodity Hedges

The Company enters into commodity futures contracts related to forecasted natural gas requirements, the objectives of which are to limit the effects of fluctuations in the future market price paid for natural gas and the related volatility in cash flows. The Company continually evaluates the natural gas market with respect to its forecasted usage requirements over the next twelve to twenty-four months and periodically enters into commodity futures contracts in order to hedge a portion of its usage requirements over that period. At December 31, 2008, the Company had entered into commodity futures contracts for approximately 50% (approximately 10,200,000 MM BTUs) of its estimated North American usage requirements for the full year of 2009 and approximately 1% (approximately 240,000 MM BTUs) for the full year of 2010.

The Company accounts for the above futures contracts on the balance sheet at fair value. The effective portion of changes in the fair value of a derivative that is designated as, and meets the required criteria for, a cash flow hedge is recorded in the Accumulated Other Comprehensive Income component of share owners' equity ("OCI") and reclassified into earnings in the same period or periods during which the underlying hedged item affects earnings. Any material portion of the change in the fair value of a derivative designated as a cash flow hedge that is deemed to be ineffective is recognized in current earnings.

The above futures contracts are accounted for as cash flow hedges at December 31, 2008.

At December 31, 2008, an unrecognized loss of \$31.8 million (pretax and after tax), related to the domestic commodity futures contracts, was included in OCI, which will be reclassified into earnings over the next twelve months. The ineffectiveness related to these natural gas hedges for the year ended December 31, 2008 was not material.

Other Hedges

The Company's subsidiaries may enter into short-term forward exchange or option agreements to purchase foreign currencies at set rates in the future. These agreements are used to limit exposure to fluctuations in foreign currency exchange rates for significant planned purchases of fixed assets or commodities that are denominated in currencies other than the subsidiaries' functional currency. Subsidiaries may also use forward exchange agreements to offset the foreign currency risk for receivables and payables not denominated in, or indexed to, their functional currencies. The Company records these short-term forward exchange agreements on the balance sheet at fair value and changes in the fair value are recognized in current earnings.

Balance Sheet Classification

The Company records the fair values of derivative financial instruments on the balance sheet as follows: (1) receivables if the instrument has a positive fair value and maturity within one year, (2) deposits, receivables, and other assets if the instrument has a positive fair value and maturity after one year, (3) accounts payable and other current liabilities if the instrument has a negative fair value and maturity within one year, and (4) other liabilities if the instrument has a negative fair value and maturity after one year.

9. Accumulated Other Comprehensive Income (Loss) The components of comprehensive income are: (a) net earnings; (b) change in fair value of certain derivative instruments; (c) pension and other postretirement benefit adjustments; and (d) foreign currency translation adjustments. The net effect of exchange rate fluctuations generally reflects changes in the relative strength of the U.S. dollar against major foreign currencies between the beginning and end of the year.

The following table lists the beginning balance, yearly activity and ending balance of each component of accumulated other comprehensive income (loss):

	Net Effect of Exchange Rate Fluctuations	Deferred Tax Effect for Translation	Change in Minimum Pension Liability	Change in Certain Derivative Instruments	Employee Benefit Plans	Total Accumulated Comprehensive Income (Loss)
Balance on Jan. 1, 2006	\$ (97.0)	\$ 12.8	\$ (145.5)	\$ 14.4	\$ -	\$ (215.3)
2006 Change	284.9		55.0	(49.3)	(71.0)	219.6
Translation effect			(17.6)			(17.6)
Tax effect			(14.8)		23.6	8.8
Balance on Dec. 31, 2006	187.9	12.8	(122.9)	(34.9)	(47.4)	(4.5)
2007 Change	305.3			28.2	41.5	375.0
Translation effect					(6.7)	(6.7)
Reclass			122.9	2.2	(125.1)	-
Tax effect					(8.6)	(8.6)
Balance on Dec. 31, 2007	493.2	12.8	-	(4.5)	(146.3)	355.2
2008 Change	(431.9)			(32.9)	(200.8)	(665.6)
Translation effect					46.1	46.1
Tax effect					55.1	55.1
Balance on Dec. 31, 2008	\$ 61.3	\$ 12.8	\$ -	\$ (37.4)	\$ (245.9)	\$ (209.2)

For 2008 and 2007, respectively, foreign currency translation adjustments include a loss of approximately \$19.9 million and \$35.1 million related to a hedge of the Company's net investment in a non-U.S. subsidiary.

10. Income Taxes Deferred income taxes reflect: (1) the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes and (2) carryovers and credits for income tax purposes.

Significant components of the Company's deferred tax assets and liabilities at December 31, 2008 and 2007 are as follows:

	2008	2007
Deferred tax assets:		
Tax loss carryovers	\$ 233.5	\$ 242.1
Capital loss carryovers	23.7	32.7
Accrued postretirement benefits	20.2	24.4
Other, principally accrued liabilities	190.0	195.5
Total deferred tax assets	467.4	494.7
Deferred tax liabilities:		
Property, plant and equipment	143.9	221.8
Inventory	13.4	20.0
Other	46.1	49.7
Total deferred tax liabilities	203.4	291.5
Valuation allowance	(255.4)	(213.9)
Net deferred tax liabilities	\$ 8.6	\$ (10.7)

Deferred taxes are included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid expenses	\$ 24.8	\$ 11.8
Deposits, receivables, and other assets	101.3	124.7
Deferred taxes	(117.5)	(147.2)
Net deferred tax liabilities	\$ 8.6	\$ (10.7)

The provision for income taxes consists of the following:

	2008	2007	2006
Current:			
U.S. Federal	\$ (0.4)	\$ -	\$ -
State	0.6	0.4	0.3
Foreign	213.0	144.3	113.1
	213.2	144.7	113.4
Deferred:			
U.S. Federal	4.0	0.3	12.9
State	(3.2)	(4.0)	(3.6)
Foreign	9.8	(1.9)	16.1
	10.6	(5.6)	25.4
Total:			
U.S. Federal	3.6	0.3	12.9
State	(2.6)	(3.6)	(3.3)
Foreign	222.8	142.4	129.2
	\$ 223.8	\$ 139.1	\$ 138.8

The provision for income taxes was calculated based on the following components of earnings (loss) before income taxes:

	2008	2007	2006
Domestic	\$ 191.2	\$ 37.4	\$ (119.1)
Foreign	698.9	687.3	452.6
	\$ 890.1	\$ 724.7	\$ 333.5

A reconciliation of the provision for income taxes based on the statutory U.S. Federal tax rate of 35% to the provision for income taxes is as follows:

	2008	2007	2006
Tax provision (benefit) on pretax earnings (loss) from continuing operations at statutory U.S. Federal tax rate	\$ 311.5	\$ 253.7	\$ 116.7
Increase (decrease) in provision for income taxes due to:			
Valuation allowance - U.S.	(53.7)	(538.3)	46.5
Foreign subsidiary ownership restructuring and incentives	35.1	535.9	30.8
Foreign source income taxable in the U.S.	11.3	29.3	1.8
Reversal of non-U.S. tax valuation allowance	-	(13.4)	(34.7)
Foreign tax credit utilization	-	(47.9)	
State taxes, net of federal benefit	(1.3)	(4.8)	(0.3)
Rate differences on non-U.S. earnings	(55.3)	(65.8)	(22.1)
Adjustment for non-U.S. tax law changes	(20.1)	(9.9)	(1.6)
Other items	(3.7)	0.3	1.7
Provision for income taxes	\$ 223.8	\$ 139.1	\$ 138.8

In 2007 the Company implemented a plan to restructure the ownership and intercompany obligations of certain foreign subsidiaries. These actions resulted in taxation of a significant portion of previously unremitted foreign earnings and will transfer a portion of the Company's debt service obligations to operations outside the U.S. in order to better balance operating cash flows with financing costs on a global basis. The foreign earnings reported as taxable in the U.S. were offset by net operating loss carryforwards and foreign tax credits. Foreign tax credit carryforwards arising from the restructuring were fully offset by an increase in the valuation allowance.

The Company has recognized tax benefits as a result of incentives in certain non-U.S. jurisdictions which expire between 2012 and 2015.

The Company is included in OI Inc.'s consolidated tax returns. OI Inc. has net operating losses, capital losses, alternative minimum tax credits, and research and development credits available to offset future U.S. Federal income tax.

At December 31, 2008, the Company's equity in the undistributed earnings of foreign subsidiaries for which income taxes had not been provided approximated \$1,583.2 million. The Company intends to reinvest these earnings indefinitely in the non-U.S. operations. It is not practicable to estimate the U.S. and foreign tax which would be payable should these earnings be distributed.

The Company adopted FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes," ("FIN 48") as of January 1, 2007. This interpretation was issued to clarify the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FAS No. 109, "Accounting for Income Taxes." FIN 48 defines criteria that a tax position must meet for any part of the benefit of that position to be recognized in an enterprise's financial statements and also includes requirements for measuring the amount of the benefit to be recognized in the financial statements.

As a result of the adoption of FIN 48, the Company recognized no adjustment to retained earnings for unrecognized income tax benefits. The Company reclassified \$28.5 million of deferred tax assets related to general business credits and net operating losses that were previously offset by a full valuation allowance to the liability for unrecognized income tax benefits. This balance sheet reclassification had no effect on share owners' equity. In connection with the adoption of FIN 48, the Company is maintaining its historical method of accruing interest and penalties associated with unrecognized income tax benefits as a component of its income tax expense.

The following is a reconciliation of the Company's total gross unrecognized tax benefits for the year ended December 31, 2008:

	2008	2007
Balance at January 1	\$ 53.0	\$ 45.8
Additions for tax positions of prior years	51.2	0.1
Reductions for tax positions of prior years	(2.1)	(2.5)
Additions based on tax positions related to the current year	6.1	11.0
Reductions due to the lapse of the applicable statute of limitations	(3.1)	(1.4)
Reductions due to settlements	(2.0)	-
Balance at December 31	\$ 103.1	\$ 53.0

At December 31, 2008 and December 31, 2007, accrued interest and penalties related to unrecognized tax benefits were \$14.5 million and \$3.9 million, respectively. Tax expense for the year ended December 31, 2008 includes interest and penalties of \$5.4 million on unrecognized tax benefits for prior years.

The unrecognized tax benefit liability, including interest and penalties, as of December 31, 2008 and December 31, 2007 was \$117.6 million and \$56.9 million respectively. Approximately \$72.7 million and \$41.1 million as of December 31, 2008 and December 31, 2007, respectively, relate to unrecognized tax benefits, which if recognized, would impact the Company's effective income tax rate. This amount differs from the gross unrecognized tax benefits presented in the table above because of the unrecognized tax benefits that would result in the utilization of certain tax attribute carryforwards that are currently subject to a full valuation allowance due to uncertainties about their future period utilization.

For federal and certain state income tax purposes, the taxable income of the Company is included in the consolidated tax returns of OI Inc. and income taxes are allocated to the Company on a basis consistent with separate returns. Tax years through 1999 have been settled with the U.S. Internal Revenue Service and there is no current IRS examination in progress. Due to the existence of tax attribute carryforwards (which are currently offset by full valuation allowances) in the U.S., the Company treats certain post-1999 tax positions as unsettled because of the taxing authorities' ability to modify these attributes. The 2000 tax year is the earliest open year for the Company's other major tax jurisdictions.

The Company does not anticipate a significant change in the total amount of unrecognized income tax benefits within the next twelve months.

11. Related Party Transactions Charges for administrative services are allocated to the Company by OI Inc. based on an annual utilization level. Such services include compensation and benefits administration, payroll processing, use of certain general accounting systems, auditing, income tax planning and compliance, and treasury services. Beginning in 2008, the Company revised its method of allocating corporate expenses. The Company decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services.

Allocated costs also include charges associated with OI Inc.'s equity compensation plans. A substantial number of the options, restricted shares and restricted share units granted under these plans have been granted to key employees of another subsidiary of OI Inc., some of whose compensation costs, including stock-based compensation, are included in an allocation of costs to all operating subsidiaries of OI Inc., including the Company.

Management believes that such transactions are on terms no less favorable to the Company than those that could be obtained from unaffiliated third parties.

The following information summarizes the Company's significant related party transactions:

	Years ended December 31,		
	2008	2007	2006
Revenues:			
Sales to affiliated companies	\$ -	\$ 0.3	\$ 0.5
Expenses:			
Administrative services	15.0	19.5	25.5
Corporate management fee	60.9	29.1	27.1
Trademark royalties	19.9		
Total expenses	\$ 95.8	\$ 48.6	\$ 52.6

The above expenses are recorded in the statement of operations as follows:

	Years ended December 31,		
	2008	2007	2006
Cost of sales	\$ 0.9	\$ 16.9	\$ 22.6
Selling, general, and administrative expenses	94.9	31.7	30.0
Total expenses	\$ 95.8	\$ 48.6	\$ 52.6

Intercompany interest is charged to the Company from OI Inc. based on intercompany debt balances. An interest rate is calculated monthly based on OI Inc.'s total consolidated monthly external debt balance and the related interest expense, including finance fee amortization and commitment fees. The calculated rate (6.3% at December 31, 2008) is applied monthly to the intercompany debt balance to determine intercompany interest expense.

12. Pension Benefit Plans and Other Postretirement Benefits

Pension Benefit Plans

The Company participates in OI Inc.'s defined benefit pension plans for substantially all employees located in the United States. Benefits generally are based on compensation for salaried employees and on length of service for hourly employees. OI Inc.'s policy is to fund pension plans such that sufficient assets will be available to meet future benefit requirements. Independent actuaries determine pension costs for each subsidiary of OI Inc. included in the plans; however, accumulated benefit obligation information and plan assets pertaining to each subsidiary have not been separately determined. As such, the accumulated benefit obligation and the plan assets related to the pension plans for domestic employees have been retained by another subsidiary of OI Inc. Net credits to results of operations for the

Company's allocated portion of the domestic pension costs amounted to \$39.9 million in 2008, \$23.0 million in 2007, and \$7.7 million in 2006.

OI Inc. also sponsors several defined contribution plans for all salaried and hourly U.S. employees of the Company. Participation is voluntary and participants' contributions are based on their compensation. OI Inc. matches contributions of participants, up to various limits, in substantially all plans. OI Inc. charges the Company for its share of the match. The Company's share of the contributions to these plans amounted to \$6.0 million in 2008, \$5.7 million in 2007, and \$5.5 million in 2006.

The Company's subsidiaries in the United Kingdom, the Netherlands, Canada, Australia, and many employees of Germany and France also have pension plans covering substantially all employees. The following tables relate to the Company's principal defined benefit pension plans in the United Kingdom, the Netherlands, Canada, Australia, Germany and France (the International Pension Plans).

The International Pension Plans use a December 31 measurement date.

The changes in the International Pension Plans benefit obligations for the year were as follows:

	2008	2007
Obligations at beginning of year	\$ 1,617.1	\$ 1,544.4
Change in benefit obligations:		
Service cost	22.0	25.0
Interest cost	82.9	78.8
Actuarial gain, including the effect of change in discount rates	(52.7)	(92.1)
Participant contributions	8.8	10.0
Benefit payments	(89.4)	(85.5)
Plan amendments		(3.5)
Curtailments	(9.5)	(2.6)
Special termination benefits	4.4	
Foreign currency translation	(284.2)	136.4
Other		6.2
Net change in benefit obligations	(317.7)	72.7
Obligations at end of year	\$ 1,299.4	\$ 1,617.1

The changes in the fair value of the International Pension Plans' assets for the year were as follows:

	2008	2007
Fair value at beginning of year	\$ 1,376.8	\$ 1,253.3
Change in fair value:		
Actual gain (loss) on plan assets	(220.6)	24.4
Benefit payments	(89.4)	(85.5)
Employer contributions	60.1	59.6
Participant contributions	8.8	10.0
Foreign currency translation	(213.7)	115.0
Net change in fair value of assets	(454.8)	123.5
Fair value at end of year	\$ 922.0	\$ 1,376.8

The funded status of the International Pension Plans at year end was as follows:

	2008	2007
Plan assets at fair value	\$ 922.0	\$ 1,376.8
Projected benefit obligations	1,299.4	1,617.1
Plan assets less than projected benefit obligations	(377.4)	(240.3)
Items not yet recognized in pension expense:		
Actuarial loss	362.9	212.0
Prior service credit	(15.1)	(14.7)
	347.8	197.3
Net amount recognized	\$ (29.6)	\$ (43.0)

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Prepaid pension	\$ -	\$ 58.1
Current pension liability, included with Other accrued liabilities	(7.2)	(8.5)
Noncurrent pension liability, included with Pension benefits	(370.2)	(289.9)
Accumulated other comprehensive income	347.8	197.3
Net amount recognized	\$ (29.6)	\$ (43.0)

The following changes in plan assets and benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial (gain) loss	\$ 226.7	\$ (62.2)	\$ 164.5
Amortization of actuarial loss	(5.2)	1.1	(4.1)
Amortization of prior service credit	0.6	(0.1)	0.5
Curtailment	(8.5)	2.4	(6.1)
	213.6	(58.8)	154.8
Translation			(44.9)
	\$ 213.6	\$ (58.8)	\$ 109.9

The accumulated benefit obligation for all defined benefit pension plans was \$1,463.8 million and \$1,129.5 million at December 31, 2007 and 2008, respectively.

The components of the International Pension Plans' net pension expense were as follows:

	2008	2007	2006
Service cost	\$ 21.9	\$ 25.0	\$ 28.1
Interest cost	82.9	78.8	69.1
Expected asset return	(96.5)	(94.5)	(81.5)
Curtailment loss	0.1	0.1	
Special termination benefit	4.4		
Other	(1.1)	5.2	
Amortization:			
Prior service cost (credit)	(0.6)	(0.1)	0.2
Loss	5.2	11.4	15.8
Net amortization	4.6	11.3	16.0
Net expense	\$ 16.3	\$ 25.9	\$ 31.7

Amounts that will be amortized from accumulated other comprehensive income into net pension expense during 2009:

Amortization:		
Loss		\$ 5.2
Prior service credit		(0.8)
Net amortization		\$ 4.4

The following information is for plans with projected benefit obligations in excess of the fair value of plan assets at year end:

	2008	2007
Projected benefit obligations	\$ 1,299.4	\$ 1,114.6
Fair value of plan assets	922.0	816.1

The following information is for plans with accumulated benefit obligations in excess of the fair value of plan assets at year end:

	2008	2007
Accumulated benefit obligations	\$ 1,129.5	\$ 1,008.3
Fair value of plan assets	922.0	816.1

The weighted average assumptions used to determine benefit obligations were as follows:

	2008	2007
Discount rate	5.88%	5.46%
Rate of compensation increase	2.65%	3.39%

The weighted average assumptions used to determine net periodic pension costs were as follows:

	2008	2007	2006
Discount rate	5.46%	4.92%	4.57%
Rate of compensation increase	3.39%	3.34%	3.78%
Expected long-term rate of return on assets	6.96%	7.16%	7.15%

Future benefits are assumed to increase in a manner consistent with past experience of the plans, which, to the extent benefits are based on compensation, includes assumed salary increases as presented above. Amortization included in net pension expense is based on the average remaining service of employees.

For 2008, the Company's weighted average expected long-term rate of return on assets was 6.96%. In developing this assumption, the Company evaluated input from its third party pension plan asset managers, including their review of asset class return expectations and long-term inflation assumptions. The Company also considered its historical 10-year average return (through December 31, 2007), which was in line with the expected long-term rate of return assumption for 2008.

The weighted average actual asset allocations and weighted average target allocation ranges by asset category for the Company's pension plan assets were as follows:

Asset Category	Actual Allocation		Target Allocation Ranges
	2008	2007	
Equity securities	31%	63%	28-38%
Debt securities	56%	28%	44-54%
Real estate	5%	5%	0-10%
Other	8%	4%	8-18%
Total	100%	100%	

It is the Company's policy to invest pension plan assets in a diversified portfolio consisting of an array of asset classes within the above target asset allocation ranges. The investment risk of the assets is limited by appropriate diversification both within and between asset classes. The assets are primarily invested in a broad mix of domestic and international equities, domestic and international bonds, and real estate, subject to the target asset allocation ranges. The assets are managed with a view to ensuring that sufficient liquidity will be available to meet expected cash flow requirements.

Based on exchange rates at the end of 2008, the Company expects to contribute approximately \$70 million to \$75 million to its defined benefit pension plans in 2009.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	97.0
2010	70.0
2011	70.0
2012	74.0
2013	76.9
2014 - 2018	400.2

Postretirement Benefits Other Than Pensions

OI Inc. provides certain retiree health care and life insurance benefits covering substantially all U.S. salaried and certain hourly employees and substantially all employees in Canada and The Netherlands. Employees are generally eligible for benefits upon retirement and completion of a specified number of years of creditable service. Independent actuaries determine postretirement benefit costs for each subsidiary of OI Inc.; however, accumulated postretirement benefit obligation information pertaining to each subsidiary has not been separately determined. As such, the accumulated postretirement benefit obligation has been retained by another subsidiary of OI Inc.

The Company's net periodic postretirement benefit cost, as allocated by OI Inc., for domestic employees was \$5.8 million, \$8.1 million, and \$14.7 million, at December 31, 2008, 2007, and 2006, respectively.

The Company's subsidiaries in Canada and the Netherlands also have postretirement benefit plans covering substantially all employees. The following tables relate to the Company's postretirement benefit plan in Canada and the Netherlands (the International Postretirement Benefit Plans).

The changes in the International Postretirement Benefit Plans obligations were as follows:

	2008	2007
Obligations at beginning of year	\$ 95.0	\$ 76.9
Change in benefit obligations:		
Service cost	1.2	1.3
Interest cost	4.5	4.0
Actuarial (gain) loss, including the effect of changing discount rates	(11.9)	2.5
Curtailments	(2.9)	(0.8)
Special termination benefits	0.9	
Benefit payments	(3.1)	(3.3)
Foreign currency translation	(16.7)	14.4
Net change in benefit obligations	(28.0)	18.1
Obligations at end of year	\$ 67.0	\$ 95.0

The funded status of the International Postretirement Benefit Plans at year end was as follows:

	2008	2007
Postretirement benefit obligations	\$ 67.0	\$ 95.0
Items not yet recognized in net postretirement benefit cost:		
Actuarial gain	6.8	(7.3)
Net amount recognized	\$ 73.8	\$ 87.7

The net amount recognized is included in the Consolidated Balance Sheets at December 31, 2008 and 2007 as follows:

	2008	2007
Current nonpension postretirement benefit, included with		
Other accrued liabilities	\$ (3.1)	\$ (3.7)
Nonpension postretirement benefits	(63.9)	(91.3)
Accumulated other comprehensive income	(6.8)	7.3
Net liability recognized	\$ (73.8)	\$ (87.7)

The following changes in benefit obligations were recognized in accumulated other comprehensive income at December 31, 2008 as follows:

	Pretax	Tax Effect	After-tax
Current year actuarial loss	\$ (10.4)	\$ 3.0	\$ (7.4)
Amortization of actuarial loss	0.1		0.1
Curtailment	(2.5)	0.7	(1.8)
	(12.8)	3.7	(9.1)
Translation			(1.2)
	\$ (12.8)	\$ 3.7	\$ (10.3)

The Company's nonpension postretirement benefit obligations are included with other long term liabilities on the balance sheet.

The components of International Postretirement Benefit Plans net postretirement benefit cost were as follows:

	2008	2007	2006
Service cost	\$ 1.2	\$ 1.3	\$ 1.9
Interest cost	4.5	4.0	4.2
Curtailment			(15.9)
Special termination benefit	0.9		
Other	0.1		0.6
Amortization:			
Gain	(0.1)	(0.3)	(1.0)
Net postretirement benefit cost	\$ 6.6	\$ 5.0	\$ (10.2)

The weighted average discount rate used to determine the accumulated postretirement benefit obligation was 6.4% and 4.8% at December 31, 2008 and 2007, respectively.

The weighted average discount rate used to determine net postretirement benefit cost was 4.8% at December 31, 2008, 5.2% at December 31, 2007, and 4.8% at December 31, 2006.

The weighted average assumed health care cost trend rates at December 31 were as follows:

	2008	2007
Health care cost trend rate assumed for next year	9.00%	9.65%
Rate to which the cost trend rate is assumed to decline (ultimate trend rate)	5.00%	4.82%
Year that the rate reaches the ultimate trend rate	2010	2010

Assumed health care cost trend rates affect the amounts reported for the postretirement benefit plans. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	1-Percentage- Point Increase	1-Percentage- Point Decrease
Effect on total of service and interest cost	\$ 0.9	\$ 0.7
Effect on accumulated postretirement benefit obligations	9.3	7.7

Amortization included in net postretirement benefit cost is based on the average remaining service of employees.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

Year(s)	Amount
2009	\$ 3.1
2010	3.4
2011	3.7
2012	4.1
2013	4.4
2014 - 2018	25.9

Benefits provided by OI Inc. for certain hourly retirees of the Company are determined by collective bargaining. Most other domestic hourly retirees receive health and life insurance benefits from a multi-employer trust established by collective bargaining. Payments to the trust as required by the bargaining agreements are based upon specified amounts per hour worked and were \$8.9 million in 2008, \$7.4 million in 2007, and \$6.6 million in 2006. Postretirement health and life benefits for retirees of foreign subsidiaries are generally provided through the national health care programs of the countries in which the subsidiaries are located.

13. Other Income Other income in 2006 includes a gain of \$15.9 million (\$11.2 million after tax) related to curtailment of certain postretirement benefits in The Netherlands.

14. Other Expense Other expense for the year ended December 31, 2008 included the following:

- The Company recorded charges totaling \$132.4 million (\$110.1 million after tax and minority shareowners' interests), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 15 for additional information.

Other costs and expenses for the year ended December 31, 2007 included the following:

- In the South American Segment's 50%-owned Caribbean affiliate, declining productivity and cash flows resulted in impairment of the Company's equity investment, establishment of valuation allowances against advances to the affiliate, and accrual of certain contingent

obligations for total charges of \$45.0 million (\$43.9 million after tax) recorded in 2007 with an additional \$0.9 million (before and after tax) recorded in the first quarter of 2008.

- The Company recorded charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment. The charges reflect the additional decisions reached in the Company's ongoing strategic review of its global manufacturing footprint. See Note 15 for additional information.

Other costs and expenses for the year ended December 31, 2006 included the following:

- During the third quarter of 2006, the Company recorded a charge of \$27.5 million (\$25.6 million after tax), principally related to the closing of its Godfrey, Illinois machine parts manufacturing operation.

15. Restructuring Accruals Beginning in 2007, the Company commenced a strategic review of its global profitability and manufacturing footprint. The combined 2007 and 2008 charges, amounting to \$187.7 million (\$150.3 million after tax and minority shareowners' interests) and approximately 1,800 jobs and corresponding reduction in the Company's workforce, reflect the decisions reached through December 31, 2008 in the Company's ongoing strategic review of its global manufacturing footprint commenced in mid-2007. Amounts recorded by the Company do not include any gains that may be realized upon the ultimate sale or disposition of closed facilities.

2007

During the third and fourth quarters of 2007, the Company recorded restructuring charges totaling \$55.3 million (\$40.2 million after tax), for restructuring and asset impairment in Europe and North America.

As a result of its strategic review, the Company decided to curtail selected production capacity. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity resulted in elimination of approximately 560 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

2008

During 2008, the Company recorded restructuring charges totaling \$132.4 million (\$110.1 million after tax and minority share owners' interests). The 2008 charges consisted primarily of \$85.5 million for the closure of two Canadian plants with additional charges across all segments as well as in Retained Corporate Costs and Other.

As a continuation of the Company's strategic review in 2008, the Company decided to curtail and realign selected production capacity and other activities across all segments as well as in Retained Corporate Costs and Other. Because the future undiscounted cash flows of the related asset groups were not sufficient to recover their carrying amounts, certain assets were considered impaired. As a result, those assets were written down to the extent their carrying amounts exceeded fair value. The curtailment of plant capacity and realignment of selected operations will result in elimination of approximately 1,240 jobs and a corresponding reduction in the Company's workforce. The Company accrued certain employee separation costs, plant clean up, and other exit costs.

Probable cash expenditures for the 2007 and 2008 charges are expected to total approximately \$110 million. The Company expects that the majority of these costs will be paid out by the end of 2009.

Selected information related to the restructuring accrual is as follows:

	Employee Costs	Asset Impairment	Other	Total
2007 Charges	\$ 26.1	\$ 22.3	\$ 6.9	\$ 55.3
Write-down of assets to net realizable value	-	(22.3)	(2.4)	(24.7)
Total restructuring accrual at December 31, 2007	26.1	-	4.5	30.6
2008 charges	70.1	32.5	29.8	132.4
Write-down of assets to net realizable value		(32.5)	(4.7)	(37.2)
Net cash paid, principally severance and related benefits	(35.6)		(7.2)	(42.8)
Other, principally foreign exchange translation	(13.0)		(6.1)	(19.1)
Remaining restructuring accrual as of December 31, 2008	\$ 47.6	\$ -	\$ 16.3	\$ 63.9

BSN Acquisition

During the second quarter of 2005, the Company concluded its evaluation of acquired capacity in connection with the acquisition of BSN Glasspack S.A. and announced the permanent closing of its Düsseldorf, Germany glass container factory, and the shutdown of a furnace at its Reims, France glass container facility, both in 2005. These actions were part of the European integration strategy to optimally align the manufacturing capacities with the market and improve operational efficiencies. As a result, the Company recorded an accrual of €47.1 million through an adjustment to goodwill.

These actions resulted in the elimination of approximately 400 jobs and a corresponding reduction in the Company's workforce. The Company anticipates that it will pay a total of approximately €110.9 million in cash related to severance, benefits, plant clean-up, and other plant closing costs related to restructuring accruals.

The European restructuring accrual recorded in the second quarter of 2005 was in addition to the initial estimated accrual of €63.8 million recorded in 2004. Selected information related to the restructuring accrual is as follows, with 2008 activity translated from Euros into dollars at the December 31, 2008 exchange rate:

Remaining European restructuring accrual as of January 1, 2006	\$ 80.9
Net cash paid, principally severance and related benefits	(33.7)
Partial reversal of accrual (goodwill adjustment)	(7.6)
Other, principally foreign exchange translation	(1.5)
Remaining European restructuring accrual as of December 31, 2006	38.1
Net cash paid, principally severance and related benefits	(17.8)
Other, principally foreign exchange translation	7.4
Remaining European restructuring accrual as of December 31, 2007	27.7
Net cash paid, principally severance and related benefits	(6.1)
Other, principally foreign exchange translation	(4.8)
Remaining European restructuring accrual as of December 31, 2008	\$ 16.8

16. Contingencies Certain litigation is pending against the Company, in many cases involving ordinary and routine claims incidental to the business of the Company and in others presenting allegations that are nonroutine and involve compensatory, punitive or treble damage claims as well as other types of relief. In accordance with FAS No. 5, "Accounting for Contingencies," the Company records a liability for such matters when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. Recorded amounts are reviewed and adjusted to reflect changes in the factors upon which the estimates are based including additional information, negotiations, settlements, and other events. The ultimate legal and financial liability of the Company in respect to this pending litigation cannot be estimated with certainty. However, the Company believes, based on its examination and review of such matters and experience to date, that such ultimate liability will not have a material adverse effect on its results of operations or financial condition.

17. Segment Information The Company has four reportable segments based on its four geographic locations: (1) North America; (2) Europe; (3) Asia Pacific; (4) South America. These four segments are aligned with the Company's internal approach to managing, reporting, and evaluating performance of its global glass operations. Certain assets and activities not directly related to one of the regions or to glass manufacturing are reported with Other. These include licensing, equipment manufacturing, global engineering, and non-glass equity investments.

The Company's measure of profit for its reportable segments is Segment Operating Profit, which consists of consolidated earnings before interest income, interest expense, provision for income taxes and minority share owners' interests in earnings of subsidiaries and excludes amounts related to certain items that management considers not representative of ongoing operations. The Company's management uses Segment Operating Profit, in combination with selected cash flow information, to evaluate performance and to allocate resources.

Segment Operating Profit for reportable segments includes an allocation of some corporate expenses based on both a percentage of sales and direct billings based on the costs of specific services provided. Beginning in 2008, the OI Inc. revised its method of allocating corporate expenses. OI Inc. decreased slightly the percentage allocation based on sales and significantly expanded the number of functions included in the allocation based on cost of services. It is not practicable to quantify the net effect of these changes on periods prior to 2008.

Financial information regarding the Company's reportable segments is as follows:

Net Sales:	2008	2007	2006
Europe	\$ 3,497.8	\$ 3,298.7	\$ 2,846.6
North America	2,209.7	2,271.3	2,110.4
South America	1,135.9	970.7	796.5

2007	107.3	210.3	81.7	54.3	453.6	2.2	455.8
2006	110.2	203.3	81.4	56.3	451.2	7.9	459.1

(1) Excludes property, plant and equipment acquired through acquisitions.

The Company's net property, plant, and equipment by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 636.3	\$ 1,966.1	\$ 2,602.4
2007	633.1	2,271.1	2,904.2
2006	668.4	2,172.8	2,841.2

The Company's net sales by geographic segment are as follows:

	United States	Foreign	Total
2008	\$ 1,894.8	\$ 5,989.9	\$ 7,884.7
2007	1,920.6	5,646.1	7,566.7
2006	1,787.6	4,904.8	6,692.4

Operations in individual countries outside the United States that accounted for more than 10% of consolidated net sales were in Italy (2008 - 10.7%, 2007 - 10.1%) and France (2008 - 14.7%, 2007 - 19.3%, 2006 - 19.3%).

18. Additional Interest Charges from Early Extinguishment of Debt During 2007, the Company recorded additional interest charges of \$9.5 million (\$8.8 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity. During 2006, the Company recorded additional interest charges of \$17.5 million (\$17.1 million after tax) for note repurchase premiums and the write-off of unamortized finance fees related to debt that was repaid prior to its maturity.

19. Goodwill The changes in the carrying amount of goodwill for the years ended December 31, 2006, 2007 and 2008 are as follows:

	North America	Europe	Asia Pacific	South America	Other	Total
Balance as of January 1, 2006	\$ 747.5	\$ 926.7	\$ 470.8	\$ -	\$ 14.7	\$ 2,159.7
Translation effects	2.8	99.5	31.3			133.6
Other changes, principally adjustments to reverse foreign deferred tax valuation allowances	(28.7)	(9.2)			(0.2)	(38.1)
Balance as of December 31, 2006	721.6	1,017.0	502.1	-	14.5	2,255.2
Translation effects	25.1	115.3	54.6			195.0
Other changes	(1.1)	(13.0)			(8.0)	(22.1)
Balance as of December 31, 2007	745.6	1,119.3	556.7	-	6.5	2,428.1
Translation effects	(28.8)	(58.2)	(123.1)		0.3	(209.8)
Other changes		(10.1)			(0.7)	(10.8)
Balance as of December 31, 2008	\$ 716.8	\$ 1,051.0	\$ 433.6	\$ -	\$ 6.1	\$ 2,207.5

During the fourth quarters of 2008, 2007 and 2006, the Company completed its annual impairment testing and determined that no impairment existed.

20. Fair Value Measurements In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, “Fair Value Measurements” (FAS No. 157), which defines fair value, establishes a framework for measuring fair value and enhances disclosure about fair value measurements. On February 2, 2008, the FASB issued FASB Staff Position No. 157-2 (FSP 157-2) which delays the effective date of FAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on at least an annual basis. Where the measurement objective specifically requires the use of “fair value” the Company has adopted the provisions of FAS No. 157 related to financial assets and financial liabilities as of January 1, 2008. The adoption of FAS No. 157 had no impact on the Company.

FAS No. 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. FAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The Company’s derivative assets and liabilities consist of interest rate swaps, natural gas forwards, and foreign exchange option and forward contracts. The Company uses an income approach to valuing these contracts. Interest rate yield curves, natural gas forward rates, and foreign exchange rates are the significant inputs into the valuation models. These inputs are observable in active markets over the terms of the instruments the Company holds, and accordingly, the Company classifies the \$0.4 net derivative liability as Level 2 in the hierarchy. The Company also evaluates counterparty risk in determining fair values.

The Company adopted Statement of Financial Accounting Standards No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of FASB Statement No. 115” (“FAS No. 159”), effective January 1, 2008. This standard permits entities to choose to measure many financial instruments and certain other items at fair value. While FAS No. 159 became effective January 1, 2008, the Company did not elect the fair value measurement option for any of its financial assets or liabilities.

Market for Common Stock

As shown below, the price range for the Company's common stock on the New York Stock Exchange, as reported by The Financial Industry Regulatory Authority, Inc. was as follows:

	2008		2007	
	High	Low	High	Low
1st Q	\$58.68	\$38.60	\$26.17	\$18.48
2nd Q	60.60	41.49	35.11	25.82
3rd Q	48.60	23.66	42.64	32.66
4th Q	29.53	15.20	50.46	39.33

No dividends have been declared or paid on the common stock since the Company's initial public offering in December 1991.

Share Owners

The number of share owners of record on January 31, 2009 was 1,090. Approximately 94% of the outstanding shares were registered in the name of Depository Trust Company, or CEDE, which held such shares on behalf of a number of brokerage firms, banks and other financial institutions. The shares attributed to these financial institutions, in turn, represented the interests of more than 25,000 beneficial owners.

Annual Certifications

The most recent certifications by the Chief Executive Officer and the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits to the Company's Form 10-K. The Company has also filed with the New York Stock Exchange the most recent Annual CEO Certification as required by Section 303A.12(a) of the New York Stock Exchange Listed Company Manual.
